- a. The Texas Higher Education Coordinating Board shall 1) determine whether each eligible public community/junior college has complied with all the provisions of this section; 2) determine each college's list of approved courses; and 3) certify its findings and such lists to the State Auditor not later than October 1 of each fiscal year. Each public community/junior college shall make such reports to the Texas Higher Education Coordinating Board as may be required, classified in accordance with the rules and regulations issued by the Board.
 - b. On or before the dates for reporting official enrollments each semester to the Texas Higher Education Coordinating Board, each college will collect in full from each student that is to be counted for state aid purposes the amounts set as tuition by the respective governing boards. Financial aid awards processed by the financial aid office but not yet issued to the student shall be considered as collections thereunder but subject to adjustments after final payment thereof.
 - c. Each community/junior college must use a registration and financial reporting system which is sufficient to satisfy the audit requirements of the State Auditor and furnish any reports and information as the auditor may require.
 - d. Each community/junior college must file by December 1 of each fiscal year directly with the Governor, Legislative Budget Board, the Legislative Reference Library, and the Texas Higher Education Coordinating Board, a copy of an annual operating budget, and subsequent amendments thereto, approved by the community/junior college governing board. The operating budget shall be in such form and manner as may be prescribed by the board and/or agency with the advice of the State Auditor providing, however, that each report include departmental operating budgets by function.
- 3. Audit of Compliance.** The compliance of each public community/junior college with the requirements set forth in the paragraphs above shall be ascertained by the State Auditor who shall also audit the pertinent books and records of each college as necessary.
- 4. Vouchers for Disbursement of Appropriated Funds.** Vouchers for disbursement of the sums appropriated hereinabove shall be prepared by the Texas Higher Education Coordinating Board on the basis of the provisions in the paragraphs above and the warrants issued in payment thereof shall be issued in compliance with Education Code, §130.0031.

- 6. Adjustment of Contact Hours.** Texas Higher Education Coordinating Board is authorized to review the accuracy of the contact hour data reported to the Coordinating Board by community college districts. 9. **Residency of Texas Department of Criminal Justice Inmates.** All inmates of the Texas Department of Criminal Justice are, for educational funding purposes in this Act only, residents of the State of Texas.
10. **Regional Import/Export Training Center.** Appropriations of \$48,125 each year made above are contingent upon certification by the Comptroller of Public Accounts that increased economic activity associated with the Regional Import/Export Training Center and the Laredo Community College will generate at least \$96,250 for the biennium in additional revenue to the General Revenue Fund. It is the intent of the Legislature that state funds provided to the Regional Import/Export Training Center be used by the Center to attract federal funds on a dollar-for-dollar basis. If the amount that can be certified is less than the maximum amount appropriated, the amounts appropriated shall be reduced to be within the amounts certified.
11. **Informational Listing of Other Appropriations.** In addition to the funds appropriated above, General Revenue is appropriated elsewhere in this Act for the use of the Public Community/Junior Colleges as follows:

 - c. additional space and mechanical systems or renovation of existing buildings in accordance with the Campus Master Plans and subject to approval by the Texas Higher Education Coordinating Board.

2. **Financial Records.** The financial records and reports of the Texas State Technical College shall classify accounts in accordance with the recommendation of the National Committee on the Preparation of a Manual on College and University Business Administration, as set forth in Volume I of "College and University Business Administration," published by the American Council on Education with a copyright date of 1952, and subsequent published revisions with such modifications as may be developed and provided by the Comptroller of Public Accounts, or as may be required to conform with specific provisions of the Appropriation Acts of the Legislature. The accounts of the Texas State Technical College shall be maintained and audited in accordance with the approved reporting system. SPECIAL PROVISIONS RELATING ONLY TO COMPONENTS OF TEXAS STATE TECHNICAL COLLEGE

(Continued)

The Texas State Technical College shall offer only such courses as are economically justified in the considered judgment of the Board of Regents. The Board of Regents shall adopt policies specifying the conditions under which classes of less than 10 students by headcount are to be considered necessary and justifiable. The Board of Regents shall direct the chancellor or other officials to review enrollment data prior to the designated Coordinating Board census date and take all necessary actions to ensure that the small classes offered on each campus are only those that conform with established policies on small classes.

4. **Certification of Compliance.** Expenditure of the funds appropriated herein above is contingent upon annual certification by the chancellor of the Texas State Technical College to the Comptroller of Public Accounts that the Texas State Technical College is in compliance with these provisions regarding budgets, accounting procedures and enrollment.
5. **Approved Geographic Locations.** None of the funds appropriated above to the Texas State Technical College shall be expended in promoting, developing or creating a campus or extension center at any other location in the state except as specified in Education Code §135.02.
6. **Temporary Special Courses.** Out of funds appropriated herein above to the Texas State Technical College in pre-apprenticeship, related training for apprentices and specialized training for journeymen and compensatory training for pre-apprenticeship and apprenticeship enrollees, and plant expansion and new plant start-up training program no more than \$50,000 per year may be spent wherever the need exists within the state in conjunction with curriculum approval by the Texas Higher Education Coordinating Board. Such expenditure of funds for these special courses are temporary in nature and outside the provision of Education Code §135.04.
7. **Aircraft Pilot Training Programs.** Funds may be used for the operation, maintenance or lease of aircraft for use in the Aircraft Pilot Training programs subject to the requirement that excess costs of flight instruction be recovered by an assessment of charge to student pilots. This income shall be separately accounted for and credited as a reduction in expenditure in the Aircraft Pilot Training Program.
8. **Approval of Plans by Foundations.** Any use of the Texas State Technical College's assets or facilities including, but not limited to, buildings, equipment or employees by existing foundations or for the promotion of foundations shall require prior approval of the Board of Regents. Approval is contingent upon receipt by the Board of Regents of a satisfactory annual plan of operation. At a minimum, this plan must specify the proposed use of any Texas State Technical College facilities, equipment, and personnel; payments made directly to Texas State Technical College personnel for services provided or expenses incurred; and donations of funds to the Texas State Technical College for designated purposes. All funds donated by foundations to the Texas State Technical College shall be received and accounted for in the same manner as all other Texas State Technical College funds. After Board of Regents approval, the plan shall be filed with the Legislative Budget Board.
9. **Campus President Salaries.** Out of the funds appropriated to each campus of Texas State Technical College, an amount not to exceed \$63,654 in 2016 and \$63,654 in 2017 may be expended for the salary of a president. All presidents may receive in addition to the above amounts a house, utilities, and/or supplement from private sources. If an institutionally owned house is not available an amount not to exceed \$7,200 per year from the appropriations above, and additional funds from gifts and grants where required, may be provided in lieu of house and utilities.
10. **Chancellor Salary.** Out of the funds appropriated, transferred, or contracted to the system office, an amount not to exceed \$70,231 in 2016 and \$70,231 in 2017 may be expended for the salary of a chancellor. The chancellor may receive in addition to the above amount a house, utilities, and/or supplement from private sources. If a system owned house is not available an amount not to exceed \$7,200 per year from the system office appropriation and additional funds from gifts and grants where required, may be provided in lieu of house and utilities.
11. **Returned Value Funding Model for Texas State Technical Colleges.** Funding is recommended for and allocated among Texas State Technical Colleges (TSTCs) based on the additional direct and indirect state tax revenues generated as a result of the education provided to students by the TSTCs. The funding methodology is based on the following components:

**SPECIAL PROVISIONS RELATING ONLY TO COMPONENTS OF TEXAS STATE
TECHNICAL COLLEGE**

(Continued)

- a. The model includes the cohort of TSTC graduates (earning an associate's degrees or certificate), transfers, and leavers (students who were not found in Texas higher education for two years following the last time they were enrolled in the TSTC) with a minimum completion of nine semester credit hours from 2008 and 2009.
- b. The cohorts were matched with Unemployment Insurance wage records for employment and wage information for five years after the students graduated from or left the TSTC to establish annual wages for each student. Direct value-added was defined as the incremental state tax revenue attributable to former TSTC students' jobs, based on the difference between former TSTC students' annual wages and a base wage representing a full-time employee earning minimum wage (7 percent of the wage delta). Indirect value-added was defined as the direct value-added multiplied by 1.5, an economic multiplier derived from a U.S. Bureau of Economic Analysis study. Total direct and indirect values-added were summed for each group of students by campus across five years.
- c. Values-added were reduced by a certain percentage, based on the assumption that the benefits would accrue both to the state and TSTCs but with only a portion of the added value included in the formula calculations.
- d. Values-added by campus were divided into the total TSTC value added to define each institution's proportional share of overall formula funding.

The Texas State Technical College System shall continue to work with the Texas Higher Education Coordinating Board, the Legislative Budget Board and other relevant agencies to refine the new Returned Value Funding Formula for the TSTCs. It is the intent of the Legislature that recommended adjustments to the formula shall be ready for implementation in the 2018-19 biennium and shall further the goal of rewarding job placement and graduate earnings projections, not time in training or contact hours.

 - (1) be in a form prescribed by the Legislative Budget Board;
 - (2) include the name, salary, and total value of nonsalary benefits for each person holding a high administrative position at the institution; and
 - (3) include the percentage salary increase for each person holding a high-ranking administrative position at the institution who occupies the same position during the current fiscal year as during the preceding fiscal year.

- d. Not later than the seventh day after the date an institution of higher education submits the report required by subsection (a), the institution shall make a copy of the report available for public inspection in the library of the institution.

Sec. 6. Expenditure Provisions. The expenditure of the appropriations made in this Article or authorized in law for institutions of higher education, except bequests and gifts specifically designated to be in some manner handled otherwise, shall be subject to the provisions of this section which follow and with exceptions only as specifically noted:

- 1. **Annual Operating Budgets Required.** It is expressly provided that the governing board of each of the institutions of higher education named herein shall approve on or before September 1, 2015 and 2016, an itemized budget covering the operation of the ensuing fiscal year, which budget shall be prepared within the limits of the revenue available. Each institution's operating budget shall contain a section(s) which provides budget amounts and the method of finance for each listed informational item of appropriated funds contained in this Act. A copy of each budget, and any subsequent amendments thereto, shall be filed with the Legislative Reference Library and the institution's general library to be available for public inspection. Copies of each budget shall also be filed with the Legislative Budget Board, the Governor, and the Texas Higher Education Coordinating Board by December 1 of each fiscal year.

- 2. **Clearing Accounts.** At their option, the institutions may use their local depository bank account in lieu of the special clearing account, authorized by Education Code, §51.008(b), provided that the general requirements set out in therein, for deposits and transfers to the state treasury, are complied with.

- 3. **Revolving Funds.**
 - a. Each institution affected by this section, at its option, is hereby authorized to maintain a revolving fund to facilitate the payment of nominal expenses and to pay bills within cash discount periods. The institutions may use the revolving fund for regular monthly payrolls as well as for weekly and special payrolls. Disbursements from the revolving funds are to be

executive heads of the respective units, from funds appropriated by the Legislature to the units for noninstructional salaries and general operating expenses. The Comptroller is authorized to draw warrants against such accounts based on vouchers submitted by the systems or institutions in payment of salaries, maintenance, equipment, or travel incidental to the administration and supervision of the respective units.

- b. The systems and institutions whose governing boards and component units are subject to the above are authorized to establish the following accounts:

Texas A&M University System Central Services Account
The University of Texas System Central Services Account
University of Houston System Central Services Account
Texas Tech University System Central Services Account
University of North Texas System Central Services Account
Texas State University System Central Services Account

- c. Travel expense incurred by a person employed by one unit of an above system or institution in connection with service to the other units may be reimbursed by the unit for which such services are performed or proportionately if more than one such unit is involved.

7. **Utility Revolving Funds.** The governing boards of Texas Woman's University, West Texas A&M University, all components of the University of Houston System, Texas State University System, Texas Tech University System, University of North Texas System, and The University of Texas System are authorized to use appropriated funds, except funds expressly identified for salaries, to make payments of debt service and other payments in connection with utility plant revenue bonds and utility plant operation and maintenance expenses, and/or to reimburse any revolving fund now or hereafter established in connection with providing utility services to any building or facility of the college or university, in accordance with the general principles established in Education Code, §55.11, and the creation and maintenance of any such revolving fund is hereby authorized.

