AN ACT
relating to requiring direct access to 9-1-1 service from certain telephone systems and equivalent systems that use Internet Protocol enabled services.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:
SECTION 1. This Act shall be known as Kari's Law.
SECTION 2. Subtitle B, Title 9, Health and Safety Code, is amended by adding Chapter 771A to read as follows:

CHAPTER 771A. ACCESS TO EMERGENCY COMMUNICATIONS SERVICES IN GENERAL

Sec. 771A.001. DIRECT ACCESS TO 9-1-1 SERVICE REQUIRED.
(a) In this chapter:
(1) "9-1-1 service" means a communications service that connects users to a public safety answering point through a 9-1-1 system.
(2) "Business service user" means a user of business service that provides telecommunications service, including 9-1-1 service, to end users through a publicly or privately owned or controlled telephone switch.
(3) "Commission" means the Commission on State Emergency Communications.
(4) "Emergency communication district" means:
(A) a public agency or group of public agencies acting jointly that provided 9-1-1 service before September 1,
1987, or that had voted or contracted before that date to provide
that service; or

(B) a district created under Subchapter B, C, D, F, or G, Chapter 772.

(5) "Internet Protocol enabled service" has the
meaning assigned by Section 51.002, Utilities Code.

(6) "Telephone system" includes a multiline telephone
system.

(b) This section applies to the extent the section is not
inconsistent with or preempted by federal law.

(c) Notwithstanding any other law, a business service user
that owns or controls a telephone system or an equivalent system
that uses Internet Protocol enabled service and provides outbound
dialing capacity or access shall configure the telephone system or
equivalent system to allow a person initiating a 9-1-1 call on the
system to directly access 9-1-1 service by dialing the digits 9-1-1
without an additional code, digit, prefix, postfix, or trunk-access
code.

(d) A business service user that provides residential or
business facilities, owns or controls a telephone system or an
equivalent system that uses Internet Protocol enabled service, and
provides outbound dialing capacity or access shall configure the
telephone system or equivalent system to provide a notification to
a central location on the site of the residential or business
facility when a person within the residential or business facility
dials 9-1-1 if the system is able to be configured to provide the
notification without an improvement to the system's hardware. This
subsection does not require a business service user to have a person
available at the central location to receive a notification.

(e) The commission or the applicable emergency
communication district shall grant a one-year waiver of the
requirements under this section to a business service user if:

(1) the requirements would be unduly and unreasonably
cost prohibitive for a business service user to comply with; and

(2) the business service user provides an affidavit
not later than September 1 of each year stating:

(A) the manufacturer and model number of the
telephone system or equivalent system that needs to be reprogrammed
or replaced;

(B) that the business service user made a good
faith attempt to reprogram or replace the system; and

(C) if the telephone system or equivalent system
does not comply with Subsection (c), that the business service user
agrees to place an instructional sticker immediately adjacent to
each telephone that is accessed using the noncompliant system
indicating that during the waiver period the telephone is unable to
directly dial 9-1-1 and providing instructions for accessing 9-1-1
in case of an emergency. The instructional sticker must be printed
in at least 16-point boldface type in a contrasting color using a
font that is easily readable.

(f) The commission may adopt rules to implement this section
for areas that are governed by a regional plan, and an emergency
communication district may adopt those rules in accordance with
Section 771.062.
(g) On the request of the business service user, the commission, an emergency communication district, or a home-rule municipality that independently operates a 9-1-1 system shall provide assistance to a business service user that is within the applicable governmental entity's jurisdiction in complying with this section.

SECTION 3. A business service user, as defined by Section 771A.001(a), Health and Safety Code, as added by this Act, shall comply with Section 771A.001, Health and Safety Code, as added by this Act, not later than September 1, 2016.

SECTION 4. This Act takes effect immediately if it receives a vote of two-thirds of all the members elected to each house, as provided by Section 39, Article III, Texas Constitution. If this Act does not receive the vote necessary for immediate effect, this Act takes effect September 1, 2015.
S.B. No. 788

President of the Senate

I hereby certify that S.B. No. 788 passed the Senate on April 16, 2015, by the following vote: Yeas 30, Nays 1.

Speaker of the House

I hereby certify that S.B. No. 788 passed the House on April 30, 2015, by the following vote: Yeas 137, Nays 2, one present not voting.

Secretary of the Senate

Chief Clerk of the House
