5. **Authorization: Sale of Agency-owned Buildings and Land.** In order to ensure effective facility management in coordination with the local workforce development boards, the Texas Workforce Commission (TWC) is hereby authorized to sell agency-owned buildings and land. Any such sale must be based on a finding by the commission that no other economically viable alternative exists, and specifically that operation within agency-owned or leased buildings would not be feasible. Furthermore, in order to accommodate sudden and unexpected fluctuations in federal funding, TWC is hereby authorized to sell agency-owned buildings and land as it deems necessary. The authority granted in this provision is contingent upon the filing of a written notice with the Governor and the Legislative Budget Board at least 90 days prior to the planned date of sale and is subject to the disapproval of either office within 90 days after notification.

- 4. Benefit Collection.** Agencies that enter into contracts with the State Office of Administrative Hearings (SOAH), for the purpose of performing the hearings function, and make payments to SOAH from funding sources other than General Revenue, must reimburse SOAH for employee benefit costs for salaries and wages. A state agency may pay an additional evening shift or night shift differential not to exceed 15 percent of the monthly pay rate to registered nurses or licensed vocational nurses who work the 3:00 p.m. to 11:00 p.m. shift, or its equivalent, or who work the 11:00 p.m. to 7:00 a.m. shift, or its equivalent. SALARY ADMINISTRATION AND EMPLOYMENT PROVISIONS

(Continued)

- (d) A state agency shall adopt internal written rules relating to making equity adjustments under this section. The rules shall include procedures under which the agency will review and analyze the salary relationships between agency employees who receive salaries under the same job classification and perform the same type and level of work to determine if inequities exist.

Sec. 3.08. Classification Study on Scheduled Exempt Positions. The State Auditor's Office is directed to conduct a study (which is similar to the biennial study performed by the Auditor's office on the state's classification plan under Chapter 654, Government Code) that reviews the compensation of exempt positions and executive compensation as provided in Articles I through VIII of the General Appropriations Act. The study should compare exempt positions from different agencies and take into account the size of an agency's annual appropriations, the number of full-time equivalent employees (FTEs) of the agency, market average compensation for similar executive positions, the exempt position salary as compared to classified positions within the agency, and other objective criteria the Auditor's Office deems appropriate. The study shall be submitted to all members of the Legislature and the director of the Legislative Budget Board no later than September 1, 2016.

Sec. 3.09. Method of Salary Payments. All annual salaries appropriated by this Act are for full-time employment unless specifically designated as part-time. This section may not be construed to prevent the chief administrator of an agency from paying less than the maximum salary rate specified in this Act for a position, or the employment of a part-time employee to fill a regular position provided for in this Act, so long as the salary rate for such part-time employee is proportional to the regular rate for full-time employment.

Sec. 4.02. Grants.

- (a) Funds appropriated by this Act for grants of money to be made by state agencies, including the agencies in the legislative branch, are appropriated for the statutory purposes as the grantor agency may specify. A state agency shall distribute grants on a reimbursement or as needed basis unless otherwise provided by statute or otherwise determined by the grantor agency to be necessary for the purposes of the grant.
- (b) Funds appropriated by this Act for grants to be made by a state agency for a particular fiscal year may be distributed in subsequent fiscal years so long as the grant has been awarded and treated as a binding encumbrance by the grantor agency prior to the end of the appropriation year of the funds appropriated for grant purposes. Distribution of the grant funds is subject to §403.071, Government Code.

Sec. 4.03. Grants for Political Polling Prohibited. None of the funds appropriated by the Act may be granted to or expended by any entity which performs political polling. This prohibition regarding political polling does not apply to a poll conducted by an academic institution as a part of the institution's academic mission that is not conducted for the benefit of a particular candidate or party.

Sec. 4.04. Limitation on Grants to Units of Local Government.

- (a) The funds appropriated by this Act may not be expended in the form of a grant to, or a contract with, a unit of local government unless the terms of the grant or contract require that the funds received under the grant or contract will be expended subject to limitations and reporting requirements similar to those provided by:

PART 5. TRAVEL REGULATIONS

Sec. 5.01. Travel Definitions. The definitions established by §660.002, Government Code, apply to Part 5 of this Article, unless another meaning is clearly provided. In Part 5 of this Article:

 - (B) a regional planning commission created under Chapter 391, Local Government Code; or
 - (C) a regional planning agency created under Chapter 391, Local Government Code.

Sec. 5.02. General Travel Provisions. The funds appropriated by this Act to a state agency for the payment of transportation, meals, lodging, or incidental expenses indicates the maximum amount that may be expended by the agency. The funds appropriated by this Act may not be expended for those expenses unless the travel and the resulting requests for payment or reimbursement comply with the conditions and limitations in this Act, Chapter 660, Government Code, and the Comptroller's Rules.

Sec. 5.03. Transportation Expenses. For a state employee's use of a personally owned or leased motor vehicle, the mileage reimbursement rate for travel equals the maximum fixed mileage allowance specified in the revenue rulings issued by the Internal Revenue Service under the federal income tax regulations as announced by the Comptroller.

Sec. 5.04. Transportation in Personally Owned or Leased Aircraft. The rate of reimbursement to be paid to a state employee, key official, member of a board, commission, or a member of the Legislature for travel in the person's personally owned or leased aircraft, either within or without the boundaries of this state, is the maximum fixed mileage allowance specified in the revenue rulings issued by the Internal Revenue Service under the federal income tax regulations or alternatively as determined by the Comptroller the rates adopted by the United States Administrator of General Services as announced by the Comptroller.

Sec. 5.05. Travel Meals and Lodging Expenses.

- (a) (1) A state employee who travels within the continental United States shall be reimbursed for the actual cost of lodging and meals. However, the reimbursements may not exceed the maximum meals and lodging rates based on the federal travel regulations issued by the United States General Services Administration. The maximum lodging rate allowance for Texas cities and counties that do not have a specific federal per diem rate set for that city or county shall not be more than \$85 per night.
- (2) Notwithstanding the limit established by Subsection (a)(1), the chief administrator of a state agency or designee of the chief administrator of a state agency may determine that local conditions necessitate a change in the lodging rate for a particular location and establish a higher rate.

TRAVEL REGULATIONS

(Continued)

- (b) At the discretion of each chief administrator of a state agency, a state employee whose duties require the employee to travel outside the employee's designated headquarters without an overnight stay away from the employee's headquarters may be reimbursed for the actual cost of the employee's meals not to exceed \$36.
- (c) A state employee may receive reimbursements for the employee's actual expenses for meals and lodging when traveling outside the continental United States.
- (d) A state agency or institution may reimburse a state employee for a meal expense the employee incurs while traveling outside the employee's designated headquarters for less than six consecutive hours if the reimbursement:
 - (1) receives the written approval by the chief administrator of the state agency or institution;
 - (2) meets the rules adopted by the Comptroller regarding reimbursement for traveling outside the employee's designated headquarters for less than six consecutive hours; and
 - (3) complies with §660.206, Government Code.

Sec. 5.06. Special Provisions Regarding Travel Expenses. Reimbursement for meals and lodging as authorized by Subchapter H, Chapter 660, Government Code, on an "actual expenses" or "actual amount of" basis may not exceed twice the maximum rates specified in §5.05 of this Article.

Sec. 5.07. Travel and Per Diem of Board or Commission Members.

- (a) As authorized by §659.032, Government Code, the per diem of state board and commission members consists of:

 - (B) lodging at the rates provided by this Act for state employees;
 - (C) transportation at the rates provided by this Act for state employees; and
 - (D) incidental expenses.
- (b) If a law enacted after former Article 6813f, VTCS, (September 1, 1983), authorizes per diem for members of a particular state board or commission, but does not specify the amount of the per diem, then the amount of the per diem is the amount provided by Subsection (a).
- (c) A full-time employee paid from funds appropriated by this Act may not be paid both a salary and compensatory per diem for concurrent service as a state employee and as a board or commission member.

Sec. 5.08. Travel of Advisory Committee Members.

- (a) For the purpose of this section, the term "advisory committee" has the meaning assigned by §2110.001, Government Code.
- (b) In addition to the limits placed on reimbursement of advisory committee member expenses by this section and to the extent not otherwise limited by this Act or other law, a member of a state agency advisory committee may be reimbursed, at the rates specified in this Act for a state employee, for actual expenses for meals, lodging, transportation, and incidental expenses.

TRAVEL REGULATIONS

(Continued)

- (c) The funds appropriated by this Act may not be expended to reimburse a member of a state agency advisory committee for expenses associated with conducting committee business, including travel expenses, unless the expenditures for an advisory committee are within the limits provided by this section and other law and are:
 - (1) specifically authorized by this Act; or
 - (2) approved by the Governor and the Legislative Budget Board subsequent to the effective date of this Act.
- (d) The limitations provided by this section do not apply to an advisory committee established by the governing board of a retirement system trust fund.
- (e) The limitations provided by this section apply only to an advisory committee that is subject to Chapter 2110, Government Code.

PART 6. GENERAL LIMITATIONS ON EXPENDITURES

Sec. 6.01. Definitions. In this Act "unexpended balance" or the abbreviation "UB" means the unobligated balance remaining in an appropriation, i.e., only that part of an appropriation, if any, that has not been set apart by the incurring of an obligation, commitment, or indebtedness by the state agency authorized to spend the appropriation. A reference in this Act to "unexpended balance" or "UB" is a reference to the unobligated balance of an amount appropriated by this Act for the fiscal year ending August 31, 2016, unless another meaning is clearly indicated.