8. **Appropriation Expenditure Authorization.**

- a. The educational and general appropriations made in this Act to the general academic teaching institutions, health related institutions, and Texas State Technical College may be expended for the following purposes, including, but not limited to: Instruction; Research; Public Service; Academic Support; Student Services; Institutional Support; Operation and Maintenance of Plant; Scholarships; Staff Benefits; Organized Activities; and Patient Care. Major repairs and rehabilitation of buildings and facilities may be purchased from appropriated funds, but may not be purchased from general revenue funds that are not expressly identified or allocated for such purposes.
- b. No educational and general funds appropriated to any institution or agency named in this article may be expended on auxiliary enterprises, unless specifically authorized in this Act.

9. **Tuition Revenue Bonds and Revenue Bonds.** Funds clearly identified in separate informational strategies to the general academic teaching institutions and health sciences centers for revenue or tuition revenue bond retirement may be expended only to reimburse institutions or centers for debt retirement authorized by Education Code §55.17 through §55.17721 and §55.19 and any additional authorization enacted by the Eighty-fourth Legislature. Any funds in excess of the amount expended for regularly scheduled principal and interest for debt service reimbursements due each year shall be lapsed to the General Revenue Fund at the end of each fiscal year. Funds may be used for bond and commercial paper debt service payments, which can include principal, interest and fees.

Sec. 7. Recruitment of Students. No funds appropriated by this Act may be expended for travel expenses incurred outside the boundaries of the State of Texas for the purpose of direct recruitment of students.

Sec. 8. Television Stations Prohibited. None of the educational and general funds appropriated in this Article may be expended for the acquisition, construction, or operation of television transmitter stations; provided, however, this prohibition shall not be construed so as to prevent the institutions of higher education named in this Article from using closed-circuit television for purely instructional purposes, or to prevent institutions with existing public broadcasting or transmitter stations to use them

**SPECIAL PROVISIONS RELATING ONLY TO
STATE AGENCIES OF HIGHER EDUCATION**
(Continued)

for educational purposes, or to prevent the continuance of operating arrangements with existing transmitter stations for purely educational purposes; or to prevent cooperative arrangements with public broadcast stations.

Sec. 9. Intercollegiate Athletics. The special and general provisions of Articles III and IX of this Act shall not apply to intercollegiate athletics. The governing boards of the respective institutions of higher education shall use the appropriations in this Act to make such necessary rules and adjustments as may be deemed advisable for the management and operation of such activities; however, no funds under control of intercollegiate athletics may be used to purchase alcoholic beverages; no educational and general funds appropriated may be used for the operation of intercollegiate athletics; such rules and adjustments shall be designed to complement the rules applicable to other departments of the respective institution; and finally, such rules and adjustments shall specifically prohibit violation of National Collegiate Athletic Association (NCAA) or other governing body rules with respect to recruitment of athletes.

Sec. 10. Prohibition Against Additional Museums. None of the educational and general funds appropriated in this Article shall be used for establishing additional museums or for the maintenance and operation of museums unless the language of this Act or of other acts and resolutions of the Legislature specifically authorizes such use of educational and general funds. As an exception to this provision, in order to encourage and promote gifts, grants, or donations to institutions of higher education, it is specifically provided that an institution which receives such gifts, grants, or donations for the construction or establishment of a museum, which is added to an institution's building inventory after September 1, 1997, may use educational and general funds appropriated by this Article for the maintenance and operation of such a museum. This exception applies only to the authority to spend appropriated funds for these purposes; such museum space shall not be included in formula calculations for purposes of determining the amounts of appropriations due for maintenance or operations of institutional facilities.

Sec. 11. Method of Financing Scholarships.

1. Out of the funds identified by this Article in the informational items described as "Other Educational and General Income," the respective governing boards of the general academic teaching institutions and of the health centers, health science centers, or technical colleges may allocate and expend the actual receipts in such informational item for student scholarships pursuant to the provisions of Education Code §56.031 to §56.039, cited as the Texas Public Educational Grants Program.
2. Copies of such approved allocations together with copies of rules and regulations adopted by the respective governing boards concerning the award of such scholarships shall be filed with the Coordinating Board and with the Comptroller prior to the disbursement of any moneys for scholarships. Copies of any subsequent changes in such allocations or rules shall be similarly filed with the Coordinating Board and with the Comptroller.
3. No educational and general funds appropriated in this Act for scholarships to institutions of higher education may be used to provide athletic scholarships.
4. Out of the additional funds appropriated for the 2016-17 biennium for the informational strategy described as "Scholarships," the respective governing boards shall allocate and expend such funds for need-based student scholarships regardless of the race, sex, color, or ethnicity of the student recipient.

Sec. 12. Use of Educational and General Funds for Alumni Activities Prohibited. None of the educational and general funds appropriated by this Article may be expended by institutions of higher education for the support or maintenance of alumni organizations or activities.

Sec. 13. Limitation of Nonresident Enrollment in Certain State-supported Professional Schools.

1. None of the funds appropriated by this Act may be expended for the establishment, operation, or maintenance, or for the payment of any salaries to the employees in, any wholly or partially state-supported medical, dental, or law school which: (a) imposes a limitation on the number of students that it admits, (b) in an academic semester denies admission to one or more Texas residents who apply for admission and who reasonably demonstrate that they are probably capable of doing the quality of work that is necessary to obtain the usual degree awarded by such school,

**SPECIAL PROVISIONS RELATING ONLY TO
STATE AGENCIES OF HIGHER EDUCATION**
(Continued)

and (c) in the same academic semester admits, as either class, nonresidents of the State of Texas in a number greater than 10 percent of the class of which such nonresidents are a part. Limitation of nonresident enrollment at The University of Texas Law School, Texas Tech University School of Law, and the University of Houston Law Center may be increased to 35 percent of the class of which nonresidents are a part provided that the admission of such nonresident students is on the basis of academic merit alone. By the provisions of this paragraph it is intended to withhold funds appropriated by this Act from state-supported medical, dental, and law schools which limit their enrollments and which fill more than 10 percent of their classes with non-resident students in the case of medical and dental schools, and 35 percent in the case of The University of Texas Law School, Texas Tech University Law School, and the University of Houston Law Center, when the result of admitting a nonresident denies admission to a qualified Texas applicant. This provision shall not apply to the funds appropriated to the Coordinating Board for the funding of Baylor College of Medicine or to funds appropriated for tuition equalization grants for students attending private colleges.

2. In addition, The University of Texas Southwestern Medical Center may admit up to 25 competitively recruited medical students in each entering class for a specialized six-year program of clinical and research training designed to lead to the MD and PhD degrees irrespective of whether those students are Texas residents.
3. Texas medical schools may enroll up to 6 competitively recruited medical students, who already possess the DDS degree, in each second year medical school class for a specialized six year program in oral and maxillofacial surgery comprised of the last three years of medical school and a three year residency program irrespective of whether those students are Texas residents.

Sec. 14. Off-campus Instruction. General academic institutions may use the funds appropriated in this Act to teach courses off campus with the following restrictions:

1. At the conclusion of each fiscal year, the Coordinating Board shall file a report with the Governor and the Legislative Budget Board on all general academic institutions concerning off-campus semester credit hours for that fiscal year.
2. Semester credit hours generated at upper level centers authorized by the Legislature or by the Coordinating Board, as well as at Prairie View A&M University's Houston nursing program and Texas Woman's University nursing programs in Dallas and Houston, are not considered to be off-campus.
3. All courses taught off campus must be taught by a regular faculty member or administrator who is employed at least half-time on the main campus of the institution. The Commissioner of Higher Education may waive this requirement in special cases where institutions can justify the use of a uniquely qualified individual. Allied health and vocational instructors are exempted from this requirement.

Sec. 15. Tuition and Other Educational and General Local Fee Collection. No institution of higher education shall receive appropriations through formula funding in this Act unless it collects from each student whose semester credit hours are to be included in formula funding calculations all tuition and all fees in accordance with the installment tuition and fee payment plan provided for by the Education Code, (Chapter 54, as amended) on or before the end of the 20th class day for each regular semester and the 15th class day for each summer session. Valid contracts with the United States Government for instruction of eligible military personnel and valid contracts with private business and public service-type organizations or institutions such as hospitals may be considered as collections thereunder but subject to adjustments after final payment thereof. Financial aid awards processed by the financial aid office but not yet issued to the student may be considered as collections thereunder but subject to adjustments after final payment thereof.

Sec. 16. Compliance with Uniform Recruitment and Retention Strategy. Institutions of higher education shall use the appropriations in this Act to give top priority and consideration to compliance with the spirit and mandates of the Uniform Recruitment and Retention Strategy.

Sec. 17. Formula Variable and Educational and General Income Audits. The Texas Higher Education Coordinating Board in consultation with the State Auditor's Office and the Legislative Budget Board shall clearly define all variables used by the Eighty-fourth Legislature in arriving at formula appropriations for fiscal years 2016 and 2017. According to an audit plan developed in

**SPECIAL PROVISIONS RELATING ONLY TO
STATE AGENCIES OF HIGHER EDUCATION**
(Continued)

consultation with the Coordinating Board and Legislative Budget Board, all variables of selected formulas used in making fiscal years 2016 and 2017 formula appropriations are subject to audit by the State Auditor. The State Auditor shall report any differences from data submitted by the institutions to the Coordinating Board, the Legislative Budget Board, and the Governor. The Coordinating Board shall then calculate a new appropriations amount for each institution that reported data in conflict with that verified by the Auditor. These calculations shall then be reported to the Legislative Budget Board, Governor, and the Comptroller of Public Accounts and may be used to revise appropriation authority accordingly. The calculation of revised appropriation amounts shall allow each institution an error rate of up to 2 percent of the biennial appropriations related to the variables audited at that institution.

In addition, components of educational and general income reported in the institutional requests for legislative appropriations for fiscal years 2016 and 2017 are subject to audit by the State Auditor.

The State Auditor may request the assistance of an institution's internal auditor in performing the audits described in this section.

Sec. 18. System Offices Funding Authorized. Educational and general funds appropriated to components of The University of Texas, Texas A&M University, University of Houston, Texas Tech University, University of North Texas, Texas State University System, and Texas State Technical College Systems may be transferred or contracted to system offices to provide support for coordination, administration, and other related services.

Sec. 19. Annual Reports of Health Related Institutions Practice Plans. As a limitation and restriction upon appropriations made by this Act, all agencies that have a public health related institution covered under Article III shall not expend funds after a period of 120 days following the close of the fiscal year, unless there has been filed with the Governor, the State Auditor, the Legislative Budget Board, the Legislative Reference Library, and the Comptroller of Public Accounts an annual report as of August 31 of the preceding fiscal year showing the use of practice plan funds. The annual report shall conform to a uniform reporting system developed by the State Auditor's Office for all financial data concerning the health related institutions practice plans.

Sec. 20. Self-insurance Funds. Any funds of an institution of higher education used for or allocated to a self-insurance fund authorized by Government Code §2259.001 for a risk otherwise insurable by the institution of higher education shall be treated by the Comptroller of Public Accounts as an expenditure of the respective funds. The self-insurance funds so created shall be considered designated funds as that term is used in §51.008(b) of the Education Code. Any self-insurance fund reserves so created shall not exceed in amount the maximum value determined to be actuarially sound for each such self-insurance program.

Sec. 21. Uncompensated Care Reporting Requirement. The public health-related institutions shall use the appropriations in this Act to include in their biennial legislative appropriations request information including the actual amount of uncompensated care provided through each institution's respective physician practice plan, and if applicable, hospital or clinic using the uncompensated care reporting requirement established by the Health and Human Services Commission.

Uncompensated care includes the unreimbursed costs for the uninsured (those with no source of third party insurance) and the underinsured (those with insurance who after contractual adjustment and third party payments have a responsibility to pay for an amount they are unable to pay). Uncompensated care also includes the unreimbursed cost from governmental sponsored health programs. To calculate uncompensated care, charges will be converted to costs by application of a standard, auditable ratio of cost to charge and providers will recognize appropriate patient specific funding and lump sum funding available to offset costs. Any amounts received by the Physician Practice Plan from Upper Payment Limit shall be counted as payments received for uncompensated care.

Sec. 22. County Indigent Care Contracts.

1. **Contracts Required.** It is the intent of the Legislature that all institutions of higher education providing indigent health care contract with relevant counties in their service area to recover the costs associated with treating those counties' indigent patients.
2. **County Indigent Care Contracts Reporting.** The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Science Center at Tyler shall submit to the Legislative Budget Board and the Governor at

STATE AGENCIES OF HIGHER EDUCATION**

the end of each fiscal year a list of counties whose indigent residents have been served by each institution; the total amount of reimbursement received by each institution from each county pursuant to the Indigent Health Care and Treatment Act; and the total cost, by county, of services provided by each institution for which counties are liable pursuant to the Indigent Health Care and Treatment Act. In addition, each institution shall report annually (no later than December 1st) to the Legislative Budget Board and Governor on the status of contract agreements or negotiations with each county whose indigent residents have been served by the institution.

