S.B. No. 1134

Substitute the following for S.B. No. 1134:

By: J. Davis of Harris

C.S.S.B. No. 1134

A BILL TO BE ENTITLED

AN ACT

relating to the issuance of permits for certain facilities
regulated by the Texas Commission on Environmental Quality.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Subchapter C, Chapter 382, Health and Safety
Code, is amended by adding Sections 382.051961, 382.051962, and
382.051963 to read as follows:

Sec. 382.051961. PERMIT FOR CERTAIN OIL AND GAS
FACILITIES. (a) This section applies only to new facilities or
modifications of existing facilities that belong to Standard
Industrial Classification Codes 1311 (Crude Petroleum and Natural
Gas), 1321 (Natural Gas Liquids), 4612 (Crude Petroleum Pipelines),
4613 (Refined Petroleum Pipelines), 4922 (Natural Gas
Transmission), and 4923 (Natural Gas Transmission and
Distribution).

(b) The commission may not adopt a new permit by rule or a
new standard permit or amend an existing permit by rule or an
existing standard permit relating to a facility to which this
section applies unless the commission:

(1) conducts a regulatory analysis as provided by
Section 2001.0225, Government Code;

(2) determines, based on the evaluation of credible
air quality monitoring data, that the emissions limits or other
emissions-related requirements of the permit are necessary to

1 ensure that the intent of this chapter is not contravened,
2 including the protection of the public's health and physical
3 property;

4 (3) establishes any required emissions limits or other
5 emissions-related requirements based on:

6 (A) the evaluation of credible air quality
7 monitoring data; and

8 (B) credible air quality modeling that is not
9 based on the worst-case scenario of emissions or other worst-case
10 modeling scenarios unless the actual air quality monitoring data
11 and evaluation of that data indicate that the worst-case scenario
12 of emissions or other worst-case modeling scenarios yield modeling
13 results that reflect the actual air quality monitoring data and
14 evaluation; and

15 (4) considers whether the requirements of the permit
16 should be imposed only on facilities that are located in a
17 particular geographic region of the state.

18 (c) The air quality monitoring data and the evaluation of
19 that data under Subsection (b):

20 (1) must be relevant and technically and
21 scientifically credible, as determined by the commission; and

22 (2) may be generated by an ambient air quality
23 monitoring program conducted by or on behalf of the commission in
24 any part of the state or by another governmental entity of this
25 state, a local or federal governmental entity, or a private
26 organization.

27 Sec. 382.051962. AUTHORIZATION FOR PLANNED MAINTENANCE,

1 START-UP, OR SHUTDOWN ACTIVITIES RELATING TO CERTAIN OIL AND GAS
2 FACILITIES. (a) In this section, "planned maintenance, start-up,
3 or shutdown activity" means an activity with emissions or opacity
4 that:

5 (1) is not expressly authorized by commission permit,
6 rule, or order and involves the maintenance, start-up, or shutdown
7 of a facility;

8 (2) is part of normal or routine facility operations;

9 (3) is predictable as to timing; and

10 (4) involves the type of emissions normally authorized
11 by permit.

12 (b) The commission may adopt one or more permits by rule or
13 one or more standard permits and may amend one or more existing
14 permits by rule or standard permits to authorize planned
15 maintenance, start-up, or shutdown activities for facilities
16 described by Section 382.051961(a). The adoption or amendment of a
17 permit under this subsection must comply with Section
18 382.051961(b).

19 (c) An unauthorized emission or opacity event from a planned
20 maintenance, start-up, or shutdown activity is subject to an
21 affirmative defense as established by commission rules as those
22 rules exist on the effective date of this section if:

23 (1) the emission or opacity event occurs at a facility
24 described by Section 382.051961(a);

25 (2) an application or registration to authorize the
26 planned maintenance, start-up, or shutdown activities of the
27 facility is submitted to the commission on or before the earlier of:

1 (A) January 5, 2014; or

2 (B) the 120th day after the effective date of a
3 new or amended permit adopted by the commission under Subsection
4 (b); and

5 (3) the affirmative defense criteria in the rules are
6 met.

7 (d) The affirmative defense described by Subsection (c) is
8 not available for a facility on or after the date that an
9 application or registration to authorize the planned maintenance,
10 start-up, or shutdown activities of the facility is approved,
11 denied, or voided.

12 Sec. 382.051963. AMENDMENT OF CERTAIN PERMITS. (a) A
13 permit by rule or standard permit that has been adopted by the
14 commission under this subchapter and is in effect on the effective
15 date of this section may be amended to require:

16 (1) the permit holder to provide to the commission
17 information about a facility authorized by the permit, including
18 the location of the facility; and

19 (2) any facility handling sour gas to be a minimum
20 distance from a recreational area, a residence, or another
21 structure not occupied or used solely by the operator of the
22 facility or by the owner of the property upon which the facility is
23 located.

24 (b) The amendment of a permit under this section is not
25 subject to Section 382.051961(b).

26 SECTION 2. (a) Sections 382.051961, 382.051962, and
27 382.051963, Health and Safety Code, as added by this Act, apply only

1 to a new permit by rule or a new standard permit or any amendment to
2 an existing permit by rule or amendment to an existing standard
3 permit adopted by the Texas Commission on Environmental Quality on
4 or after the effective date of this Act.

5 (b) A permit by rule or standard permit adopted by the Texas
6 Commission on Environmental Quality and in effect before the
7 effective date of this Act is not subject to Sections 382.051961 and
8 382.051962, Health and Safety Code, as added by this Act.

9 SECTION 3. This Act takes effect immediately if it receives
10 a vote of two-thirds of all the members elected to each house, as
11 provided by Section 39, Article III, Texas Constitution. If this
12 Act does not receive the vote necessary for immediate effect, this
13 Act takes effect September 1, 2011.