Sec. 6.02. Interpretation of Estimates. In the event the amounts of federal funds, local funds, or funds other than appropriations from the General Revenue Fund, have been estimated in this Act in sums greater than are actually received by the respective agencies of the state, this Act may not be construed as appropriating additional funds from General Revenue to make up such differences. Wherever the language of this Act appropriates all receipts or balances from a specified source but uses an estimated amount to inform the Legislature and the public, the estimated figure is not to be construed as a limitation on the amount appropriated.

Sec. 6.03. Excess Obligations Prohibited.

- (a) An agency specified in this Act may not incur an obligation in excess of the amounts appropriated to it for the respective objects or purposes named.
- (b) As a specific exception to Subsection (a) the Comptroller of Public Accounts may determine that a proposed installment purchase arrangement is cost effective and certify this finding in response to an agency request.
- (c) A determination made by the Comptroller of Public Accounts under Subsection (b) may be made for obligations incurred for the purchase or lease of automated information system equipment only if the agency has on file with the Legislative Budget Board a Biennial Operating Plan, including any amendments to the Biennial Operating Plan, and the plan has been approved by the Legislative Budget Board.
- (d) If this section is violated, the State Auditor shall certify the fact of the violation and the amount of over-obligation to the Comptroller, and the Comptroller shall deduct an amount equivalent to the over-obligation from the salary or other compensation due the responsible disbursing or requisitioning officer or employee, and apply the amount to the payment of the obligation.
- (e) This provision is specified pursuant to §10, Article XVI, Texas Constitution.

Sec. 6.04. Interpretation of Legislative Intent. Funds appropriated by this Act shall be expended, as nearly as practicable, for the purposes for which appropriated. In the event an agency cannot determine legislative purpose from the pattern of appropriations, the agency shall seek to determine that purpose from the proceedings of the legislative committees responsible for proposing appropriations for this state.

GENERAL LIMITATIONS ON EXPENDITURES

(Continued)

Sec. 6.05. Comptroller's Duty to Pay. The Comptroller may not refuse to pass for payment a legal claim, factually justified, for which a valid appropriation has been made.

Sec. 6.06. Last Quarter Expenditures.

- (a) A state agency or other governmental unit using funds appropriated by this Act may not expend during the last quarter of a fiscal year more than one-third of the funds appropriated for that fiscal year.
- (b) Specifically exempted from Subsection (a) are:
 - (1) expenditures contracted for in previous quarters;
 - (2) funds required by statute, rule or regulation to be expended on a different time frame;
 - (3) seasonal employment of personnel;
 - (4) construction contracts;
 - (5) contracts dealing with purchases of food, medicines, or drugs;
 - (6) expenditures related to the Children with Special Health Care Needs program operated by the Department of State Health Services; and
 - (7) expenditures occasioned by disaster or other Act of God.
- (c) The funds exempted, under Subsection (b) may not be considered in the computation of the total funds appropriated in a fiscal year for the purpose of applying Subsection (a).

Sec. 6.07. Employee Benefit and Debt Service Items.

- (a) Funds appropriated in the various Articles of this Act for "Employees Retirement System," "Social Security State Match," "Benefit Replacement Pay," "Texas Public Finance Authority-G.O. Bond Debt Service Payments," and "Lease-Payments to the Texas Public Finance Authority" may be transferred between Articles to a like appropriation item without limitation as to the amount of such transfer.
- (b) An agency to which an appropriation listed under Subsection (a) is made may pool such appropriations, made in the various Articles for a common purpose, into a single cost pool for the purpose of administering the appropriation.

Sec. 6.08. Benefits Paid Proportional by Fund.

- (a) Unless otherwise provided, in order to maximize balances in the General Revenue Fund, payment for benefits paid from appropriated funds, including "local funds" and "education and general funds" as defined in §51.009 (a) and (c), Education Code, shall be proportional to the source of funds except for public and community junior colleges. Any funds subject to restrictions that prevent their expenditure on salaries and wages shall not be subject to this proportional requirement.
- (b) Unless otherwise specifically authorized by this Act, the funds appropriated by this Act out of the General Revenue Fund may not be expended for employee benefit costs, or other indirect costs, associated with the payment of salaries or wages, if the salaries or wages are paid from a source other than the General Revenue Fund except for public community or junior colleges. Payments for employee benefit costs for salaries and wages paid from sources, including payments received pursuant to interagency agreements or as contract receipts, other than the General Revenue Fund shall be made in proportion to the source of funds from which the respective salary or wage is paid or, if the Comptroller determines that achieving proportionality at the time the payment is made would be impractical or inefficient, then the General Revenue Fund shall be reimbursed for any such payment made out of the General Revenue Fund.

GENERAL LIMITATIONS ON EXPENDITURES

(Continued)

- (c) For purposes of this Act, a public community or junior college may expend funds appropriated for employee benefit costs for any employee if the employee is: (1) otherwise eligible to participate in the group benefits program; and (2) an instructional or administrative employee whose salary may be fully paid from funds appropriated under the General Appropriations Act, regardless of whether the salary is actually paid from appropriated funds.
- (d) The Comptroller, after consulting with the Legislative Budget Board and the State Auditor's Office, shall develop and maintain rules to provide for the administration of this section.
- (e) Each agency or institution of higher education (excluding a community or junior college) having General Revenue Fund appropriations and other sources of financing shall file with the Comptroller and the State Auditor a report demonstrating proportionality. - (g) Should cash balances in appropriated funds prohibit an account or fund from absorbing additional expense related to proportionality requirements, an agency or institution may be allowed to adjust benefit expenses accordingly. An agency or institution must notify the Comptroller and Legislative Budget Board of any requested adjustment. The Comptroller shall make the final determination on the allowance of any benefit expense adjustment but shall ensure General Revenue is reimbursed to the maximum extent possible.
- (h) For institutions of higher education, excluding public community or junior colleges, funds appropriated by this Act may not be expended for employee benefit costs, or other indirect costs, associated with the payment of salaries or wages, if the salaries and wages are paid from funds not appropriated by this Act.

- (a) **Definition.** Earned Federal Funds (EFF) are defined as all monies received in connection with each entitlement period of a federally funded contract, grant or program, excluding reimbursements under §13.06 of this Article which are not required by the governing agreement to be distributed thereon. Typically, EFF arise from recoveries of costs previously paid from a nonfederal fund source, indirect cost allocations, interest earned on federal funds, and minor sources such as the sale of fixed assets purchased with federal funds. These funds are received in connection with a federally funded program but are not required by the governing agreement to be distributed on that program. For state accounting purposes, EFF are defined as revenues collected from federal receipts and deposited into the state General Revenue Fund as Comptroller revenue object codes 3602, 3702, 3726, 3745, 3750, 3773, 3851, 3965, 3971 and 3972.
- (b) **Collected Revenue.** General Revenue in the amounts specified by year below is appropriated in agency bill patterns elsewhere in this Act and is contingent on collection of EFF revenues by the following agencies:

This section is intended to serve as a means for quickly, effectively, and efficiently transferring appropriations in the event of a disaster and in such disasters to serve as an alternative - as provided by Article XVI, §69, Texas Constitution - to the budget execution process provided under Chapter 317, Government Code. This §.04 provides an exception to any other provision of this Act which might otherwise limit transfers of appropriations such as by imposing a limit on the amount of a transfer or which might otherwise limit transfers of appropriations by causing a delay in making a transfer because of the need to take actions such as preparing reports or obtaining approvals prior to transferring appropriations necessary for responding to a disaster. No part of this §.04 shall be read to limit, modify, or abridge the authority of the Governor to proclaim an emergency, disaster, or martial law or exercise any other powers vested in the Governor under the constitution or other laws of this state.

- (b) **Health and Human Services Agencies:** For a health and human services agency listed in Chapter 531, Government Code, that directly responds to the disaster, the Commissioner of Health and Human Services is authorized to transfer funds from another health and human services agency listed in Chapter 531, Government Code, to the responding agency, and may transfer funds between the strategies of each agency for the purpose of funding the disaster response subject to the prior notification of and approval by the Legislative Budget Board and Governor as provided by Subsection (g) of this §14.04.
- (c) **Other Agencies:** An agency other than a health and human services agency listed in Chapter 531, Government Code that directly responds to a disaster may transfer appropriations within the agency, without regard to any limits on transfer of appropriations between strategies, subject to the prior notification of and approval by the Legislative Budget Board and Governor as provided by Subsection (g) of this §14.04.
- (d) **Transfers Between Agencies:** In the event that a transfer involving at least one agency not listed in Chapter 531, Government Code is necessary in order to respond to a disaster, the agencies involved in the transfer shall request approval from the Legislative Budget Board and the Governor for the emergency transfer of funds, pursuant to Article XVI, §, Texas Constitution. Any request under this Subsection (d) of this §14.04 is subject to the prior notification of and approval by the Legislative Budget Board and governor as provided by Subsection (g) of this §14.04. A copy of the notification and approval must be provided to the Comptroller.
- (e) **Appropriation Transfers between Fiscal Years:** Agencies responding to a disaster are authorized to transfer funds appropriated in fiscal year 2017 to fiscal year 2016, subject to the prior notification of and approval by the Legislative Budget Board and Governor as provided by Subsection (g) of this §14.04.
- (f) **Unexpended Balances:** Any unobligated balances from transfers made under Subsection (e) of this §14.04 as of August 31, 2016, are appropriated to the agency for the same purpose for the fiscal year beginning September 1, 2016.
- (g) **Notification of and Approval for Recommended Plan of Transfer.**
 - (1) **Recommended Plan of Transfer:** A recommended plan of transfer submitted by an agency to the Governor and Legislative Budget Board under this §.04 must include the following information:

Sec. 14.05. Unexpended Balance Authority Between Fiscal Years within the Same Biennium. An agency may transfer any unexpended and unobligated balances remaining as of August 31, 2016 for the same purposes for the fiscal year beginning September 1, 2016, if the agency has been granted, either:

- (d) From information related to unemployment benefits paid on behalf of previously employed former state employees provided by the Texas Workforce Commission, the Comptroller shall determine the proportionate amount of the reimbursement or payment due from the General Revenue Fund, any General Revenue-Dedicated accounts, Federal Funds or Other Fund appropriations made elsewhere in this Act to agencies. The Comptroller shall transfer such amounts to the Unemployment Compensation Special Administration Account No. 165. The amounts reimbursed pursuant to this subsection are appropriated to the Unemployment Compensation Special Administration Account No. 165 for the purpose of reimbursing the Unemployment Compensation Benefit Account No. 937, as Interagency Transfers to the Unemployment Compensation Special Administration Account No. 165. The reimbursement requirements established by this subsection may be waived, either in whole or in part, by the Legislative Budget Board.

The amounts reimbursed from local funds pursuant to this subsection are appropriated to the Unemployment Compensation Special Administration Account No. 165 for the purpose of reimbursing the Unemployment Compensation Benefit Account No. 937. Such transfers and payments as are authorized under law shall be made not later than the 30th day after the date of receipt of the statement of payments due.

- (f) The Comptroller may prescribe accounting procedures and regulations to implement this section.
- (g) The Comptroller, upon certification of amounts due from the Texas Workforce Commission, including the sources of such amounts due, may transfer funds from such agencies or other units of state government as the Texas Workforce Commission certifies remain due more than 30 days from receipt of the statement of payments due. The Texas Workforce Commission shall also determine the amounts due from funds held outside the state treasury and notify the State Auditor and Comptroller of such amounts.

Sec. 15.02. Payments to the State Office of Risk Management (SORM).

- (a) In this section:
 - (1) "Agency" includes a state agency as defined under §2151.002, Government Code, which includes an institution of higher education (except a public junior college) as defined under §61.003, Education Code, and may also include any other unit of state government as defined by the rules of SORM, which participates in cost allocation plan provided under this section;
 - (2) "Assessment" means the amount of the workers' compensation assessment placed on an agency by SORM and the agencies' proportion of SORM's costs to administer workers' compensation payments and other statutory obligations contained in A.1.1, Risk Management Program and A.2.1, Pay Workers' Compensation, as provided by this section and other relevant law; and
 - (3) "SORM" means the State Office of Risk Management.
- (b) At the beginning of each fiscal year, SORM shall prepare a statement reflecting the assessments due from all agencies and present it to the Comptroller.
- (c)
 - (1) Notwithstanding other provisions in this Act, agencies shall transfer to SORM seventy-five percent (75%) of their assessed allocation which includes amounts for workers' compensation coverage for their employees from funding in the same proportion as their expected payroll funding, including General Revenue Funds, dedicated General Revenue Fund accounts, Other Funds or local bank accounts and the agencies' proportion of SORM's costs to administer workers' compensation payments and other statutory obligations contained in A.1.1, Risk Management Program and A.2.1, Pay Workers' Compensation.
 - (2) Not later than May 1 of each fiscal year, SORM shall determine, based on actual costs since the beginning of the fiscal year and other estimated costs, the remaining assessment due from each agency. SORM shall prepare a statement reflecting the remaining assessments due from each agency and present the statement to the Comptroller. Each agency shall transfer to SORM the remaining assessed allocation which includes amounts for workers' compensation coverage for their employees from funding in the same proportion as their expected payroll funding, including General Revenue Funds, dedicated General Revenue Fund accounts, Other Funds or local bank accounts and the

- (h) Amounts not to exceed 2 percent in total of workers' compensation annual expenditures may be awarded to agencies by SORM for the purposes of risk management and loss prevention. In the event that collections in Strategy B.1.1, Workers' Compensation Payments, funded by the annual assessments to agencies, exceeds 110 percent of the expected annual payments, the portion of the excess over 110 percent funded from all funding sources shall be returned to agencies. The excess returned to the agencies by SORM is appropriated to the agencies for expenditures consistent with the original funding source. Any funding less than 110 percent of collections in Strategy B.1.1, Workers' Compensation Payments, not used for workers' compensation payments shall be used by SORM to lower the cumulative assessments to agencies the following fiscal year.
- (i) In the event the total assessments in any year prove insufficient to fund expenditures, SORM may, with the approval of the Legislative Budget Board, temporarily utilize additional general revenue in an amount not to exceed 20 percent of the cumulative assessments for that fiscal year. Any additional general revenue funds will be utilized only for the purpose of temporary cash flow and must be repaid upon receipt of the following year's assessments in accordance with procedures established by the Comptroller. All transfers from and repayments to the General Revenue Fund shall be reported by SORM to the Legislative Budget Board within 30 days of the transfer.
- (j) The reimbursement requirements established by this section may be waived or delayed, either in whole or in part, by the Legislative Budget Board.
- (k) SORM shall require agencies to provide to SORM and agencies shall submit to SORM information regarding the specific funding sources from which agencies pay their assessed allocation amounts for workers' compensation coverage for their employees.

Rider for Transparency in Star+Plus Program Expenditures

Overview

The Star+Plus line item, B.1.1., in the Texas Health and Human Services Commission budget includes a broad number of programs, supports and services. As it is written, the line item does not give the legislature accountable and transparent information about the amount of funding each provider group is appropriated. This line item is a general number and does not delineate the programs funded under its appropriation. The following action adds a new rider that directs the Texas Health and Human Services Commission to report and identify specific program expenditures for Star+Plus to the legislature. The report shall include a current fiscal year budgetary expenditure and a projected expenditure for the next fiscal year.

Rider

The Texas Health and Human Services Commission shall report, no later than September 1, 2015 and October 15, 2016, all specific and projected program expenditures for Star+Plus to the Lieutenant Governor, Speaker of the House, Legislative Budget Board members, Texas Health and Human Services Committee members, and the Texas Human Services Committee members. 3. **Updated Actuarial Valuation.** The Employees Retirement System shall contract with an actuary to perform a limited actuarial valuation of the assets and liabilities of the Employees Retirement System as of February 28 in those years when the Legislature meets in regular session. The purpose of the valuation shall be to determine the effect of investment, salary, and payroll experience on the unfunded liability, the amortization period, and the state contribution rate which results in a 30-year amortization period of the Retirement System.
4. **State Contribution to Employees Retirement Program.** The amount specified above in A.1.1, Retirement Contributions, is based on a state contribution of 9.5 percent of payroll for each fiscal year of the 2016-17 biennium, including annual membership fees of \$3 for contributing members for each fiscal year.
5. **State Contribution to Judicial Retirement Program (JRS-2).** The amount specified above in A.1.3, Judicial Retirement System - Plan 2, is based on a state contribution of 15.663 percent of payroll for each fiscal year of the 2016-17 biennium for contributing members.
6. **State Contribution to Group Insurance for General State Employees.** Funds identified above for group insurance are intended to fund:
 - a. the total cost of the basic life and health coverage for all active and retired employees;
 - b. fifty percent of the total cost of health coverage for the spouses and dependent children of all active and retired employees who enroll in coverage categories which include a spouse and/or dependent children; and
 - c. the incentive program to waive participation in the Group Benefits Plan (Opt-Out).

In no event shall the total amount of state contributions allocated to fund coverage in an optional health plan exceed the actuarially determined total amount of state contributions that would be required to fund basic health coverage for those active employees and retirees who have elected to participate in that optional health plan.

During each fiscal year, the state's monthly contribution shall be determined by multiplying (1) the per capita monthly contribution as certified herein by (2) the total number of full-time active and retired employees, subject to any adjustment required by statute, enrolled for coverage during that month.

For each employee or retiree that waives participation in the Group Benefit Plan and enrolls in allowable optional coverage, the Employees Retirement System shall receive \$60 per month in lieu of the "employee-only" state contribution amount, and such amounts are included above in Strategy B.1.1, Group Insurance. The waived participant may apply up to \$60 per month towards the cost of the optional coverage.

Each year, upon adoption of group insurance rates by the Board of Trustees, Employees Retirement System must notify the Comptroller, the Legislative Budget Board, and the Governor of the per capita monthly contribution required in accordance with this rider for each full-time active and retired employee enrolled for coverage during the fiscal year.

It is the intent of the Legislature that the Employees Retirement System control the cost of the group insurance program by not providing rate increases to health care providers participating in HealthSelect during the 2016-17 biennium.

7. **Excess Benefit Arrangement Account.** There is hereby appropriated to the Employees Retirement System all funds transferred or deposited into the Excess Benefit Arrangement Account established in the General Revenue-Dedicated Account No. 5039, for the purpose of paying benefits as authorized by Government Code, §815.5072.
8. **Transfer of Retirement Contributions and Group Insurance.** Appropriations made in this and other articles of this Act for Retirement and Group Insurance contributions shall be transferred by each agency from the Employees Retirement System to the agency based on estimated amounts by funding source for each fiscal year. Transfers should be made no later than September 15 of the year in which the payments are to be made. Adjustments and return of excess appropriation authority to the Employees Retirement System shall be completed by October 30 of the subsequent fiscal year.