Sec. 23. Ethics Policy.

1. None of the funds appropriated by this Act may be expended by an institution of higher education until its governing board has filed with the Texas Higher Education Coordinating Board an ethics policy which has been adopted by the board of regents. The ethics policy shall apply to the board of regents and its staff, the administration, staff, and faculty of the institutions under the board's governance.
2. The ethics policy adopted by each board of regents shall include specific provisions regarding sexual harassment.

Sec. 24. Driscoll Children's Hospital. No funds appropriated to a health-related institution of higher education shall be used to replace or duplicate the Driscoll Children's Hospital in caring for children with special health-care needs, including pediatric cardiovascular diseases, or in assuming the direct care of those children. This rider language shall not restrict the traditional referral patterns utilized by physicians to refer patients to health-related institutions.

Sec. 25. Participation in Drug Development Research Projects. A public university may not expend funds appropriated by this Act, including appropriations of grants or gifts, to conduct a drug development research protocol involving a person who is receiving mental health services under a protective custody order, pursuant to Chapter 574, Health and Safety Code. This rider is not intended to limit or prohibit provisions for treatment established under §576.022, Health and Safety Code.

Sec. 26. Post Tenure Review. None of the funds appropriated by this Act may be expended by an institution of higher education until its governing board has filed with the Texas Higher Education Coordinating Board policies and procedures regarding post tenure review which have been adopted by the board of regents. Post tenure policies shall include review procedures to determine that a tenured faculty member is performing consistently at an acceptable, professional level and a mechanism whereby a faculty member is informed of any deficiencies and provided opportunities to effectively improve his or her performance.

Sec. 27. General Academic Funding. Appropriations made in this Act for formula funding for general academic institutions will consist of four formulas and supplemental items.

1. **Instruction and Operation Formula.** The Instruction and Operations Formula shall provide funding for faculty salaries, including nursing, departmental operating expense, library, instructional administration, research enhancement, student services, and institutional support. These funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour for the 2016-17 biennium is \$56.29 in fiscal year 2016 and fiscal year 2017.

Weighting is determined by the following matrix:

	Lower Div.	Upper Div.	Masters	Doctoral	Special Professional
Liberal Arts	1.00	1.74	3.94	10.22

2. **Teaching Experience Supplement.** For the 2016-17 biennium, an additional weight of 10 percent is added to lower division and upper division semester credit hours taught by tenured and tenure-track faculty. Furthermore, it is the intent of the Legislature that the weight shall increase by 10 percent per biennium, up to 50 percent.

3. **Infrastructure Support.** Funding associated with plant-related formulas and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for universities' educational and general activities produced by the Space Projection Model developed by the Coordinating Board. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy. The average rate per square foot is \$5.72 in fiscal year 2016 and fiscal year 2017.

4. **Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance (other educational and general income portion), workers' compensation insurance, unemployment compensation insurance, public education grants, organized activities, scholarships, tuition revenue bond payments, and facility lease charges. Institutions may receive an appropriation for special items. Revenue derived from board authorized tuition would still be appropriated to the institutions levying the additional charges.

5. The General Academic Instruction and Operations and Infrastructure formulas shall incorporate the Higher Education Coordinating Board's October 2006 recommendations for mission-specific formula funding for Texas A&M University at Galveston.

These formulas and supplemental items shall be reviewed and updated by study committees appointed by the Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2016.

Sec. 28. Health Related Institutions Funding. Appropriations made in this Act for formula funding for health related institutions shall consist of four formulas plus supplemental non-formula items.

1. **Instruction and Operations Support Formula.** The Instruction and Operations Support Formula shall provide funding on a per student or full time equivalent basis. Funding for each instructional program is based on the following funding weights per student, with a base value per weighted student of \$9,711 in fiscal year 2016 and fiscal year 2017:

<u>Program</u>	<u>Weight Per Student</u>
Allied Health	1.000
Biomedical Science	1.018
Nursing	1.138
Pharmacy	1.670
Public Health	1.721
Dental	4.601

shall receive additional funding to compensate for the diseconomies of scale. The minimum formula shall generate additional funding per student, on a sliding scale, with programs with small enrollments receiving more additional funding per student.

2. **Infrastructure Support Formula.** Funding to the health-related institutions for plant support and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for the health related institutions produced by the Space Projection Model developed by the Texas Higher Education Coordinating Board. The rate per square foot is \$6.75 in fiscal year 2016 and fiscal year 2017 for all health related institutions, excluding The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Science Center at Tyler. For these two institutions, the per square foot rate is \$6.20 in fiscal year 2016 and fiscal year 2017.

Because the Space Projection Model does not account for hospital space, separate infrastructure funding for hospital space at The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Science Center at Tyler shall be included in the total funding for hospital and center operations.

3. **Research Funding.** The health-related institutions shall retain 100 percent of indirect research costs recovered on grants. Each institution also receives research enhancement funding of \$1,412,500 plus 1.26 percent in fiscal year 2016 and fiscal year 2017 of its research expenditures as reported to the Texas Higher Education Coordinating Board.
4. **Graduate Medical Education Formula.** The Graduate Medical Education Formulas shall provide funding on a per medical resident basis. Funding is based on a base value of \$12,528 per medical resident in an accredited program. Appropriations for Graduate Medical Education for fiscal year 2016 and fiscal year 2017 are \$6,264 per resident.
5. **Health Related Institution Graduate Medical Education.** The funds appropriated above in each of the health related institutions bill pattern titled Graduate Medical Education (GME) shall be spent to increase the number of resident slots in the State of Texas as well as faculty costs relating to GME. In addition, each health related institution shall work with the Higher Education Coordinating Board to develop new performance measures relating to increasing the number of resident slots in the State of Texas.
6. **Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance, workers' compensation insurance, unemployment insurance, public education grants, medical loans, tuition revenue bond payments, and facility lease charges. Institutions may receive an appropriation for special items and hospital and clinic operations.
7. **Formula Study Committees.** These formulas shall be reviewed and updated by study committees appointed by the Texas Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2016.
8. **Mission Specific Support.** The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Science Center at Tyler do not provide formal medical education which qualifies for instruction support under subsection 1 above. Therefore, funding allocated to these institutions shall be based on the following criteria:
 - a. The General Revenue Operations formula funding provided to The University of Texas M.D. Anderson Cancer Center in Strategy A.2.1, Cancer Center Operations, shall be based on the total number of Texas cancer patients served at The University of Texas M. D. Anderson Cancer Center. General Revenue appropriations for fiscal year 2016 and 2017 shall be based on the number of total Texas cancer patients served in 2014. The rate per patient shall be \$1,835 in fiscal year 2016 and fiscal year 2017 for Strategy A.2.1, Cancer Center Operations. For formula funding purposes, the amount of growth in total funding from one biennium to another may not exceed the average growth in funding for Health Related Institutions in the Instruction and Operations formula for the current biennium.
 - b. The University of Texas Health Science Center at Tyler has a statutory mission to conduct research, develop diagnostic and treatment techniques, provide training and teaching programs, and provide diagnosis and treatment of inpatients and outpatients with pulmonary, respiratory and other diseases of the chest. General Revenue funds appropriated to The

SPECIAL PROVISIONS RELATING ONLY TO STATE AGENCIES OF HIGHER EDUCATION

(Continued)

University of Texas Health Science Center at Tyler in Strategy A.1.2, Chest Disease Center Operations, shall be based on the number of cases in which disease diagnoses are treated by The University of Texas Health Science Center at Tyler. General Revenue appropriations for fiscal year 2016 and 2017 shall be based on the number of such cases treated in fiscal year 2014. The rate per case for fiscal year 2016 and 2017 shall be \$213. For formula funding purposes, the amount of growth in total funding from one biennium to another may not exceed the average growth in funding for Health Related Institutions in the Instruction and Operations formula for the current biennium.

- c. The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Science Center at Tyler shall submit to the Legislative Budget Board, Governor, and Texas Higher Education Coordinating Board a copy of the appropriate reports discussed above and supporting documentation which provides the necessary information to calculate the formula allocations in subsections (a) and (b) above.

Sec. 29. Optional Retirement Program Differential. Included in the appropriation to institutions of higher education in this act are general revenue amounts to offset local funds used for the optional retirement program employer contributions of 6 percent of salaries for employees who were on the state payroll or who were employed by a Public Community or Junior College as of August 31, 1995. These general revenue amounts are included in the funding formulas for general academic institutions and two-year institutions and in the base funding for other institutions of higher education.

Sec. 30. Indirect Cost Recovery Earned by Texas A&M System Agencies. The Texas A&M University System agencies shall report to the Legislative Budget Board in their Legislative Appropriations Requests for the 2018-19 biennium all indirect cost recovery revenue earned on research grants and contracts including amounts collected by the Research Foundation.

Sec. 31. Fire Safety Projects at Institutions of Higher Education. Because of the urgent nature of these projects, it is the intent of the Legislature that institutions of higher education that have major fire safety projects, identified by the State Fire Marshal's Office as not meeting the requirements of the National Fire Protection Association, Life Safety Code 101, Edition, remedy the fire safety issues and complete any related construction and renovation projects as soon as practical. Institutions shall consult with the State Fire Marshal's Office and develop a time line for completion of the projects. Institutions shall implement the interim safety precautions recommended by the State Fire Marshal's Office. The State Fire Marshal shall submit periodic reports to the House Appropriations Committee and Senate Finance Committee on the progress of institutions in remedying the fire safety issues.

Institutions of higher education shall notify parents of students living in dormitories identified by the State Fire Marshal's Office. The notice shall contain information about the actions needed to rectify noncompliance and the time frame in which the institution plans to make improvements in order to comply.

Sec. 32. Funding for Physical Education Courses. No funds appropriated under this act shall be used for contact hours or semester credit hours for students who are registered solely for physical education, weight lifting, group exercises, aerobics, or related courses; have registered for the same such course more than once; and are not seeking a degree plan or certificate of completion of a course of study.

Sec. 33. Faculty Salary Increase Report. The Texas Higher Education Coordinating Board shall report the average salary increase provided to faculty at each general academic institution to the Legislative Budget Board and Governor by January 31 of each fiscal year on a form prescribed by the Texas Higher Education Coordinating Board.

Sec. 34. Endowed Chairs. Out of funds appropriated to the Texas Higher Education Coordinating Board for Baylor College of Medicine, Houston; University of Texas Health Science Center at Houston; and University of Texas Medical Branch at Galveston, each may expend up to \$1,000,000 out of funds appropriated in this Act to fund one endowed chair or professorship for spinal cord injury research.

Sec. 35. Nursing School Enrollment. The Legislature encourages institutions of higher education who receive state appropriations not to reduce the number of student full-time equivalents enrolled in programs preparing students for licensure as registered nurses in state fiscal years ending August 31, 2016, and August 31, 2017, below the number of student full-time equivalents enrolled for the state fiscal year ending August 31, 2015. This provision shall not be construed as requiring any school to

**SPECIAL PROVISIONS RELATING ONLY TO
STATE AGENCIES OF HIGHER EDUCATION**
(Continued)

accept an unqualified applicant to its professional nursing program. In the event that a school falls below the required number of students enrolled in professional nursing program by more than 5 percent for the state fiscal year ending August 31, 2016, and the state fiscal year ending August 31, 2017, the school shall report to the Legislative Budget Board and the Texas Higher Education Coordinating Board the reasons for failing to meet the required enrollment.

Sec. 36. Endowed Programs. This provision shall not apply to funds granted for the purpose of providing continuing legal education for judges of county courts performing judicial functions.
5. **Judicial and Court Personnel Training Report.** The Court of Criminal Appeals shall file a report with the Legislative Budget Board and the Governor within 90 days following February 28 and August 31 of each fiscal year showing the allocation of grants and expenditures from General Revenue-Dedicated Judicial and Court Personnel Training Fund No. 540, the amount and allocation of unexpended prior year grant funds held by training entities, and the results of grant audits.
6. **Judicial Education: Alternatives to Inpatient Mental Health Treatment for Forensic Cases.** Funds appropriated above in Strategy B.1.1, Judicial Education, may be used to educate judges, prosecuting attorneys, and criminal defense attorneys on alternatives to inpatient mental health treatment that may be appropriate for certain individuals under forensic commitment, including individuals charged with a misdemeanor or felony offense that involved dangerous conduct because a judge or jury has determined them to be not guilty by reason of insanity, but who are ordered by a court to receive mental health treatment. Alternatives to inpatient mental health treatment for individuals under forensic commitment may include outpatient competency restoration, jail-based competency restoration, residential rehabilitation units, and conditional release. The Court of Criminal Appeals shall also take steps to make judges, prosecuting attorneys, and criminal defense attorneys involved with forensic commitment cases aware of these educational opportunities.

The TIDC shall make grants to counties from the General Revenue-Dedicated Fair Defense Account No. 5073, with funds being disbursed by the Comptroller. No portion of the appropriation made by this section shall be used to offset the Office of Court Administration's administrative support provided to the TIDC except by mutual agreement of the TIDC and the Office of Court Administration.

- 9. Performance Reporting for the Collection Improvement Program.** The Office of Court Administration shall report the following information to the Legislative Budget Board and the Governor on September 1st of each year: (1) the number of mandatory programs in operation; (2) the number of mandatory programs not in compliance; (3) the number of voluntary programs in operation; (4) the number of new voluntary programs in operation; and (5) information on program revenue that indicates the impact of the collections program on revenue collections in participating programs. The Office of Court Administration should seek to increase the number of voluntary programs by five each fiscal year.
- 10. Appropriations Limited to Revenue Collections.** It is the intent of the Legislature that fees, fines and other miscellaneous revenues as authorized and generated by the Judicial Branch Certification Commission cover, at a minimum, the cost of the appropriations made above in Strategy C.1.1, Judicial Branch Certification Commission, and Strategy C.1.2, Texas.gov, as well as an amount equal to the Judicial Branch Certification Commission's portion of the amount identified above in the informational item "Other Direct and Indirect Costs Appropriated Elsewhere in this Act" and estimated to be \$151,637 in fiscal year 2016 and \$158,588 in fiscal year 2017. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available.
- 11. Innocence Projects.** Out of amounts appropriated above in Strategy D.1.1, Texas Indigent Defense Commission, \$400,000 in each year of the biennium from the General Revenue-Dedicated Fair Defense Account No. 5073 shall be used by the Commission to contract with law schools at the University of Houston, the University of Texas, Texas Tech University, and Texas Southern University for innocence projects. The amount of each contract with each university shall be \$100,000. Any unobligated and unexpended balances remaining from the \$400,000 in funds designated for innocence projects as of August 31, 2016 are appropriated to Strategy D.1.1, Texas Indigent Defense Commission, for the same purpose for the fiscal year beginning September 1, 2016.
- 12. Lump Sum Payments for Child Support Courts Program.** Amounts appropriated above in Strategy B.1.1, Child Support Courts Program, include \$30,000 each fiscal year that shall be used only for the purpose of paying lump sum termination payments for child support court employees in the event of the employee's separation from state employment in accordance with existing statutes and rules governing these payments. Any unobligated and unexpended balances in appropriations made for this purpose for fiscal year 2016 are appropriated to the Office of Court Administration in fiscal year 2017 for the same purposes.
- 13. Children's Justice Grants to States.** Out of funds appropriated above, the Office of Court Administration shall collaborate with the Texas Center for the Judiciary, the grant administrator designated by the Governor for the Children's Justice Grant to States (CFDA 93.643), in filing a report with the Legislative Budget Board and the Governor within 90 days following August 31st of each fiscal year showing disbursements, the purpose of each disbursement, and compliance with grant conditions.
- 14. Contingency: Study of School Attendance Related Cases.** In addition to amounts appropriated above in Strategy A.1.1, Court Administration, \$150,000 in General Revenue is appropriated to the Office of Court Administration (OCA) in fiscal year 2016 to conduct a study of court processes and data collection practices on failure to attend school (FTAS) and parent contributing to nonattendance (PCTN) cases, contingent on FTAS remaining a misdemeanor. The study shall be conducted in consultation with the Texas Judicial Council Juvenile Justice Committee. OCA may contract with an outside entity to complete the study. At the conclusion of the study, the Office of Court Administration and the Texas Judicial Council Juvenile Justice Committee shall make recommendations to the Legislature to improve the information available, and enhance the effectiveness and efficiency of the courts for these cases. Areas of analysis should, at a minimum, include:

OFFICE OF COURT ADMINISTRATION, TEXAS JUDICIAL COUNCIL

OCA shall report to the Legislature findings and recommendations resulting from this study no later than January 1, 2017.

- 15. Statewide eFiling System Fund.** Pursuant to Government Code, §51.851 and §81.852, all balances and amounts deposited into the General Revenue-Dedicated Statewide Electronic Filing System Account No. 5157 (estimated to be \$18,519,000 in each fiscal year), are appropriated above to the Office of Court Administration in Strategy A.1.2, Information Technology, for the purposes authorized.
- 16. Mileage Reimbursement for Specialty Courts Staff.** Specialty court staff who travel regularly to hear case dockets may be reimbursed for mileage at the state-approved rate when they travel for official state business in a personal vehicle. These staff are also exempt from the requirement to complete a comparison worksheet showing that mileage reimbursement for travel in a personal vehicle is more cost-effective than the use of a rental car.
- 17. Contingency for SB 1970.** Contingent on the enactment of SB 1970, or similar legislation relating to amending electronic filing fees as established in Government Code §51.851, for the purposes of increasing civil filing fees and court costs by the Eighty-fourth Legislature, the Office of Court Administration is appropriated an amount estimated to be \$4,237,354 each fiscal year from the General Revenue-Dedicated Statewide Electronic Filing System Account No. 5157 to implement the provisions of the legislation. In the event the legislation is not enacted, the Office of Court Administration is appropriated \$8,474,708 from General Revenue in fiscal year 2016 for the same purpose.

year 2017 is appropriated to TJJD for the purpose of administering juvenile justice functions in the following manner:

- 1) General Revenue Funds. \$292,747,953 in fiscal year 2016 and \$289,072,669 in fiscal year 2017 in General Revenue Funds;
 - 2) Federal Funds. \$10,774,006 in fiscal year 2016 and \$10,728,134 in fiscal year 2017 in Federal Funds;

 - 5) Other Funds. \$10,528,053 in fiscal year 2016 and \$10,263,654 in fiscal year 2017 in Interagency Contracts from Foundation School Fund No. 193.
- b) The final allocation of funds and FTEs for the state's juvenile justice functions is contingent upon actions taken by the Eighty-fourth Legislature, 2015, in statute or this Act, to address fundamental issues regarding the state's juvenile justice policies and operations, including, but not limited to, the following:
- 1) **Number, size, and geographic locations of state-operated facilities.** TJJD currently operates five secure facilities and eight halfway house facilities. An additional secure facility is not operational, but is maintained by TJJD. Current and projected populations do not support the existing capacity and the excess capacity creates operational inefficiencies, including fixed costs. The rapidly declining served population presents challenges to state policy which seeks efficiencies and cost effectiveness while also maintaining statutory goals of juvenile justice facilities that are of a size that support effective youth rehabilitation and are geographically close to services and families.
 - 2) **Use of contractor-operated facilities.** TJJD's current vision includes increasing the use of contract beds in the 2016-17 biennium to provide specialized services for youth. The Eighty-fourth Legislature may address whether and to what extent it wants to use contractor-operated facilities to address the state's current juvenile justice needs.
 - 3) **Agency authority to transfer appropriations between residential settings.** The Eighty-fourth Legislature may choose to address the degree to which the agency is granted authority to deviate, in terms of the utilization of different types of facilities, including contracted facilities, from the legislative allocations contained in the General Appropriations Act. In fiscal year 2014, TJJD transferred appropriations between items of appropriation in excess of the limitations provided in Article IX, Section 14.01.
 - 4) **Safety and security of youth and staff.** The agency has a need for a clear, stabilized vision of practices and policies related to the safety and security of youth and staff. The fiscal year 2014 juvenile correctional officer (JCO) turnover rate as reported by TJJD was 36 percent. Administration has cited high turnover as the result of staff feeling unsafe in the workplace. Currently, JCOs must receive 300 training hours before consideration for service and the agency administration's current vision is to reduce the number of training hours required.
 - 5) **Ensuring an agency administration that is transparent, responsive, and adaptable.** Agency administration has changed since the Eighty-third Legislature. The agency has suffered significant administrative turnover in recent years, creating a lack of historical and administrative knowledge. The agency has a need for stabilization in its administration and a vision that meets the needs of the agency's service population and the public. Agency administration must be adaptable to changes in population and the operations that serve those populations, and must be responsive to, and communicate effectively with the legislature.
2. **Contingency for Behavioral Health Funds.** Notwithstanding appropriation authority granted above, the Comptroller of Public Accounts shall not allow the expenditure of General Revenue-Related behavioral health funds for the Texas Juvenile Justice Department in fiscal year 2017, as identified in Art. IX, Sec. 10.04, Statewide Behavioral Health Strategic Plan and Coordinated Expenditures, if the Legislative Budget Board provides notification to the Comptroller of Public

JUVENILE JUSTICE DEPARTMENT

Accounts that the agency's planned expenditure of those funds in fiscal year 2017 does not satisfy the requirements of Art. IX, Sec. 10.04, Statewide Behavioral Health Strategic Plan and Coordinated Expenditures.

3. **Transfer from State-operated Facilities to Probation.** Notwithstanding transfer limitations provided in Article IX, Section 14.01 of this Act, the Juvenile Justice Department may transfer funds from State-operated Facilities appropriation items to Regional Planning and Diversion strategies to support regional placement of youth at high risk of commitment to JJD, if JJD determines that state-operated facilities populations have declined and do not require the entire appropriation for a fiscal year. The department shall report the amount of funds transferred under this provision to the Legislative Budget Board following the end of each fiscal quarter beginning September 1, 2016. If no transfer is made in a quarter, the department shall report the factors related to the decision not to transfer funds.
4. **Harris County Leadership Academy.** Out of funds appropriated above in Strategy A.1.4, Pre and Post Adjudication Facilities, \$1,000,000 in General Revenue Funds in each fiscal year shall be expended for the Harris County Leadership Academy.
5. **Grievance Procedures.** From funds appropriated above, the Juvenile Justice Department will adopt and maintain employee disciplinary and grievance procedures substantially equivalent to the Texas Department of Criminal Justice's employee grievance procedures.

The Juvenile Justice Department Board's disciplinary procedures shall allow an employee of the department to be represented by a designee of the employee's selection who may participate in the hearing on behalf of an employee charged with any type of disciplinary violation.

The Board's grievance procedure shall attempt to solve problems through a process which recognizes the employee's right to bring grievances pursuant to the procedures in this section. The grievance procedure shall include either independent mediation or independent, non-binding arbitration of disputes between the employer and the employee if the disciplining authority recommends that the employee be terminated or the employee is terminated.

6. **General Obligation Bond Proceeds: Repurposing Authority.** For unexpended and unobligated balances of General Obligation Bond Proceeds for projects that have been approved under the provisions of Article IX, Section 17.02 of Senate Bill 1, Eighty-third Legislature, Regular Session, 2013, remaining as of August 31, 2015 (estimated to be \$1,714,301) for deferred maintenance, in the 2016-17 biennium the Texas Juvenile Justice Department may repurpose funds from previously cancelled projects.

the total allocation to the programs, with the local share being based on the local dollars allocated pursuant to maintenance-of-effort requirements for federal air pollution grants.

- 5. Fee Revenue: Pollution Control Equipment Exemptions.** Amounts appropriated above include \$225,116 each fiscal year from fee revenue collected pursuant to Tax Code, §11.31, beginning with the effective date of this Act out of the General Revenue Fund in Strategy C.1.3, Pollution Prevention, Recycling, and Innovative Programs, for the purpose of determining whether pollution control equipment is exempt from taxation.

In addition to amounts appropriated above, any amounts collected by the Texas Commission on Environmental Quality pursuant to Tax Code, §11.31 on or after September 1, 2015, in excess of \$225,116 in each fiscal year of the biennium are appropriated to the agency.