10. **Appropriations for the Deferred Compensation Trust Fund and the TexaSaver Trust Fund.** All money deposited into the Deferred Compensation Trust Fund, Employees Retirement System No. 0945 and the TexaSaver Trust Fund No. 0946 pursuant to Government Code, §609.512 are hereby appropriated to the system for the 2016-17 biennium for the purposes authorized by law.
11. **Tobacco User Monthly Premium Fee.** The Employees Retirement System, pursuant to the provisions of Insurance Code, §1551.3075, shall automatically apply a \$30 monthly tobacco user fee to any individual aged 18 or older covered under the state health plan unless the individual, during the individual's enrollment period, certifies that the individual does not use tobacco. The Comptroller of Public Accounts shall deposit revenue from the fee (estimated to be \$14,724,785 in fiscal year 2016 and \$14,724,785 in fiscal year 2017) into the Employees Life, Accident, Health Insurance and Benefits Trust Account.
12. **State Contribution to the Law Enforcement and Custodial Officer Supplemental Retirement Fund (LECOS).** The amount specified above in A.1.2, Law Enforcement and Custodial Officer Supplemental Retirement Fund (LECOS), is based on 0.5 percent of covered payroll each fiscal year of the 2016-17 biennium for LECOS members.
13. **HealthSelect of Texas Contract.** Out of funds appropriated elsewhere in this Act to the Employees Retirement System for the Group Insurance, in addition to complying with all recommendations made by the State Auditor's Office in the November 2014 report (Report No. 15-007) to the Employees Retirement System to improve the planning, procurement, formation, and oversight of the HealthSelect third-party administrator contract, the agency shall, consistent with the agency's fiduciary duties:
 - a. No later than 90 days after implementation of the HealthSelect third-party administrator contract, submit a report to the Legislative Budget Board, State Auditor's Office, the Office of the Attorney General, and the Comptroller demonstrating compliance with the contract management guide for the HealthSelect of Texas contract, unless the terms of the contract are stricter than the essential contract terms of the contract management guide.
 - b. Prior to issuing a request for proposals for HealthSelect third-party administrators, the agency shall develop and submit a report to the Legislative Budget Board and the State Auditor's Office that includes all planning documentation verifying that the request for proposals will comply with the statutory requirements and Employees Retirement System policies. The report shall also include documentation of the established evaluation process including a scoring tool, guidelines for evaluators, methodology for evaluating additional factors, and a process for verifying the mathematical accuracy of the evaluation. The report shall also include an explanation as to why any recommendations included in the audit were not complied with during the contract planning process.
 - c. No later than 45 days after awarding the HealthSelect third-party administrator contract, submit an updated report to the Legislative Budget Board and the State Auditor's Office, certifying that all processes described in subsection (b) above were followed during the contract procurement and evaluation process.
 - d. No later than 90 days after implementation of the HealthSelect third-party administrator contract procured under this rider and every 6 months after, the agency shall submit to the Legislative Budget Board and the State Auditor's Office and make available to the public, information documenting the System's process for recording reimbursement payments as well as a methodology for monitoring the contract with the third-party administrator to ensure compliance with the contract terms. The agency shall include information on any performance guarantee changes through contract amendments.

EMPLOYEES RETIREMENT SYSTEM
(Continued)

If the Employees Retirement System issues a request for proposals for the HealthSelect contract prior to September 1, 2015, the agency shall submit all of the materials required under subsection (b) no later than October 1, 2015.

- 14. Diabetes Type 2 Prevention Program for ERS Participants.** Out of funds appropriated above, the Employees Retirement System of Texas (ERS), shall, in consultation with the Texas Diabetes Council (TDC), assess the prevalence of pre-diabetes among the state employee population, and develop an economic analysis related to providing an evidence-based prevention program. If the economic analysis and prevalence data support it, ERS shall, in consultation with TDC and the ERS third-party administrator, develop and implement a cost-effective diabetes Type 2 prevention program for state employees. The result of this analysis and action taken by ERS will be included in a report to the Legislature and Governor on this program by August 31, 2016.

3. **Appropriation of Local Funds.** All funds received by the department from counties, cities, and from any other local source and all balances from such sources as of August 31, 2015, are hereby appropriated for the biennium ending August 31, 2017, for the purpose of carrying out the provisions of this Act.
4. **Appropriations Limited to Revenue Collections.** It is the intent of the Legislature that fees, fines, and other miscellaneous revenues as authorized and generated by the agency cover, at a minimum, the cost of the appropriations made above for the Nursing Facility Administrator program in Strategy B.1.2, Credentialing/Certification, and the Home Health and Community Support Services Agencies program in Strategy B.1.1, Facility & Community-Based Regulation, as well as the "other direct and indirect costs" associated with this program, appropriated elsewhere in this Act. Direct costs for the Nursing Facility Administrator program are estimated to be \$475,936 for fiscal year 2016 and \$475,936 for fiscal year 2017. Direct costs for the Home and Community Support Services Agencies program are estimated to be \$3,193,862 for fiscal year 2016 and \$3,193,862 for fiscal year 2017. "Other direct and indirect costs" for the Nursing Facility Administrator program are estimated to be \$152,869 for fiscal year 2016 and \$160,169 for fiscal year 2017. "Other direct and indirect costs" for the Home and Community Support Services Agencies program are estimated to be \$2,460,101 for fiscal year 2016 and \$2,578,084 for fiscal year 2017. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available.
5. **Accounting of Support Costs.** The Comptroller of Public Accounts shall establish separate accounts from which certain support costs shall be paid. The Department of Aging and Disability Services is hereby authorized to make transfers into these separate accounts from line item strategies in order to pay for these expenses in an efficient and effective manner. Only costs not directly attributable to a single program may be budgeted in or paid from these accounts. Items to be budgeted in and paid from these accounts include, but are not limited to: postage, occupancy costs, equipment repair, telephones, office printing costs, supplies, freight and transport costs, telephone system costs, and salary and travel costs of staff whose function supports several programs. The department shall be responsible for quarterly allocations of these costs to the original strategies.
6. **Fund Transfers for Funds Consolidation.** For the purpose of funds consolidation, federal and other funds may be transferred into the General Revenue Fund from the Department of Aging and Disability Services Fund No. 117. The initial deposit of federal funds shall be made into Fund No. 117 and no direct expenditures shall be made from this fund.
7. **Limitation: Medicaid Transfer Authority.** Notwithstanding Article IX, Section 14.01 and the Special Provisions Relating to All Health and Human Services Agencies, Section 10, funds appropriated by this Act to the Department of Aging and Disability Services (DADS) for the following Medicaid strategies shall be governed by the specific limitations included in this provision.
 - a. **Limitations on Transfers.**
 - (1) **Community Care Waivers and Other Medicaid Non-Entitlement Services.** Transfers may not be made between appropriation items listed in this subsection, from appropriation items listed in this subsection to appropriation items not listed in this subsection, or to appropriation items in this subsection from appropriation items not listed in this subsection without prior written approval from the Legislative Budget Board and the Governor. If appropriations for fiscal year 2016 to strategy A.3.2, Home and Community-based Services; A.3.3, Community Living Assistance and Support Services (CLASS); A.3.4, Deaf-Blind Multiple Disabilities (DBMD); A.3.5, Medically Dependent Children Program (MDCP); or A.3.6, Texas Home Living Waiver are insufficient because DADS is able to reach end of fiscal year targets for those programs as specified in rider 1, Performance Measure Targets, prior to August 2016, DADS may request approval to transfer to those strategies from any other appropriation item. Any transfer approval requests shall be submitted pursuant to subsection (c) of this provision.

Any requests for additional information made by the Legislative Budget Board shall interrupt the counting of the 30 business days.

- d. **Cost Pools.** Notwithstanding the above limitations, transfers may be made from the appropriation items in section (a) to separate accounts authorized by agency rider and established by the State Comptroller for payment of certain support costs not directly attributable to a single program.
- e. **Cash Management.** Notwithstanding the above limitations, DADS may temporarily utilize funds appropriated to the strategies listed in section (a) for cash flow purposes. All funding used in this manner shall be promptly returned to the originating strategy. This authorization is subject to limitations established by the Comptroller of Public Accounts.

The Comptroller of Public Accounts shall not allow the transfer of funds authorized by any of the above subsections if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

8. Other Reporting Requirements.

- a. **Federal Reports.** The Department of Aging and Disability Services shall submit the following information to the Legislative Budget Board and the Governor no later than the date the respective report is submitted to the federal government:

 - (1) Information on appropriated, budgeted, expended, and projected funds, by strategy and method of finance.

- 10. Appropriation Transfer between Fiscal Years.** In addition to the transfer authority provided elsewhere in this Act, the Department of Aging and Disability Services may transfer appropriations made for fiscal year ending August 31, 2017 to fiscal year ending August 31, 2016, subject to the following conditions provided by this section:
- a. Transfers under this section may be made only:
 - (1) if costs associated with providing Long Term Care Medicaid services exceed the funds appropriated for these services for fiscal year 2016, or
 - (2) for any other emergency expenditure requirements, including expenditures necessitated by public calamity, or
 - (3) if appropriated receipts generated through the ID related programs required to fund appropriations contained in this Act for fiscal year 2016 are less than those contained in the method of finance for the department for fiscal year 2016.