- 6. Authorization: Operating Fund.** The Texas Commission on Environmental Quality (TCEQ) is authorized to make transfers from any appropriation made to TCEQ into a single account in the General Revenue Fund known as the "Texas Commission on Environmental Quality Operating Fund" for the purpose of making expenditures for which appropriations were made in this Act. After the expenditures have been made from the fund and as soon as the proper strategies have been identified, TCEQ shall process adjustments to the Comptroller in summary accounts to facilitate accurate cost allocations; provided, however, that each special account and fund shall be used for the purposes in current law and nothing shall be done to jeopardize or divert the special accounts and funds or any portion thereof including federal aid.
- 7. Appropriation: Air Quality Planning.** Amounts appropriated above include \$7,075,000 for the biennium out of the Clean Air Account No. 151 in Strategy A.1.1, Air Quality Assessment and Planning, for air quality planning activities to reduce ozone in areas not designated as nonattainment areas during the 2014-15 biennium and as approved by the Texas Commission on Environmental Quality (TCEQ). These areas may include Waco, El Paso, Beaumont, Austin, Corpus Christi, Granbury, Killeen-Temple, Longview-Tyler-Marshall, San Antonio, and Victoria. These activities may be carried out through interlocal agreements and may include: identifying, inventorying, and monitoring of pollution levels; modeling pollution levels; and the identification, quantification, implementation of appropriate locally enforceable pollution reduction controls; and the submission of work plans to be submitted to the TCEQ. The TCEQ shall allocate \$350,000 to each area and the remaining funds to each area based on population in excess of 350,000. The grant recipients shall channel the funds to those projects most useful for the State Implementation Plan (SIP).
- 8. Contract with the State Office of Administrative Hearings.** Amounts appropriated above include \$816,000 in each fiscal year of the biennium to cover the cost of contracting with the State Office of Administrative Hearings (SOAH) for funding SOAH's Natural Resources Division for the purpose of conducting administrative hearings and for related expenses. If the SOAH determines, at the end of each fiscal year, that the amount paid under the contract exceeds the necessary funding, it shall refund the difference to TCEQ. If the SOAH determines that the amounts are insufficient to fund the Natural Resources Division, the SOAH may enter into negotiations with TCEQ in order to renegotiate the interagency contract to provide additional funds for administrative hearings. The SOAH is not appropriated any state funds from such renegotiated contracts until it gives written notice to the Legislative Budget Board and the Governor, together with written permission of the agency.
- 9. Texas Parks and Wildlife Environmental Special Investigations Unit.** Amounts appropriated above include \$225,000 each fiscal year out of the Waste Management Account No. 549 in Strategy C.1.2, Enforcement and Compliance Support, for the purpose of supporting the Texas Parks and Wildlife Department's Environmental Special Investigations Unit to enforce state and federal laws on illegal dumping. This appropriation is contingent on a memorandum of understanding and an interagency transfer of the funds between the Texas Parks and Wildlife Department and the Texas Commission on Environmental Quality to jointly administer the program. Any unexpended balance of this appropriation from fiscal year 2016 is appropriated for the same purpose for fiscal year.
- 10. Federal Funds and Capital Budget Expenditures.** To comply with the legislative intent to maximize the use of federal funds and to fulfill grant requirements required for the receipt and expenditure of federal funds, the Texas Commission on Environmental Quality (TCEQ) is exempted from the Capital Budget Rider Provisions contained in Article IX of this Act,

COMMISSION ON ENVIRONMENTAL QUALITY

The TCEQ shall notify the Legislative Budget Board and the Governor upon receipt of such federal funds or gift proceeds, of the amount received and items to be purchased.

11. **Appropriation: Refinement and Enhancement of Modeling to Demonstrate Attainment with the Clean Air Act.** Amounts appropriated above include \$750,000 in fiscal year 2016 out of the Clean Air Account No. 151 in Strategy A.1.1, Air Quality Assessment and Planning, for research to obtain the data and information to refine and enhance any model used to demonstrate attainment with the National Ambient Air Quality Standard (NAAQS) and to assess air quality associated with other pollutants under the Federal Clean Air Act during the biennium beginning on September 1, 2015. These funds may also be used to collect and analyze data and procure appropriate computing tools for modeling to demonstrate attainment with the National Ambient Air Quality Standard for Ozone and other pollutants. The Commission on Environmental Quality may contract as necessary to carry out these activities.
12. **Reallocation of Revenue and Balances for Certain Accounts.** Pursuant to Water Code, §5.707, and notwithstanding provisions of Article IX, Sec 14.01, Appropriation Transfers, in this Act, the Texas Commission on Environmental Quality is authorized to reallocate not more than 7 percent of the All Funds amount identified in the Method of Finance above from the following accounts (consisting of revenues and balances) to be used for purposes identified in the above strategies.

These funds are for the purpose of developing, administering, evaluating, and maintaining the vehicle emissions inspection and maintenance program, including federally required reporting measures to demonstrate compliance with applicable federal and state laws.

In addition, if additional counties enter the vehicle emissions inspection and maintenance program during fiscal years 2016-17, 20 percent of revenues generated from the vehicle emissions and inspections fee established in Health and Safety Code, §382.202(e) in the additional counties in each fiscal year are hereby appropriated to the Texas Commission on Environmental Quality for the same purposes.

It is the intent of the Legislature that 20 percent of the fees authorized and generated by the operation of the vehicle emissions inspection and maintenance program cover, at a minimum, the costs of the appropriations made above, as well as the "Other direct and indirect costs" associated with the program, appropriated elsewhere in this Act. "Other direct and indirect costs" for the vehicle emissions inspection and maintenance program are estimated to be \$253,718 for fiscal year 2016 and \$264,533 for fiscal year 2017. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available.

In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Comptroller of Public Accounts shall reduce the appropriation authority provided above to be within the amount of revenue expected to be available. The TCEQ and the watermaster offices, upon completion of necessary actions to assess or increase additional fees, shall furnish copies of minutes and other information supporting the estimated revenues to be generated for the 2016-17 biennium under the revised fee structure to the Comptroller of Public Accounts. Notwithstanding this provision, in prioritizing sites the TCEQ shall consider the risks associated with all sites requiring remediation and monitoring, as well as the availability of funds. In selecting contractors to perform remediation services at these transferred sites, the Executive Director of the TCEQ may make direct awards to existing contractors who are otherwise eligible for award to ensure that the continued remediation of these sites progresses in the most efficient and cost-effective manner which presents the least risk of disrupting ongoing remediation and monitoring activities.

3. Appropriation: Federal Funds. All moneys granted to Texas by the federal government for the administration of the Texas Unemployment Compensation Act or which are now on deposit to the credit of any funds maintained by the Comptroller of Public Accounts for the Texas Workforce Commission (TWC), and any moneys received for the credit of such funds are hereby appropriated for the purposes authorized by the provisions of the Texas Unemployment Compensation Act and for the purposes for which such moneys were granted. TWC shall notify the Legislative Budget Board and Governor of any funds and associated staffing received above the amounts appropriated above for the biennium.

4. Section 903, Social Security Act Funds.

- a. Out of amounts credited to Texas' account in the Federal Unemployment Trust Fund under §903 of the Social Security Act, there is included in the appropriation above \$5,000,000 in fiscal year 2016 and \$5,000,000 in fiscal year 2017 for withdrawal and use by the Texas Workforce Commission (TWC) for the administration of the Texas Unemployment Compensation Act and its Public Employment Offices and telecenters. of land and construction of buildings, and the construction of improvements on property owned by TWC, including the cost of repairs and alterations to such property and the purchase of computers and related peripheral equipment.

- b. No part of any amounts based on an initial transfer from the federal government that occurred prior to fiscal year 2000 or after fiscal year 2002, herein appropriated out of amounts credited to Texas' account in the Federal Unemployment Trust Fund under §903 of the Social Security Act, shall be expended after the close of the period covered by this act and any unused portion of such amounts shall, at such close, revert to Texas' said account in the Federal Unemployment Trust Fund. The amount obligated pursuant to this act shall not exceed at any time the amount by which (a) the aggregate of the amounts transferred to the account of this state pursuant to §903 of the Social Security Act exceeds (b) the aggregate of the amounts obligated for administration and paid out for benefits and required by law to be charged against the amounts transferred to the account of this State.

- 5. Authorization: Sale of Agency-owned Buildings and Land.** In order to ensure effective facility management in coordination with the local workforce development boards, the Texas Workforce Commission (TWC) is hereby authorized to sell agency-owned buildings and land. Any such sale must be based on a finding by the commission that no other economically viable alternative exists, and specifically that operation within agency-owned or leased buildings would not be feasible. Furthermore, in order to accommodate sudden and unexpected fluctuations in federal funding, TWC is hereby authorized to sell agency-owned buildings and land as it deems necessary. The authority granted in this provision is contingent upon the filing of a written notice with the Governor and the Legislative Budget Board at least 90 days prior to the planned date of sale and is subject to the disapproval of either office within 90 days after notification.
- 6. Payment of Unemployment Benefits - State Agencies.** It is the intent of the Legislature that the Texas Workforce Commission charge the Comptroller of Public Accounts only for unemployment benefits paid based on wages earned from agencies appropriated funds under the General Appropriations Act, and that agencies outside the General Appropriations Act be maintained as individual reimbursing employers. For the purposes of this rider, "agency" includes a state agency as defined under §2151.002, Government Code, which includes an institution of higher education (except a public junior college) as defined under §61.003, Education Code.

If SOAH determines, at the end of each fiscal year, that the amount paid under the contract exceeds the funding necessary for the Natural Resources Division, it shall refund the difference. If SOAH determines that these amounts are insufficient to fund the Natural Resources Division it may enter into negotiations with the TCEQ in order to renegotiate an interagency contract in a manner which will provide it with additional funds, provided that SOAH shall not be appropriated any state funds from such renegotiated interagency contract until it gives prior written notice to the Legislative Budget Board and the Governor, accompanied by written permission of the TCEQ.

- 4. Benefit Collection.** Agencies that enter into contracts with the State Office of Administrative Hearings (SOAH), for the purpose of performing the hearings function, and make payments to SOAH from funding sources other than General Revenue, must reimburse SOAH for employee benefit costs for salaries and wages. These reimbursements to SOAH will then be paid to the General Revenue Fund in proportion to the source of funds from which the respective salary or wage is paid.

Appropriations authorized pursuant to this provision may be expended only to implement the transferred functions or expanded jurisdiction. All funds collected by SOAH as payment for, or reimbursement of, the office's costs of providing services to other state agencies or governmental entities, or others as directed by the Legislature, are appropriated to SOAH for its use during the biennium.
- 6. 8. Billing Rate for Workload.

a. Unless otherwise provided, amounts appropriated above and elsewhere in this Act for funding for the payment of costs associated with administrative hearings conducted by the State Office of Administrative Hearings (SOAH) are based on SOAH's actual hourly costs as determined by the most recently published Hearing Activity Report (HARP). SOAH's billing rate shall be actual costs as determined by the most recently published HARP, but not to exceed \$128 per hour for each hour of work performed during each fiscal year as reflected by the SOAH's Legislative Appropriation Request and Hearings Activity Report to the Eighty-fourth Legislature.

 - (B) lodging at the rates provided by this Act for state employees;
 - (C) transportation at the rates provided by this Act for state employees; and
 - (D) incidental expenses.
- (b) If a law enacted after former Article 6813f, VTCS, (September 1, 1983), authorizes per diem for members of a particular state board or commission, but does not specify the amount of the per diem, then the amount of the per diem is the amount provided by Subsection (a).
- (c) A full-time employee paid from funds appropriated by this Act may not be paid both a salary and compensatory per diem for concurrent service as a state employee and as a board or commission member.

Sec. 5.08. Travel of Advisory Committee Members.

- (a) For the purpose of this section, the term "advisory committee" has the meaning assigned by §2110.001, Government Code.
- (b) In addition to the limits placed on reimbursement of advisory committee member expenses by this section and to the extent not otherwise limited by this Act or other law, a member of a state agency advisory committee may be reimbursed, at the rates specified in this Act for a state employee, for actual expenses for meals, lodging, transportation, and incidental expenses.
- (c) The funds appropriated by this Act may not be expended to reimburse a member of a state agency advisory committee for expenses associated with conducting committee business, including travel expenses, unless the expenditures for an advisory committee are within the limits provided by this section and other law and are:
 - (1) specifically authorized by this Act; or
 - (2) approved by the Governor and the Legislative Budget Board subsequent to the effective date of this Act.
- (d) The limitations provided by this section do not apply to an advisory committee established by the governing board of a retirement system trust fund.
- (e) The limitations provided by this section apply only to an advisory committee that is subject to Chapter 2110, Government Code.

PART 6. GENERAL LIMITATIONS ON EXPENDITURES

Sec. 6.01. Definitions. In this Act "unexpended balance" or the abbreviation "UB" means the unobligated balance remaining in an appropriation, i.e., only that part of an appropriation, if any, that has not been set apart by the incurring of an obligation, commitment, or indebtedness by the state agency authorized to spend the appropriation. A reference in this Act to "unexpended balance" or "UB" is a reference to the unobligated balance of an amount appropriated by this Act for the fiscal year ending August 31, 2016, unless another meaning is clearly indicated.

Sec. 6.02. Interpretation of Estimates. In the event the amounts of federal funds, local funds, or funds other than appropriations from the General Revenue Fund, have been estimated in this Act in sums greater than are actually received by the respective agencies of the state, this Act may not be construed as appropriating additional funds from General Revenue to make up such differences. Wherever the language of this Act appropriates all receipts or balances from a specified source but uses an estimated amount to inform the Legislature and the public, the estimated figure is not to be construed as a limitation on the amount appropriated.

GENERAL LIMITATIONS ON EXPENDITURES

(Continued)

Sec. 6.03. Excess Obligations Prohibited.

- (a) An agency specified in this Act may not incur an obligation in excess of the amounts appropriated to it for the respective objects or purposes named.
- (b) As a specific exception to Subsection (a) the Comptroller of Public Accounts may determine that a proposed installment purchase arrangement is cost effective and certify this finding in response to an agency request.
- (c) A determination made by the Comptroller of Public Accounts under Subsection (b) may be made for obligations incurred for the purchase or lease of automated information system equipment only if the agency has on file with the Legislative Budget Board a Biennial Operating Plan, including any amendments to the Biennial Operating Plan, and the plan has been approved by the Legislative Budget Board.
- (d) If this section is violated, the State Auditor shall certify the fact of the violation and the amount of over-obligation to the Comptroller, and the Comptroller shall deduct an amount equivalent to the over-obligation from the salary or other compensation due the responsible disbursing or requisitioning officer or employee, and apply the amount to the payment of the obligation.
- (e) This provision is specified pursuant to §10, Article XVI, Texas Constitution.

Sec. 6.04. Interpretation of Legislative Intent. Funds appropriated by this Act shall be expended, as nearly as practicable, for the purposes for which appropriated. In the event an agency cannot determine legislative purpose from the pattern of appropriations, the agency shall seek to determine that purpose from the proceedings of the legislative committees responsible for proposing appropriations for this state.

Sec. 6.05. Comptroller's Duty to Pay. The Comptroller may not refuse to pass for payment a legal claim, factually justified, for which a valid appropriation has been made.

Sec. 6.06. Last Quarter Expenditures.

- (a) A state agency or other governmental unit using funds appropriated by this Act may not expend during the last quarter of a fiscal year more than one-third of the funds appropriated for that fiscal year.
- (b) Specifically exempted from Subsection (a) are:
 - (1) expenditures contracted for in previous quarters;
 - (2) funds required by statute, rule or regulation to be expended on a different time frame;
 - (3) seasonal employment of personnel;
 - (4) construction contracts;
 - (5) contracts dealing with purchases of food, medicines, or drugs;
 - (6) expenditures related to the Children with Special Health Care Needs program operated by the Department of State Health Services; and
 - (7) expenditures occasioned by disaster or other Act of God.
- (c) The funds exempted, under Subsection (b) may not be considered in the computation of the total funds appropriated in a fiscal year for the purpose of applying Subsection (a).

Sec. 6.07. Employee Benefit and Debt Service Items.

- (a) Funds appropriated in the various Articles of this Act for "Employees Retirement System," "Social Security State Match," "Benefit Replacement Pay," "Texas Public Finance Authority-

GENERAL LIMITATIONS ON EXPENDITURES

(Continued)

G.O. Bond Debt Service Payments," and "Lease-Payments to the Texas Public Finance Authority" may be transferred between Articles to a like appropriation item without limitation as to the amount of such transfer.

- (b) An agency to which an appropriation listed under Subsection (a) is made may pool such appropriations, made in the various Articles for a common purpose, into a single cost pool for the purpose of administering the appropriation.

Sec. 6.08. Benefits Paid Proportional by Fund.

- (a) Unless otherwise provided, in order to maximize balances in the General Revenue Fund, payment for benefits paid from appropriated funds, including "local funds" and "education and general funds" as defined in §51.009 (a) and (c), Education Code, shall be proportional to the source of funds except for public and community junior colleges. Any funds subject to restrictions that prevent their expenditure on salaries and wages shall not be subject to this proportional requirement.
- (b) Unless otherwise specifically authorized by this Act, the funds appropriated by this Act out of the General Revenue Fund may not be expended for employee benefit costs, or other indirect costs, associated with the payment of salaries or wages, if the salaries or wages are paid from a source other than the General Revenue Fund except for public community or junior colleges. Payments for employee benefit costs for salaries and wages paid from sources, including payments received pursuant to interagency agreements or as contract receipts, other than the General Revenue Fund shall be made in proportion to the source of funds from which the respective salary or wage is paid or, if the Comptroller determines that achieving proportionality at the time the payment is made would be impractical or inefficient, then the General Revenue Fund shall be reimbursed for any such payment made out of the General Revenue Fund.
- (c) For purposes of this Act, a public community or junior college may expend funds appropriated for employee benefit costs for any employee if the employee is: (1) otherwise eligible to participate in the group benefits program; and (2) an instructional or administrative employee whose salary may be fully paid from funds appropriated under the General Appropriations Act, regardless of whether the salary is actually paid from appropriated funds.
- (d) The Comptroller, after consulting with the Legislative Budget Board and the State Auditor's Office, shall develop and maintain rules to provide for the administration of this section.
- (e) Each agency or institution of higher education (excluding a community or junior college) having General Revenue Fund appropriations and other sources of financing shall file with the Comptroller and the State Auditor a report demonstrating proportionality. The report shall be filed before November 20th following the close of the fiscal year for the salaries, wages, and benefits of the preceding year ended August 31. The report shall be in a format prescribed by the Comptroller in collaboration with the Legislative Budget Board and the State Auditor's Office.
- (f) State Auditor shall at least biennially review agency and institution compliance with the requirements of this section if the agency or institution (excluding a community or junior college) receives funds appropriated under this Act. Subject to a risk assessment, the State Auditor shall audit the expenditure transfers and payments for benefits by an agency or institution. The State Auditor shall send the audit report to the Comptroller and the Legislative Budget Board upon completion of the audit, along with any recommendations for changes or refunds. The Comptroller, on receipt of notification from the State Auditor of amounts disproportionately paid from General Revenue Fund appropriations, shall reduce current year General Revenue Fund appropriations of the agency or institution until such time as such amounts are repaid from sources other than the General Revenue Fund.
- (g) Should cash balances in appropriated funds prohibit an account or fund from absorbing additional expense related to proportionality requirements, an agency or institution may be allowed to adjust benefit expenses accordingly. An agency or institution must notify the Comptroller and Legislative Budget Board of any requested adjustment. The Comptroller shall make the final determination on the allowance of any benefit expense adjustment but shall ensure General Revenue is reimbursed to the maximum extent possible.

GENERAL LIMITATIONS ON EXPENDITURES

(Continued)

- (h) For institutions of higher education, excluding public community or junior colleges, funds appropriated by this Act may not be expended for employee benefit costs, or other indirect costs, associated with the payment of salaries or wages, if the salaries and wages are paid from funds not appropriated by this Act.

Sec. 6.09. Appropriations from Special Funds. Notwithstanding other provisions of this Act, appropriation amounts from special funds or special or dedicated accounts in the General Revenue Fund (as those terms are defined by §403.001, Government Code) are specifically limited to amounts not to exceed the actual balances and revenues available to each such fund or account.

Sec. 6.10. Limitation on State Employment Levels.

- (a) (1) A state agency or institution of higher education may not use funds appropriated by this Act to pay all or part of the salaries or benefits of a number of employees which would cause the number of full-time equivalent employees (FTEs) paid from funds appropriated by this Act by the state agency or institution of higher education for a fiscal quarter to exceed the figure indicated by this Act for that state agency or institution without reporting that use of funds to the Governor and the Legislative Budget Board at a time not later than the last day of the first month following each quarter of the fiscal year.
- (2) In addition to the reporting requirement of Subsection (a)(1) of this section, without the written approval of the Governor and the Legislative Budget Board a state agency or institution of higher education may not use funds appropriated by this Act to pay all or part of the salaries or benefits of a number of employees which would cause the number of full-time equivalent employees (FTEs) paid from funds appropriated by this Act by the state agency or institution of higher education for a fiscal quarter to exceed the lesser of either:
 - (A) one hundred and ten percent (110%) of the FTE figure indicated by this Act for that state agency or institution; or
 - (B) one hundred percent (100%) of the figure indicated by this Act for that state agency or institution plus fifty (50) FTEs.
- (b) (1) A report by a state agency or institution of higher education of exceeding the FTE limitations established by this section must be submitted by the governing board of the state agency or institution of higher education (if the agency has a governing board) or by the chief administrative officer (if the agency does not have a governing board or the governing board has not met) and must include at a minimum:
 - (A) the date on which the board (if the agency has a governing board) or by the chief administrative officer (if the agency does not have a governing board or the governing board has not met) approved the report;
 - (B) a statement justifying the need to exceed or reduce the limitation;
 - (C) the source of funds to be used to pay any additional salaries; and
 - (D) an explanation as to why the functions of any proposed additional FTEs cannot be performed within current staffing levels.
- (2) A request by a state agency or institution of higher education to exceed the FTE limitations established by this section must be submitted by the governing board of the state agency or institution of higher education (if the agency has a governing board) or by the chief administrative officer (if the agency does not have a governing board) and must include at a minimum:
 - (A) the date on which the board (if the agency has a governing board) or the chief administrative officer (if the agency does not have a governing board) approved the request;
 - (B) a statement justifying the need to exceed the limitation;
 - (C) the source of funds to be used to pay any additional salaries; and
 - (D) an explanation as to why the functions of any proposed additional FTEs cannot be performed within current staffing levels.

GENERAL LIMITATIONS ON EXPENDITURES

(Continued)

- (c) An agency or institution may make a preliminary report to the Governor and the Legislative Budget Board without meeting the requirements of Subsection (b)(1)(A) if the governing board of the agency or institution has not met within the reporting time.
- (d) For the purpose of Subsections (a) and (b), the number of FTEs employed by a state agency (not including an institution of higher education or an affiliated entity, the State Preservation Board, Parks and Wildlife Department, Texas School for the Blind and Visually Impaired, Texas School for the Deaf, and Texas Commission on Environmental Quality) for a fiscal quarter:
 - (1) shall be determined in accordance with the report filed pursuant to § 2052.103, Government Code;
 - (2) shall include only employees paid with funds appropriated through this Act;
 - (3) shall not include overtime hours; and
 - (4) shall include a position filled by temporary or contract workers for more than half of the work days of the year preceding the final day of the reporting period. Temporary or contract workers shall include workers employed under contract to fill specific positions customarily filled by state employees. The State Auditor is authorized to provide interpretations of this provision.
- (e) For the purpose of Subsections (a) and (b), the number of FTEs employed by the State Preservation Board, Texas Commission on Environmental Quality, the Parks and Wildlife Department, the Texas School for the Blind and Visually Impaired, the Texas School for the Deaf, or an institution of higher education or an affiliated entity, for a fiscal year:
 - (1) shall be determined in accordance with the reports filed pursuant to §2052.103, Government Code;
 - (2) shall be an average of the four reports filed for that fiscal year;
 - (3) shall include only employees paid with funds appropriated through this Act;
 - (4) shall not include overtime hours; and
 - (5) shall include a position filled by temporary or contract workers for more than half of the work days of the year preceding the final day of the reporting period. Temporary or contract workers shall include workers employed under contract to fill specific positions customarily filled by state employees. The State Auditor is authorized to provide interpretations of this provision.
- (f) This section shall not apply to appropriations made by this Act to the:
 - (1) Office of the Governor; or
 - (2) Comptroller.
- (g) The limitations on FTEs under this section do not apply to a state agency or institution in instances of employment, including employment of temporary or contract workers, directly associated with events declared disasters by the Governor. Each state agency or institution shall annually notify the State Auditor, Comptroller, Legislative Budget Board, and Governor of FTEs exempted under this section.
- (h) (1) The limitations on FTEs under this section do not apply to a state agency or institution in an instance of employment for a project, including employment of a temporary or contract worker, if the FTEs associated with that project are not included in the number of FTEs allowed in the agency's bill pattern and the employees are associated with:

- (A) implementation of a new, unanticipated project that is 100 percent federally funded; or
 - (B) the unanticipated expansion of an existing project that is 100 percent federally funded.
- (2) With regard to the exemption from the FTE limitations provided by this Subsection (h), a state agency or institution is exempt from the FTE limitations only for the duration of the federal funding for the employment related to the project and all salaries, benefits, and other expenses incurred related to employment must be paid from federal funds.
 - (3) This Subsection (h) does not exempt any employees associated with existing projects that are 100 percent federally funded and included in the number of FTEs allowed in the agency's bill pattern.
 - (4) Each state agency or institution shall notify the State Auditor, Comptroller, Legislative Budget Board, and Governor of FTEs exempted under this Subsection (h).
- (i) If a program is transferred from a state agency or institution of higher education, then at any time during the biennium, the Legislative Budget Board and the Governor may agree to reduce the number of FTEs paid from funds appropriated by this Act by the state agency or institution of higher education for one or more fiscal quarters to a figure below that indicated by this Act for that agency or institution.
 - (j) The limitations on FTEs under this section do not apply to a state agency or institution of higher education in an instance of employment, including employment of a temporary or contract worker, if the employee is paid from appropriations of gifts and grants under Section 8.01 of this Article.
 - (k) The requirements of requesting and reporting under this section do not apply to a state agency or an institution of higher education with fewer than 50 FTEs allowed in the agency's or institution's bill pattern.