- 11. Reimbursement of Advisory Committees.** Pursuant to Government Code §2110.004, reimbursement of expenses for advisory committee members, out of funds appropriated above, not to exceed \$8,000 per fiscal year is limited to the following advisory committee:

Nursing Facility Administrators Advisory Committee

To the maximum extent possible, the department shall encourage the use of videoconferencing and teleconferencing and shall schedule meetings and locations to facilitate the travel of participants so that they may return the same day and reduce the need to reimburse members for overnight stays.

- 12. State Supported Living Centers: Proportionality of Funds.** Pursuant to Article IX, Sec 6.08, Benefits Paid Proportional by Fund, payment for salaries, wages, and benefits for ICF/IID state supported living center employees shall be proportional to the source of funds. The department shall develop a plan for the 2016-17 biennium which identifies the appropriate portion of state and federal funds for salaries, wages, and benefits for ICF/IID state supported living center employees. This plan is subject to review by the Comptroller of Public Accounts and the Legislative Budget Board and shall be certified by the Chief Financial Officer of the department by October 1, 2015 prior to submission to the Legislative Budget Board.

The Department of Aging and Disability Services shall report quarterly to the Legislative Budget Board and the Governor on the distribution of ICF/IID state supported living center revenues to other state agencies. This report shall be submitted no later than 25 days after the close of each quarter. The format and content of the report shall be prescribed by the Legislative Budget Board.

- 13. Unexpended Balances: ICF/IID Standards.** Except as otherwise provided, unexpended and unobligated balances, not to exceed \$5 million in General Revenue, remaining from appropriations for the first year of the biennium to the Department of Aging and Disability Services are appropriated to the department for the purpose of complying with Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF-IID) standards dealing with residential, non-residential, and community based intellectual disability services. This paragraph does not apply to those unexpended and unobligated balances remaining from appropriations for the first year of the biennium that the department is authorized by this Act to retain for specific purposes in the second year of the biennium. The department shall notify the Legislative Budget Board and the Governor as to when the appropriation originated, why it is not needed, and how it will be used prior to budgeting and expending these balances.

- 14. Disposition of Construction Appropriation Related to Intellectual Disability.** Construction appropriations made above may be used to pay salaries and travel expenses of department engineers and architects employed by health and human services agencies listed in Chapter 531,

DEPARTMENT OF AGING AND DISABILITY SERVICES

Government Code, and administrative expenses of construction projects (but shall not exceed \$300,000 in a fiscal year that are paid out of G.O. Bonds); architect's and engineer's fees; and the actual travel expenses incurred by them or their representatives in making trips of inspection at the discretion of the department during construction, renovation, or repair of buildings and systems or the installation of fixed equipment. Job titles and rates of pay for such salaried positions of department personnel paid from construction appropriations shall conform with the Position Classification Plan and Classification Salary Schedule.

15. **Nursing Facility Beds for Medicaid Eligible Veterans.** Contingent upon a request from the Texas Veterans Land Board, it is the intent of the Legislature that the Department of Aging and Disability Services maintain a program for Medicaid-eligible veterans that will enable individuals to be placed in State Veterans Homes if they so choose. It is further the intent of the Legislature that the department ensure the creation of sufficient certified beds to accommodate the requirements of such a program.
16. **Appropriation and Unexpended Balances: Affordable Housing for the Elderly.** General Revenue Funds appropriated above include fees collected pursuant to §394.902, Local Government Code, and §101.022, Human Resources Code, as amended, for the purpose of promoting affordable housing for the elderly (\$454,000 for the biennium).

Any unexpended balances in fees collected to promote affordable housing for the elderly for the fiscal year ending August 31, 2016, may be carried forward into fiscal year 2017, and such balances are hereby appropriated.

In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available.

17. **Reimbursement of Advisory Council Members.** Pursuant to Human Resources Code §161.027, reimbursement of travel expenses for Aging and Disability Services Council members, out of funds appropriated above, is hereby authorized such that the sum total of all reimbursements for members of the council shall not exceed \$10,825 per fiscal year, at the rates specified in the general provisions of this Act.
18. **Appropriation: License Plate Trust Fund No. 0802.** Included in funds appropriated above in Strategy A.4.2, ID Community Services, is \$6,000 for the biennium in revenue generated from the sale of specialized "Special Olympics Texas" license plates and collected in License Plate Trust Fund No. 0802 during the 2016-17 biennium. It is the intent of the Legislature that these funds be expended for costs associated with training and with area and regional competitions of the Special Olympics Texas.
19. **Revolving Fund Services: Canteen Services and Sheltered Workshops.** Out of funds appropriated above in Strategy A.8.1, State Supported Living Centers, \$2,724,957 per fiscal year in General Revenue shall be allocated for the operation of canteen and sheltered workshops. In addition, DADS may also utilize agency-generated collections from Revenue Object Code 3767 Supplies/Equipment/Services - Federal/Other (estimated to be \$82,160 per fiscal year) and which are appropriated above as ID Revolving Fund Receipts (Other Funds) for the operation of canteen and sheltered workshops. The department shall provide information on related revenues, balances, contracts and profits to the Legislative Budget Board, Governor and Comptroller of Public Accounts. These revenues, expenditures and balances shall be reported and included in agency Operating Budgets, Legislative Appropriation Requests, and Annual Financial Reports. The timetable, format and content for additional monthly reports related to canteen operations and sheltered workshops shall be prescribed by the Legislative Budget Board.

(Continued)

- a. The report shall include the following:
 - (1) the monthly average cost to the state per person for individuals residing in state-operated and non-state operated ICF-IID/RC, HCS waiver program, and Texas Home Living waiver program by Level of Need (LON), and facility size (private ICF-IID only);

 - (3) the total number of persons, by LON, who transitioned from state-operated ICF-IID/RC to the HCS residential waiver program for the previous biennium, and their average monthly cost of service in the HCS waiver program.
- b. With respect to the cost to the state per person residing in a state operated ICF-IID/RC facility, the department shall include all costs, such as Statewide Indirect Cost Allocation Plan (SWICAP), Departmental Indirect Cost Allocation Plan (DICAP), maintenance and construction costs, employee benefit costs and other federally allowable administrative, medical and overhead costs. With respect to the cost to the state per person in state-operated ICF-IID/RC facilities, non-state operated ICF-IID/RC facilities, and the HCS and Texas Home Living waivers, the department shall include all Medicaid costs including acute care costs that are not included in the waiver rate for those programs and all costs to administer and license those programs. For state-operated ICF-IID/RC facilities, the average monthly administrative and overhead costs shall be reported separately from the average monthly client care costs. The department shall identify the types of costs included in each category.
- c. Cost for waiver recipients will cover the time a person enrolled in the waiver through the time they are terminated from waiver services. This appropriation is contingent upon the department submitting a plan which details the number of clients to be served, estimated expenditures by method of financing by year, as well as any other information requested by the Legislative Budget Board. The plan shall be submitted to the Legislative Budget Board, the Governor, and the Comptroller of Public Accounts 30 days prior to any expenditure of the funds.

- 26. Unexpended Balances Bond Proceeds.** Included in the amounts appropriated above are unexpended and unobligated balances of general obligation bond proceeds for projects that have been approved under the provisions of Article IX, Section 17.11 of Senate Bill 1, Eighty-first Legislature, Regular Session, 2009, remaining as of August 31, 2015 (estimated to be \$0), for the Department of Aging and Disability Services for the 2016-17 biennium in Strategy A.9.1, Capital Repairs and Renovations.

Any unexpended balances in General Obligation Bond Proceeds described herein and remaining as of August 31, 2016, are hereby appropriated for the same purposes for the fiscal year beginning September 1, 2016.

- 27. b. **Cost Reporting.**

- (1) The Department of Aging and Disability Services shall provide actual monthly expenditure data by state supported living center to the Legislative Budget Board, on a quarterly basis, and in a format approved by the Legislative Budget Board.
- (2) On a quarterly basis the Department of Aging and Disability Services shall provide data on cost reductions that have occurred as a result of reductions in the State Supported Living Center system census in areas including but not limited to staffing and employee benefits, acute care/prescription drugs, and resident support (dietary, laundry, transportation, and maintenance services) and data on the impact of the declining census on collection of Quality Assurance Fee revenue.

29. Promoting Community Services for Children. To facilitate transitions of children (under the age of 22) who reside in intermediate care facilities for the intellectually disabled to families when requested by a parent/guardian, the department may request approval through Rider 9 provisions to transfer funding from Strategy A.7.1, Intermediate Care Facilities - IID, to other Medicaid strategies that provide appropriate services in community settings. In order to maintain cost-neutrality, the Executive Commissioner may develop rules in accordance with all applicable laws that would allow decertification of ICF/IID beds to offset the additional costs incurred in the community.

30. Sunset Contingency. Pursuant to Government Code Chapter 325, the Department of Aging and Disability Services was the subject of review by the Sunset Advisory Commission and a report pertaining to the Department of Aging and Disability Services was delivered to the Eighty-fourth Legislature. - 1) Funds appropriated above are contingent on such action continuing the Department of Aging and Disability Services by the Eighty-fourth Legislature.
- 2) In the event that the legislature does not choose to continue the agency, the funds appropriated for fiscal year 2016, or as much thereof as may be necessary, are to be used to provide for the phase out of agency operations or to address the disposition of agency programs and operations as provided by the legislation.