Sec. 6.11. Purchases of Postage.

- (b) The amount received by an agency as a refund of postage used by the agency shall be deposited in the fund to the credit of the appropriation from which postage for the agency is paid and is appropriated to the agency for postage use.

Sec. 6.12. Expenditures for State-Federal Relations.

- (a) Funds appropriated by this Act may not be spent by a state agency to carry on functions for which funds have been appropriated to the Office of State-Federal Relations to perform except when an interagency contract has been executed between the Office of State-Federal Relations and the state agency.
- (b) Prior to travel to the Washington, D.C. area, including any trip with a destination to the Reagan-National, Dulles, or Baltimore Washington International airports, state agency personnel shall inform the Office of State-Federal Relations regarding:

GENERAL LIMITATIONS ON EXPENDITURES

(Continued)

(c) Under Subsection (b) the term "travel" is limited to only activities:

- (1) involving obtaining or spending federal funds; or
- (2) impacting federal policies.

Sec. 6.13. Performance Rewards and Penalties.

- (a) It is the intent of the Legislature that appropriations made by this Act be utilized in the most efficient and effective manner possible to achieve the intended mission of each state agency and institution. In order to achieve the objectives and service standards established by this Act, agencies and institutions shall make every effort to attain the designated key performance target levels associated with each item of appropriation.
- (b) To support and encourage the achievement and maintenance of these appropriated annual performance levels, continued expenditure of any appropriations in this Act shall be contingent upon compliance with the following provisions:
 - (1) Agencies and institutions, in coordination with the Legislative Budget Board, shall establish performance milestones for achieving targets within each annual budget and performance period; time frames for these milestones and the related performance reporting schedule shall be under guidelines developed and maintained by the Legislative Budget Board.
 - (2) Agencies and institutions shall provide testimony as to the reasons for any performance variances to the Senate Finance Committee and the House Appropriations Committee, as determined to be necessary by those committees; assessments of agency and institution performance shall be provided to the committees under guidelines and procedures developed and maintained by the Legislative Budget Board.
- (c) Upon a finding that an agency or institution has successfully met or exceeded performance expectations, or has failed to achieve expected performance levels, the Legislative Budget Board, and the Governor, may adopt a budget execution order, which may include but is not limited to, one or more of the following:

 - (4) The Legislative Budget Board may request comments from the State Auditor's Office regarding performance penalties and rewards.

Sec. 6.14. Bookkeeping Entries. Should clerical or bookkeeping errors result in any monies being expended, transferred, or deposited into incorrect funds in or with the state treasury or any monies being cleared from a trust and suspense fund to other than the proper fund, such erroneously expended, transferred, deposited, or cleared monies may be transferred to the correct funds or accounts or trust and suspense account within the state treasury on request of the administering department with the concurrence of the Comptroller, and so much as is necessary for said transfer is appropriated.

Sec. 6.15. Accounting for State Expenditures.

- (a) Notwithstanding the various patterns of appropriation established in this Act, the Comptroller shall account for the expenditure of funds appropriated by this Act in a manner that allows for

the reporting of expenditures attributable to each strategy in each agency's respective Strategic Planning and Budget Structure as approved by the Governor and the Legislative Budget Board. The information shall be recorded and maintained systematically in the state accounting system in a manner that provides for the integration of the state's budget data and the state's accounting data and to facilitate the state's budget development process.

- (b) This section does not require the deposit into and subsequent disbursement of funds from the state treasury that relate to Texas Public Education Grants, , or "local funds" defined in §51.009, Education Code, except for tuition and lab fees.

Sec. 6.16. Fee Increase Notification. None of the funds appropriated by this Act may be expended by an agency which increases the rate of a fee assessed by that agency unless the agency provides a notice to the payer of the fee that the fee rate was set by the agency or its governing board and not mandated by the Legislature.

Sec. 6.17. Consolidated Funds. Contingent on the enactment of legislation relating to the dedication of funds, the Comptroller, on approval of the Legislative Budget Board, may change an applicable agency's method of financing source name as provided in this Act to reflect changes made by the other legislation that affects the status of the funding source. No change in the amount of the appropriation would be affected by this change.

Sec. 6.18. Demographic and Statistical Studies. Before expending funds appropriated by the Act for the purpose of contracting for a consultant or other private assistance in performing a study required by the Legislature that includes statistical or demographic analysis of data, the agency conducting the study shall determine if the resources of the Texas Legislative Council or the Office of the State Demographer and the Texas State Data Center at The University of Texas at San Antonio are available to assist the agency in designing or conducting that component of the study.

Sec. 6.19. Cost Allocations. For the purpose of more effective and efficient identification and allocation of costs, and to effect timely payments to employees and vendors, agencies may temporarily charge salary and/or operating costs to appropriations most applicable for the expense being incurred. Upon receipt of more specific information such as personnel-time allocation information for payrolls, or allocation of office supplies or other goods and services, agencies may reimburse the original paying appropriations by transfer from the appropriation to which the expenditure should have been charged. Such transfers must be accomplished within twelve months in a manner which records appropriate expenditures to the borrowing appropriation and negative expenditures to the lending appropriation. These transfers may be in summary amounts in a manner approved by the Comptroller. Each agency must maintain adequate detailed records to support summary transfer amounts.

Sec. 6.20. Use of Appropriations to Contract for Audits.

- (a) Notwithstanding any other law, or other sections of this Act, none of the funds appropriated in this Act shall be used by the agencies or institutions of higher education to enter into a contract with an independent audit entity for audit services, except as specified by this section.

 - (2) enter into a contract with an independent audit entity for the provision of audit services pursuant to §321.020, Government Code, if:
 - (A) the SAO has reviewed the scope of the proposed audit and has issued a written approval for the scope of the proposed audit, and
 - (B) the SAO has delegated the authority to enter into the proposed audit to the agency or institution, in the event the agency or institution does not have a specific statutory delegation of authority to enter into a contract for audit services.

GENERAL LIMITATIONS ON EXPENDITURES

(Continued)

Sec. 6.21. Limitations on Use of Appropriated Funds. Funds appropriated by this Act, other than those appropriated to an institution of higher education, may be expended only for items set out in the expenditure classifications of the Comptroller's Manual of Accounts insofar that an agency expending the appropriated funds has existing statutory authority for making the expenditures and the expenditures are not otherwise limited or prohibited in this Act.

Sec. 6.22. Informational Items. Object of expense (OOE) listings contained in this Act, and other informational listings are not appropriations, and are merely informational listings that are intended to qualify or direct the use of funds appropriated in agency strategies, or are incidental to the appropriation made in the agency strategies.

Sec. 6.23. Appropriations from State Tax Revenue. The appropriations from state tax revenue not dedicated by the Constitution for the 2016-17 biennium shall not exceed the Texas Constitution's Article VIII, §22 limit of \$94,267,654,158 established by the Legislative Budget Board pursuant to §316.002, Government Code. The limit on appropriations that can be made for the 2016-17 biennium is subject to adjustments resulting from revenue forecast revisions or subsequent appropriations certified by the Comptroller to the 2014-15 biennial appropriations from state tax revenue not dedicated by the Constitution. The Comptroller may adjust the composition of fund and account balances without any net change in balances or change in appropriations so as to ensure compliance with the limit set forth in Article VIII, §22 of the Texas Constitution.

Sec. 6.24. Deposit and Approval Requirement for Certain Deepwater Horizon Oil Spill Funds. Funds related to the Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States Act shall be deposited to the State Treasury in a designated account to be determined by the Comptroller of Public Accounts. Any agency that intends to expend at least \$1 million for a project or program using funds related to the Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States Act, or any funds related to the Deepwater Horizon oil spill that are deposited to the State Treasury, shall submit an expenditure request in a timely manner to the Legislative Budget Board and Office of the Governor for approval prior to making any such expenditure. If an agency receives such funds from another agency, the agency that finally expends the funds shall submit the expenditure request. Any additional information requested by the Legislative Budget Board or the Governor must be submitted promptly and in a manner prescribed by the Legislative Budget Board or the Governor. If after the 30th business day after completion of a review by Legislative Budget Board staff and forwarding of a recommendation to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor there is no notification of disapproval issued to the agency by the Legislative Budget Board or the Governor, the expenditure request is approved. Any requests for additional information made by the Legislative Budget Board shall interrupt the counting of the 30 business days.

PART 7. REPORTING REQUIREMENTS

Sec. 7.01. Budgeting and Reporting.

- (a) As a limitation and restriction upon appropriations made by this Act, agencies and institutions of higher education appropriated funds by this Act may expend funds only if there is compliance with the following provisions:

 - (2) All subsequent amendments to the original budget shall be filed with the Governor and the Legislative Budget Board within 30 days of approval of such amendments unless such reporting requirement is waived.
 - (3) Under guidelines developed by the Legislative Budget Board, each agency shall file a report with the Legislative Budget Board, the Governor, the Legislative Reference Library, the state publications clearinghouse of the Texas State Library, State Auditor's Office, and the appropriate substantive committees of the House and Senate. The report shall analyze the agency's performance relative to the attainment of stated outcome, output

and efficiency targets of each funded goal and strategy. The report shall be submitted at such intervals required by the Legislative Budget Board. The report shall contain a comparison of actual performance for the reporting period with targeted performance based on the level of funding appropriated. In developing guidelines for the submission of agency performance reports, the Legislative Budget Board (in consultation with the Governor) shall:

- (A) specify the measures to be reported including the key performance measures established in this Act;
 - (B) approve the definitions of measures reported; and
 - (C) establish standards for and the reporting of variances between actual and targeted performance levels.
- (4) The Legislative Budget Board (in consultation with the Governor) may adjust projected performance target levels, develop new measures, modify or omit existing measures and measure definitions, and/or transfer measures between agencies, goals or strategies to reflect appropriation changes made by riders or other legislation subsequent to passage of this Act, invocation of budget execution authority by the Governor and the Legislative Budget Board, or as unforeseen circumstances may warrant during the biennium.
- (5) To ensure that the Program and Cost Accounting functions of the Uniform Statewide Accounting System (USAS) are maximized, it is the intent of the Legislature that the Legislative Budget Board and the Governor:
- (A) determine the agencies, institutions, goals, strategies or other reporting units for which cost accounting data is required;
 - (B) approve the basis for calculating and allocating costs to selected functions, tasks or measures;
 - (C) determine the frequency of reporting cost accounting data needed; and
 - (D) provide for the integration of cost accounting data into the budget development and oversight process.
- (6) The determinations to be made should be based upon due consideration of the relative benefits and cost-effectiveness of applying cost accounting requirements to a given state operation.
- (b) It is further the intent of the Legislature that the Comptroller develop and provide USAS training modules and support for state agencies and institutions to activate the cost accounting requirements addressed above.

Sec. 7.02. Annual Reports and Inventories.

- (a) None of the monies appropriated by this Act may be expended after November 20th following the close of the fiscal year unless an annual financial report has been filed by the executive head of each agency specified in this Act in accordance with §2101.011, Government Code.
- (b) The Comptroller shall withhold any appropriations for expense reimbursements for the heads of agencies or any employees of such agencies until delinquent reports have been filed with the Comptroller.
- (c) "Heads of agencies" as used in this section mean the elected and appointed officials, members of commissions, boards, etc., and the chief administrative officer of such department, board, commission, bureau, office, or agency of the state for which appropriations are made in this Act.

REPORTING REQUIREMENTS

(Continued)

Sec. 7.03. Notification to Members of the Legislature.

- (a) An agency may not use funds appropriated by this Act to close an agency's field office unless the agency provides notification to affected members of the Legislature prior to the public announcement of the closing of the field office.
- (b) It is the intent of the Legislature that at the time of announcing information to the news media concerning a matter of public safety, a state agency that receives funds appropriated under this Act shall make a reasonable attempt to contact each member of the Legislature whose district could be affected by the content of the press release and disclose to the member the content of the press release.

Sec. 7.04. Contract Notification: Amounts Greater than \$50,000.

- (a) In this section "contract" includes a contract, agreement, or other written expression of terms of agreement or an amendment, modification, renewal, or extension of such for the purchase or sale of goods or services that was entered into or paid for, either in whole or in part, by a state agency or institution of higher education during a fiscal year.
- (b) In this section a contract does not include:

 - (2) a purchase order;
 - (3) an interagency contract;
 - (4) an interlocal agreement;
 - (5) a contract with a value of less than or equal to \$50,000; or
 - (6) a contract paid only with funds not appropriated by this Act.
- (c) Before October 1 of each fiscal year, a state agency or an institution of higher education shall report to the Legislative Budget Board in the manner prescribed by Legislative Budget Board all contracts to which the agency or institution was a party during the prior fiscal year.

Sec. 7.05. Reports and References.

The Comptroller shall reduce the appropriation made by this Act for the Capital Budget item in an amount equal to the difference between the appropriated amount and the sum of the lease payments for the biennium and deposit that amount into the unappropriated balance of the original funding source. This section is intended to serve as a means for quickly, effectively, and efficiently transferring appropriations in the event of a disaster and in such disasters to serve as an alternative - as provided by Article XVI, §69, Texas Constitution - to the budget execution process provided under Chapter 317, Government Code. This §14.04 provides an exception to any other provision of this Act which might otherwise limit transfers of appropriations such as by imposing a limit on the amount of a transfer or which might otherwise limit transfers of appropriations by causing a delay in making a transfer because of the need to take actions such as preparing reports or obtaining approvals prior to transferring appropriations necessary for responding to a disaster. No part of this §14.04 shall be read to limit, modify, or abridge the authority of the Governor to proclaim an emergency, disaster, or martial law or exercise any other powers vested in the Governor under the constitution or other laws of this state.

- (c) Other Agencies: An agency other than a health and human services agency listed in Chapter 531, Government Code that directly responds to a disaster may transfer appropriations within the agency, without regard to any limits on transfer of appropriations between strategies, subject to the prior notification of and approval by the Legislative Budget Board and Governor as provided by Subsection (g) of this §14.04.
- (d) Transfers Between Agencies: In the event that a transfer involving at least one agency not listed in Chapter 531, Government Code is necessary in order to respond to a disaster, the agencies involved in the transfer shall request approval from the Legislative Budget Board and the Governor for the emergency transfer of funds, pursuant to Article XVI, §69, Texas Constitution. Any request under this Subsection (d) of this §14.04 is subject to the prior notification of and approval by the Legislative Budget Board and governor as provided by Subsection (g) of this §14.04.  - (3) If the Attorney General determines that outside legal counsel is in the best interest of the State, the Attorney General shall so certify to the Comptroller and to the requesting state governmental entity which may then utilize appropriated funds to retain outside legal counsel.
 - (4) Funds appropriated by this Act may not be used by a state governmental entity to contract with an outside legal counsel who represents clients before the state governmental entity or who has, during a six month period preceding the initiative of the contract and a six month period following the termination of the contract, represented clients before the state governmental entity.

- (h) If the Attorney General initiates legal action against another state governmental entity on behalf of the Attorney General rather than another state governmental entity, the Legislature determines that a conflict of interest exists and the state governmental entity against which the Attorney General takes action may expend appropriated funds for outside legal counsel to represent that state governmental entity without the prior approval or consent of the Attorney General.

- (a) Amounts appropriated in this Act out of the Water Resource Management Account No. 153 include: \$56,152,049 in fiscal year 2016 and \$55,864,649 in fiscal year 2017 to the Commission on Environmental Quality; \$2,648,770 each fiscal year to the Public Utility Commission (PUC); and \$509,054 each fiscal year to the Office of Public Utility Counsel (OPUC). These appropriations are contingent on available balances in and revenues to the Water Resources Management Account No. 153 being sufficient during the 2016-17 biennium to cover the appropriations and any additional costs associated with employee benefits for FTEs paid out of the Water Resources Management Account (estimated to be \$17,557,912 for the biennium). In the event that available funds out of the Water Resources Management Account No. 153 are insufficient to meet appropriations in this Act and related benefits costs, the TCEQ shall increase rates for fees deposited to the Water Resources Management Account No. 153 for which it has rulemaking authority, including the Water Quality Fee established in Water Code, Chapter 26 and the Public Health Service Fee established in Health and Safety Code, Section 341.041, at a level to ensure that sufficient balances and revenues are available.
- (b) Contingent on enactment of legislation by the Eighty-fourth Legislature, Regular Session, that transfers a portion of the proceeds of fee revenues deposited to the Water Resource Management Account No. 153 in Water Code, Section 5.701 (n) to the General Revenue Fund:
- (1) appropriations to the PUC in Strategy A.2.1, Utility Regulation, are increased out of the General Revenue Fund by \$2,648,770 each fiscal year, and appropriations are decreased out of the Water Resources Management Account No 153 by \$2,648,770 from the Water Resource Management Account No. 153 each fiscal year; and
 - (2) appropriations to the OPUC in Strategy A.1.1, Participation in cases, are increased out of the General Revenue Fund by \$356,338 each fiscal year and appropriations are decreased out of the Water Resources Management Account No 153 by \$356,338 from the Water Resource Management Account No. 153 each fiscal year; and
 - (3) appropriations to the OPUC in Strategy B.1.1, Utility Projects, are increased by \$152,716 out of the General Revenue Fund and appropriations are decreased by \$152,716 out of the Water Resource Management Account No. 153 each fiscal year.
- (c) Out of amounts appropriated elsewhere in this Act, the TCEQ shall also conduct a study to determine the level of agency workload related to each group of entities paying fees deposited to the Water Resource Management Account No. 153 and the relative benefit each fee payer group receives from agency water quality permitting, water quality regulation, and safe drinking water programs. Using this analysis, the agency shall develop a methodology to determine the appropriate level of rates for water-related fees that would generate revenue in proportion to agency workload and fee payer benefits. The TCEQ shall base any future fee rate modifications made to ensure sufficient revenues to the Water Resource Management Account on the findings of that study, provided such fee rate changes do not conflict with any statutory provisions relating to water-related fees or water-related programs, and provided such fee rates do not exceed any maximum levels set in statute.

ARTICLE XII. SAVINGS CLAUSE

If any section, sentence, clause or part of this Act shall for any reason be held to be invalid, such decision shall not affect the remaining portions of this Act; and it is hereby declared to be the intention of the Legislature to have passed each sentence, section, clause, or part thereof irrespective of the fact that any other sentence, section, clause or part thereof may be declared invalid.

ARTICLE XIII. EMERGENCY CLAUSE

The importance of the legislation to the people of the State of Texas and the crowded condition of the calendars in both Houses of the Legislature create an emergency and an imperative public necessity that the Constitutional Rule requiring bills to be read on three separate days in each House be suspended, and said Rule is hereby suspended; and this Act shall take effect and be in force from and after its passage, and it is so enacted.

DYNAMIC ECONOMIC IMPACT STATEMENT

84TH LEGISLATIVE REGULAR SESSION

March 24, 2015

TO: Honorable John Otto, Chair, House Committee on Appropriations

FROM: Ursula Parks, Director, Legislative Budget Board

IN RE: HB1 by Otto (General Appropriations Bill.), **Committee Report 1st House, Substituted**

HB 1, Committee Report 1st House, Substituted (CSHB 1) would appropriate \$209,785.1 million from All Funds sources during the 2016-17 biennium. This represents an increase of \$7,702.0 million, or 3.8 percent, from the 2014-15 All Funds estimated/budgeted levels. As required under House Rule 4, Section 34 (a-1), the Legislative Budget Board has analyzed the dynamic economic impact of the bill. The effects on employment, personal income, GSP, and other economic variables, assuming appropriation levels under CSHB1, were analyzed using the REMI Tax-PI Model, a dynamic forecasting and policy analysis tool that applies a combination of econometric, input-output, and computable general equilibrium methodologies. The forecasted changes in several economic indicators for the state of Texas, as a result of CSHB1 spending relative to a baseline scenario, are displayed in Table 1.

The analysis reflects the predicted effects on the number of state employees and the impact on private sector employment as a result of the adjusted appropriation levels in CSHB 1 relative to a baseline scenario where 2016-17 appropriations were held constant at the 2014-15 levels. It is important to note that the numbers in the tables are not all new jobs, rather they are changes in employment levels relative to a scenario where government spending remained constant from the 2014-15 to the 2016-17 biennium, a scenario in which the reduced employment levels would have been achieved through some combination of attrition, cancellation of intended hiring, and layoffs. Further, note that the employment concept used in the analysis is state employment data calculated by the U.S. Bureau of Economic Analysis and differs from state FTE levels used in the General Appropriations Act. CSHB 1 limits state FTEs to 215,867 in FY16 and 216,162 in FY17. State authorized FTEs are reduced by 2,127.3 when comparing FY 2015 to 2017; however, this reduction is largely to align with the actual experience of higher education FTEs in 2014.

The increased state expenditures over the previous biennium are expected to avoid employment reductions and increase private sector employment levels by 103,963 in 2016 and 110,923 in 2017 over the no spending growth scenario, while simultaneously avoiding employment reductions and increasing state government employment by 2,959 in 2016 and 3,143 in 2017 over the no spending growth scenario, subject to the caveats identified above. The corresponding estimate of local government employment is an increase of 9,656 in FY 2016 and 10,321 in FY 2017. In addition, Table 1 displays the corresponding effect on Gross State Product, Personal Income, and inflation.

DYNAMIC ECONOMIC IMPACT STATEMENT

84TH LEGISLATIVE REGULAR SESSION

March 24, 2015

TO: Honorable John Otto, Chair, House Committee on Appropriations

FROM: Ursula Parks, Director, Legislative Budget Board

IN RE: HB1 by Otto (General Appropriations Bill.), **As Introduced**

HB 1, As Introduced (HB 1) would appropriate \$202,441.6 million from All Funds sources during the 2016-17 biennium. This represents an increase of \$358.5 million, or 0.2 percent, from the 2014-15 All Funds estimated/budgeted levels. As required under House Rule 4, Section 34 (a-1), the Legislative Budget Board has analyzed the dynamic economic impact of the bill. The effects on employment, personal income, GSP, and other economic variables, assuming appropriation levels under HB1, were analyzed using the REMI Tax-PI Model, a dynamic forecasting and policy analysis tool that applies a combination of econometric, input-output, and computable general equilibrium methodologies. The forecasted changes in several economic indicators for the state of Texas, as a result of HB1 spending relative to a baseline scenario, are displayed in Table 1.

The analysis reflects the predicted effects on the number of state employees and the impact on private sector employment as a result of the adjusted appropriation levels in HB 1 relative to a baseline scenario where 2016-17 appropriations were held constant at the 2014-15 levels. It is important to note that the numbers in the tables are not all new jobs, rather they are changes in employment levels relative to a scenario where government spending remained constant from the 2014-15 to the 2016-17 biennium, a scenario in which the reduced employment levels would have been achieved through some combination of attrition, cancellation of intended hiring, and layoffs. Further, note that the employment concept used in the analysis is state employment data calculated by the U.S. Bureau of Economic Analysis and differs from state FTE levels used in the General Appropriations Act. HB 1 as Introduced limits state FTEs to 214,203 in FY16 and 214,087 in FY17. State authorized FTEs are reduced by 4,202 when comparing FY 2015 to 2017; however, this reduction is largely to align with the actual experience of higher education FTEs in 2014.

The increased state expenditures over the previous biennium are expected to avoid employment reductions and increase private sector employment levels by 5,455 in 2016 and 5,814 in 2017 over the no spending growth scenario, while simultaneously avoiding employment reductions and increasing state government employment by 155 in 2016 and 165 in 2017 over the no spending growth scenario, subject to the caveats identified above. The corresponding estimate of local government employment is an increase of 507 in FY 2016 and 542 in FY 2017. In addition, Table 1 displays the corresponding effect on Gross State Product, Personal Income, and inflation.