All funding used in this manner shall be promptly returned to the originating strategy. This authorization is subject to limitations established by the Comptroller of Public Accounts.

The Comptroller of Public Accounts shall not allow the transfer of funds authorized by any of the above subsections if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

It is the intent of the Legislature that, to the extent feasible, fees, fines, and other miscellaneous revenues as authorized and generated by the department cover, at a minimum, the cost of the appropriations made for the programs listed in the table below, as well as the "other direct and indirect costs" associated with these programs, appropriated elsewhere in this Act. "Other direct and indirect costs" for these programs are estimated to be \$9,974,142 for fiscal year 2016 and \$10,646,940 for fiscal year 2017. 3. Budget Authority for Estimated Pass-through Funds. In addition to the amounts appropriated above for the Health and Human Services Commission, the commission may establish additional budget authority with the Comptroller of Public Accounts to reflect other estimated income except from the General Revenue Fund.

4. Reimbursement of Advisory Committee Members. Pursuant to Government Code §2110.004, reimbursement of expenses for advisory committee members, out of funds appropriated above - not to exceed \$85,000 per year, is limited to the following advisory committees: Hospital Payment Advisory Committee, Medical Care Advisory Committee, Physician Payment Advisory Committee, Drug Use Review Board, Pharmaceutical and Therapeutics Committee, Public Assistance Health Benefits Review and Design Committee, Guardianship Advisory Board, Children's Policy Council, Task Force on Health Information Technology, Perinatal Advisory Council, State Medicaid Managed Care Advisory Committee, Intellectual and Developmental Disability System Redesign Advisory Committee, and the Consumer Direction workgroup.

To the maximum extent possible, the commission shall encourage the use of videoconferencing and teleconferencing and shall schedule meetings and locations to facilitate the travel of participants so that they may return the same day and reduce the need to reimburse members for overnight stays.

5. Vendor Drug Rebates - Medicaid and CHIP. All references in this rider to rebate revenue refer to vendor drug rebates as well as supplemental rebates earned via the preferred drug lists (methods of finance include Vendor Drug Rebates-Medicaid, Vendor Drug Rebates-CHIP, and Vendor Drug Rebates-Supplemental Rebates).

a. **Medicaid.** The Health and Human Services Commission may expend Medicaid rebate revenues appropriated above in Strategy B.2.2, Medicaid Prescription Drugs, pursuant to the federal requirements of the Omnibus Budget and Reconciliation Act of 1990 as well as rebates collected in excess of federal requirements pursuant to state law.

b. **CHIP.** The Health and Human Services Commission may expend CHIP rebate revenues and related interest earnings appropriated above in Strategy C.1.3, CHIP Prescription Drugs.

c. **Rebates as a First Source of Funding.** Expenditures for Medicaid and CHIP Prescription Drugs shall be made from rebates received in fiscal years 2016 and 2017. As rebates are generated, expenditures to support Medicaid and CHIP Prescription Drugs shall be made from rebate revenues. In the event rebate revenues are not available for expenditure, General Revenue may be used to support both Prescription Drugs expenditures until rebate revenues are available.

d. **Appropriation.** In addition to rebate revenues appropriated above in Strategy B.2.2, Medicaid Prescription Drugs, and Strategy C.1.3, CHIP Prescription Drugs, the Health and Human Services Commission is appropriated Medicaid and CHIP vendor drug rebates generated in excess of those amounts, subject to the following requirements:

- (1) Vendor drug rebates shall be expended prior to utilization of any General Revenue available for the purpose of CHIP or Medicaid Prescription Drugs.
- (2) In the event General Revenue has been expended prior to the receipt of vendor drug rebates, the commission shall reimburse General Revenue. The commission shall reimburse the General Revenue Fund with vendor drug rebates on a monthly basis in order to prevent accumulation of vendor drug rebates.
- (3) Program Benefit Agreement revenues collected in lieu of state supplemental rebates will be expended prior to utilization of any General Revenue available for the purpose of the Medicaid program specified in the Agreement.

HEALTH AND HUMAN SERVICES COMMISSION

(Continued)

- e. **Limited Use of Rebates.** Rebates generated by the Medicaid program shall only be used for the Medicaid program. Rebates generated by the CHIP program shall only be used for the CHIP program.
6. **Medicaid Subrogation Receipts (State Share).** For the purposes of this provision, Medicaid Subrogation Receipts are defined as tort settlements related to the Medicaid program. Amounts defined as Medicaid Subrogation Receipts are to be deposited into the General Revenue Fund, Object No. 3802. The Health and Human Services Commission is authorized to receive and expend Medicaid Subrogation Receipts. Expenditures shall be made from recoupments and interest earnings received in fiscal year 2016 and fiscal year 2017. The use of the state's share of Medicaid Subrogation Receipts is limited to funding services for Medicaid clients. Medicaid Subrogation Receipts shall be expended as they are received as a first source, and General Revenue shall be used as a second source, to support the Medicaid program. In the event that these revenues should be greater than the amounts identified in the method of finance above as Medicaid Subrogation Receipts (State Share), the commission is hereby appropriated and authorized to expend these Other Funds thereby made available, subject to the following requirements:
- a. Amounts available shall be expended prior to utilization of any General Revenue available for the same purposes.
 - b. In the event General Revenue has been expended prior to the receipt of the state's share of Medicaid Subrogation Receipts, the commission shall reimburse General Revenue. This process shall be completed on a monthly basis in order to prevent accumulation of Medicaid Subrogation Receipt balances.
- The preceding paragraph shall be the exclusive appropriation authority for receipts from the above identified sources, and none of these receipts shall be appropriated by a provision of Article IX of this Act.
7. **Appropriation Transfers between Fiscal Years.** In addition to the transfer authority provided elsewhere in this Act and in order to provide for unanticipated events that increase costs associated with providing Medicaid or CHIP services for eligible clients, the Health and Human Services Commission is authorized to transfer General Revenue from funds appropriated in Medicaid or CHIP strategies in fiscal year 2017 to fiscal year 2016 and such funds are appropriated to the commission for fiscal year 2016. Such transfers may only be made subject to the following:
- a. Transfers under this section may be made only:
 - (1) if costs associated with providing Medicaid or CHIP services exceed the funds appropriated for these services for fiscal year 2016, or
 - (2) for any other emergency expenditure requirements, including expenditures necessitated by public calamity.
 - b. A transfer authorized by this section must receive the prior written approval of the Governor and the Legislative Budget Board.
 - c. The Comptroller of Public Accounts shall cooperate as necessary to assist the completion of a transfer and spending made under this section.
8. **Reporting of Child Abuse.** The Texas Health and Human Services Commission may distribute or provide appropriated funds only to recipients who show good-faith efforts to comply with all child abuse reporting guidelines and requirements set forth in Chapter 261 of the Texas Family Code.
9. **Authorization to Receive, Administer, and Disburse Federal Funds.** The appropriations made above may be used to match or to meet maintenance of effort requirements for Federal Funds granted to the state for the payment of personal services and other necessary expenses in connection with the administration and operation of state programs of health and public welfare services. Notwithstanding the General Provisions of this Act, the Health and Human Services Commission may receive and disburse in accordance with plans acceptable to the responsible federal agency, all federal moneys that are made available (including grants, allotments, and reimbursements) to the state and retain their character as Federal Funds for such purposes, and to receive, administer, and disburse Federal Funds for federal regional programs in accordance with

HEALTH AND HUMAN SERVICES COMMISSION

plans agreed upon by the Health and Human Services Commission and the responsible federal agency, and such other activities as come under the authority of the Commissioner of Health and Human Services. With the exception of Temporary Assistance for Needy Families (TANF) Federal Funds and Social Services Block Grant (SSBG) Federal Funds governed by Article IX, Section 8.02, such moneys are hereby appropriated to the specific purpose or purposes for which they are granted or otherwise made available. Earned Federal Funds are not considered to be Federal Funds for the purpose of this section.

10. Accounting of Support Costs. The Comptroller of Public Accounts shall establish separate accounts from which certain support costs shall be paid. The Health and Human Services Commission may make transfers into these separate accounts from line item strategies in order to pay for these expenses in an efficient and effective manner. Only costs not directly attributable to a single program may be budgeted in or paid from these accounts. Items to be budgeted in and paid from these accounts include but are not limited to: postage, occupancy costs, equipment repair, telephones, office printing costs, supplies, freight and transport costs, telephone system costs and salary and travel costs of staff whose function supports several programs. The commission shall be responsible for quarterly allocations of these costs to the original strategies.

11. Disposition of Appropriation Transfers from State-owned Hospitals.

- a. The Health and Human Services Commission shall use the sums transferred from state owned hospitals as provided elsewhere in the Act as necessary to apply for appropriate matching Federal Funds and to provide the state's share of disproportionate share payments and uncompensated care payments authorized under the federal Healthcare Transformation and Quality Improvement Waiver, excluding payments for physicians, pharmacies, and clinics, due to state-owned hospitals. Any amounts of such transferred funds not required for these payments shall be deposited by the Health and Human Services Commission to the General Revenue Fund as unappropriated revenue.
- b. Payments for physicians, pharmacies, and clinics are governed by Special Provisions Relating Only to Agencies of Higher Education, Section 61.
- c. By October 1 of each fiscal year, the Health and Human Services Commission shall present a schedule of projected transfers and payments to the Comptroller of Public Accounts, the Governor, and the Legislative Budget Board.
- d. The Comptroller of Public Accounts shall process all payments and transfers, unless disapproved or modified by the Legislative Budget Board or the Governor.

12. Transfers: Authority and Limitations.

- a. **Limitations on Transfers within/between Goals.** Notwithstanding the transfer provisions in the General Provisions (general transfer provisions) and other transfer provisions of this Act (including Article II Special Provisions, Sec. 10), funds appropriated by this Act to the Health and Human Services Commission (HHSC) for the following goals shall be governed by the specific limitations included in this provision.
 - (1) **Goal B (Medicaid).** Transfers may be made between Medicaid appropriation items in Goal B. Transfers may not be made from appropriation items in Goal B to appropriation items in other goals without prior written approval from the Legislative Budget Board and the Governor. HHSC shall provide notification of all transfers pursuant to subsection (b) of this provision, and any transfer approval requests shall be submitted pursuant to subsection (c) of this provision.
 - (2) **Goal C (CHIP Services).** Transfers may be made between CHIP appropriation items in Goal C. Transfers may not be made from appropriation items in Goal C to appropriation items in other goals without prior written approval from the Legislative Budget Board and the Governor. HHSC shall provide notification of all transfers pursuant to subsection (b) of this provision, and any transfer approval requests shall be submitted pursuant to subsection (c) of this provision.
 - (3) **Other Goals.** Funds appropriated by this Act to the Health and Human Services Commission (HHSC) in Goals A, D, E, F, and G may be transferred from one appropriation item to another appropriation item within or between Goals A, D, E, F,

HEALTH AND HUMAN SERVICES COMMISSION

and G in amounts not to exceed 25 percent of the originating appropriation item's All Funds amount for the fiscal year. HHSC shall provide notification of all transfers pursuant to subsection (b) of this provision.

- b. **Notification Regarding Transfers that Do not Require Approval.** Authority granted by this provision to transfer funds is contingent upon a written notification from HHSC to the Legislative Budget Board and the Governor at least 30 days prior to the transfer, which includes the following information:
- (1) a detailed explanation of the purpose(s) of the transfer and whether the expenditure will be one-time or ongoing;
 - (2) the names of the originating and receiving strategies and the method of financing and FTEs for each strategy by fiscal year;

- c. **Requests for Transfers that Require Approval.** To request a transfer, HHSC shall submit a written request to the Legislative Budget Board and the Governor. At the same time, the agency shall provide a copy of the request to the Comptroller of Public Accounts. The request shall include the following information:

- A transfer request shall be considered to be approved upon receipt of written approval from the Legislative Budget Board and the Governor.
- d. **Transfers into Items of Appropriation.** Transfers may be made from any appropriation item to the appropriation items in section (a), subject to the limitations established in section (a) for each appropriation item.

below. Amounts defined as program income are to be deposited into the General Revenue Fund, Object No. 3639. The Health and Human Services Commission may receive and spend program income and interest earnings generated from fund balances with the Disbursement Account, and the STAR (Managed Care) Account, as defined in the contractual agreement with the fiscal agent and/or insurance carrier for purchased health services except for those interest earnings related to the Cash Management Improvement Act (CMIA). The commission may also receive and spend experience rebates generated in accordance with its contractual agreements with health maintenance organizations who participate in Medicaid managed care. Expenditures shall be made from credits, managed care rebates, and interest earnings received in fiscal years 2016 and 2017. The use of the credits, managed care rebates, and interest earnings is limited to funding services for Medicaid clients. Medicaid program income shall be expended as they are received as a first source, and General Revenue shall be used as a second source, to support the Medicaid program. In the event that these revenues should be greater than the amounts identified in the method of finance above as Medicaid Program Income, the commission is hereby appropriated and authorized to expend these General Revenue Funds thereby made available, subject to the following requirements:

- a. Amounts available shall be expended prior to utilization of any General Revenue available for the same purposes; and
- b. In the event General Revenue has been expended prior to the receipt of program income, the commission shall reimburse General Revenue. This process shall be completed on a monthly basis in order to prevent accumulation of program income balances.

The preceding paragraph shall be the exclusive appropriation authority for receipts from the above identified sources and none of these receipts shall be appropriated by a provision of Article IX of this Act.

- 14. Use of Additional CHIP Experience Rebates.** For the purposes of this provision, CHIP Experience Rebates are defined as: 1) refunds/rebates of previously paid CHIP premiums and related interest earnings; and 2) managed care rebates and related interest earnings as described below. Amounts defined as CHIP Experience Rebates are to be deposited into the General Revenue Fund. The Health and Human Services Commission may receive and spend experience rebates generated in accordance with its contractual agreements with managed care organizations and other providers who participate in the CHIP and CHIP Perinatal programs. Expenditures shall be made from CHIP Experience Rebates generated in fiscal years 2016 and 2017. The method of financing item, Experience Rebates - CHIP, for appropriations made above, includes unexpended and unobligated balances of Experience Rebates - CHIP remaining as of August 31, 2015, and receipts earned in fiscal years 2016 and 2017.

The use of CHIP Experience Rebates is limited to health care services for CHIP clients. CHIP Experience Rebates shall be expended as they are received as a first source, and General Revenue shall be used as a second source, to support CHIP-related programs. In the event that these revenues should be greater than the amounts identified in the method of finance above as Experience Rebates - CHIP, the commission is hereby appropriated and authorized to expend these General Revenue Funds thereby made available, subject to the following requirements:

- a. Amounts available shall be expended prior to utilization of any General Revenue available for the same purposes; and
- b. In the event General Revenue has been expended prior to the receipt of CHIP Experience Rebates, the commission shall reimburse General Revenue. This process shall be completed on a monthly basis in order to prevent accumulation of CHIP Experience Rebate balances.

The preceding paragraph shall be the exclusive appropriation authority for receipts from the above identified sources and none of these receipts shall be appropriated by a provision of Article IX of this Act.

- 15. CHIP: Unexpended Balances and Allocation of Funds.**

- a. **Unexpended Balances between Biennia.** Unexpended balances in General Revenue Funds appropriated for Goal C (CHIP) strategies to the Health and Human Services Commission (HHSC) for the fiscal year ending August 31, 2015 (estimated to be \$0) are appropriated to the agency and included above for the fiscal year beginning September 1, 2015, only upon prior written approval by the Legislative Budget Board and the Governor. These General

HEALTH AND HUMAN SERVICES COMMISSION

Revenue Funds are contingent on an unexpended balance from fiscal year 2015. The amount of the appropriation is limited to the amount of the unexpended balance.

- b. **Unexpended Balances within the Biennium.** Unexpended balances in General Revenue Funds appropriated for Goal C (CHIP) strategies to HHSC for the fiscal year ending August 31, 2016 (estimated to be \$0) are appropriated to the agency for the fiscal year beginning September 1, 2016, only upon prior written approval by the Legislative Budget Board and the Governor.
- c. For authorization to expend the funds, HHSC shall submit a written request to the Legislative Budget Board and the Governor. At the same time, the agency shall provide a copy of the request to the Comptroller of Public Accounts. The request must be organized by fiscal year as follows:
 - (1) The following information shall be provided for the fiscal year with an unexpended balance:
 - (i) an explanation of the causes of the unexpended balance(s);
 - (ii) the amount of the unexpended balance(s) by strategy; and
 - (iii) the associated incremental change in service levels compared to performance targets in this Act for that fiscal year.
 - (2) The following information shall be provided for the fiscal year receiving the funds:
 - (i) an explanation of purpose for which the unexpended balance(s) will be used and whether the expenditure will be one-time or ongoing;
 - (ii) the amount of the expenditure by strategy;
 - (iii) the incremental change in service levels compared to performance targets in this Act for that fiscal year; and
 - (iv) the capital budget impact.

The request shall be considered to be approved unless the Legislative Budget Board or the Governor issues a written disapproval within 30 business days after the date the Legislative Budget Board staff concludes its review of the proposal to expend the funds and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor. Any requests for additional information from the Legislative Budget Board shall interrupt the counting of the 30 business days.

The Comptroller of Public Accounts shall not allow the use of unexpended balances authorized by any of the above subsections if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

- d. It is the intent of the Legislature that tobacco settlement receipts appropriations made above in Goal C, CHIP Services, include \$67.6 million for fiscal year 2016 and \$56.9 million for fiscal year 2017 in tobacco settlement receipts paid to the State pursuant to the Comprehensive Tobacco Settlement and Release. In the event that the state has not received a tobacco settlements payment for fiscal year 2016 and fiscal year 2017 by September 1 of each year of the biennium, the Comptroller of Public Accounts is hereby authorized to use general revenue funds as needed for program expenditures for cash flow purposes between the beginning of the fiscal year and the receipt by the state of the tobacco settlement payment for the fiscal year. Upon receipt of the tobacco settlement payment, the General Revenue Fund shall be reimbursed with tobacco settlement receipts for all expenditures made pursuant to this provision.

16. Cash Basis Expenditures Authorization. Notwithstanding any other provision of this Act, the Health and Human Services Commission may expend Medicaid appropriations in a fiscal year

HEALTH AND HUMAN SERVICES COMMISSION

without regard to date of service. The authorization herein is limited to expenditures for claims payments, premiums, cost settlements and other related expenses for Medicaid client services.

- 17. Cost Sharing - Medicaid Clients.** The Health and Human Services Commission may collect and is hereby appropriated all cost sharing revenues generated by Medicaid clients as authorized in Section 32.064 of the Human Resources Code. These revenues may include enrollment fees, deductibles, coinsurance, and portions of the managed care plan premiums.
- 18. Supplemental Nutritional Assistance Program Funds Appropriated.** The Health and Human Services Commission is designated as the state agency to establish and operate a statewide Supplemental Nutritional Assistance Program and to accept all moneys appropriated for this purpose by the federal or state governments, by the Commissioners' Court of any county, by any political subdivisions of the state, or received from any other source as provided for herein and in Chapter 33, Human Resources Code. The Health and Human Services Commission may expend such funds for welfare purposes, including the cost of distributing foods to needy people, institutions, school lunch programs, or otherwise as provided by the laws of the United States and the rules and regulations issued pursuant thereto, for the establishment and operation of a statewide Supplemental Nutritional Assistance Program, and for the employment of essential personnel who shall be employed under a merit system basis comparable to the merit principles or standards applicable to all other personnel of the commission.
- 19. Additional Funding Sources, Medicaid.** Notwithstanding any other provisions of this Act, if the appropriations provided for a Medicaid program are not sufficient to provide for expenditures mandated by either state or federal law, after accounting for any appropriations made to the agency operating the Medicaid program, and available for transfer to the Medicaid program, the Legislative Budget Board and the Governor may provide for and are hereby authorized to direct the transfer of sufficient amounts of funds to the Health and Human Services Commission from appropriations made elsewhere in this Act.
- 20. Temporary Emergency Assistance for Families at Risk of Welfare Dependency.** Out of funds appropriated above in Strategy D.1.1, TANF (Cash Assistance) Grants, the Health and Human Services Commission shall provide a one-time emergency assistance payment to applicants for a TANF (Cash Assistance) grant who are likely to be employed within a short period of time, without referral to the Choices program. It is the intent of the Legislature that the commission expands the use of one-time emergency payments as a cost-effective deterrent from the ongoing cash assistance grant programs.
- 21. High Performance Bonus for Administration of the Supplemental Nutritional Assistance Program (SNAP).** High Performance Bonuses are annual incentive payments to state agencies that meet standards for high or most improved performance established by the Secretary of the U.S. Department of Agriculture. The authority to receive and expend high performance bonuses is provided in Article IX, Sec. 6.22, Definition, Appropriation, Reporting and Audit of Earned Federal Funds and is subject to the following additional conditions:

 - c. A portion of these funds, in each year of the biennium, shall be used by the Health and Human Services Commission to provide bonuses to position classifications whose efforts directly contributed to meeting these performance standards, or to position classifications who meet or exceed customer service performance measures developed by the commission, or whose efforts directly contributed to increasing the percentage of eligible persons who receive SNAP benefits.
 - (1) Before an employee can be eligible for a bonus, the employee must have been employed in the program for the related twelve months, remain employed in the program, and demonstrate performance that meets expectations.

HEALTH AND HUMAN SERVICES COMMISSION

- (2) The commission has the authority to determine whether employees who have received bonuses under this provision are eligible for merit salary increases during a twelve-month period prior to or after receipt of the bonus.
- 22. Temporary Assistance for Needy Families (TANF) Maintenance of Effort.** It is the intent of the Legislature that all General Revenue appropriated above for TANF maintenance of effort shall be expended within the appropriate fiscal year for that purpose in order to secure the TANF federal block grant for the state. Out of funds appropriated above in Strategy D.1.1, TANF (Cash Assistance) Grants, \$62,851,931 in General Revenue is appropriated for TANF maintenance of effort for fiscal year 2016, and \$62,851,931 in General Revenue is appropriated for TANF maintenance of effort for fiscal year 2017. None of the General Revenue appropriated for TANF maintenance of effort in Strategy D.1.1, TANF (Cash Assistance) Grants, may be transferred to any other item of appropriation or expended for any purpose other than the specific purpose for which the funds are appropriated. However, General Revenue appropriated for TANF maintenance of effort may be transferred to Strategy A.1.2, Integrated Eligibility and Enrollment, subject to the following limitations:
- a. Declines or shifts in TANF caseloads prevent the Health and Human Services Commission from expending all General Revenue appropriated for TANF maintenance of effort in Strategy D.1.1, TANF (Cash Assistance) Grants, within the appropriate fiscal year;
 - b. The amount of TANF MOE General Revenue transferred from Strategy D.1.1, TANF Cash Assistance) Grants, shall be expended as TANF maintenance of effort within Strategy A.1.2, Integrated Eligibility and Enrollment, for TANF program operating costs, within the appropriate fiscal year; and
 - c. At least 30 days prior to transferring General Revenue Funds between Strategy D.1.1, TANF (Cash Assistance) Grants, and Strategy A.1.2, Integrated Eligibility and Enrollment, the Health and Human Services Commission shall notify the Legislative Budget Board and the Governor.
- 23. Performance Reporting for the Prescription Drug Rebate Program.** The Health and Human Services Commission shall report on an annual basis the following information to the Legislative Budget Board, the State Auditor's Office and the Governor: the outstanding prescription drug rebate balances for the Medicaid, CHIP, Kidney Health, and Children with Special Health Care Needs programs. The report shall include rebate principal and interest outstanding, age of receivables, and annual collection rates. The reports shall specify amounts billed, dollar value of pricing and utilization adjustments, and dollars collected. The Health and Human Services Commission shall report these data on each year for which the Prescription Drug Rebate program has collected rebates and also on a cumulative basis for all years.
- 24. TANF (Cash Assistance) Grants.** Out of funds appropriated above in Strategy D.1.1, TANF (Cash Assistance) Grants, the Health and Human Services Commission shall adjust the TANF grant amount each year to ensure that the maximum monthly grant for a family of three is at least 17 percent of the federal poverty level and provide a one-time per year grant of up to \$30 for each TANF child on August 1 of each year.
- 25. Capital Purchases on Behalf of other Government Entities or Service Providers.** Any capital items purchased by the Health and Human Services Commission (HHSC) for use by local governmental entities for which the commission is reimbursed do not apply to the commission for the purpose of the capital budget rider limitations specified in Article IX, Sec. 14.03, Limitation on Expenditures - Capital Budget, of the General Provisions of this Act, nor to HHSC Rider 2, Capital Budget.
- 26. Reimbursement of Advisory Council Members.** Pursuant to Government Code §531.408, reimbursement of travel expenses for Health and Human Services Council members, out of funds appropriated above in Strategy E.1.1, Central Program Support, is hereby authorized such that the sum total of all reimbursements for members of the Council shall not exceed \$13,200 per fiscal year, at the rates specified in the general provisions of this Act.

29. Prohibition on Abortions.

- a. It is the intent of the Legislature that no funds shall be used to pay the direct or indirect costs (including overhead, rent, phones and utilities) of abortion procedures provided by contractors of the commission.

Serving those eligible for the CHIP Perinatal program may be a secondary priority.

31. Family Planning. Of funds appropriated for Medicaid Family Planning, no state funds may be used to dispense prescription drugs to minors without parental consent. An exemption shall be allowed for emancipated 16- and 17-year old parents.

32. Unexpended Balance Authority for Eligibility Determination Services. - 33. Limited Medicaid Coverage for Clients with Medicare Part D Benefit for Certain Excluded Medicare Part D Drug Categories.** It is the intent of the Legislature that from funds appropriated above in Strategy B.2.2, Medicaid Prescription Drugs, the Health and Human Services Commission shall continue to provide Medicaid coverage for dual eligible clients. The Health and Human Services Commission shall recoup funds for these expenditures from Part D drug plans that are determined to be responsible for the dual eligible clients' drug costs. It is also the intent of the Legislature that from funds appropriated above in Strategy B.2.2, Medicaid Prescription Drugs, the Health and Human Services Commission shall continue to provide Medicaid coverage for certain categories of drugs not covered under the federal Medicare Part D program, under Section 1935(d)(2) of the Social Security Act, for full dual eligible clients. This coverage is limited to only those categories of excluded Medicare Part D drugs that continue to be eligible for federal Medicaid matching funds and that are currently covered under the Medicaid Vendor Drug Program (e.g., certain prescribed over-the-counter medications, smoking cessation medications and vitamins).
- 34. Medical Treatments.** The Health and Human Services Commission may distribute funds for medical, dental, psychological or surgical treatment provided to a minor only if consent to treatment is obtained pursuant to Chapter 32 of the Texas Family Code. In the event that compliance with this rider would result in the loss of Federal Funds to the state, the department may modify, or suspend this rider to the extent necessary to prevent such loss of funds, provided that 45-day prior notification is provided to the Governor and the Legislative Budget Board.
- 35. Hospital Uncompensated Care.** No funds appropriated under this Article for medical assistance payments may be paid to a hospital if the Health and Human Services Commission determines that the hospital has not complied with the commission's reporting requirements. The commission shall ensure that the reporting of uncompensated care (defined to include bad debt, charity care and unreimbursed care) by Texas hospitals is consistent for all hospitals and subjected to a standard set of adjustments that account for payments to hospitals that are intended to reimburse uncompensated care. These adjustments are to be made in such a way that a reliable determination of the actual cost of uncompensated care in Texas is produced.

The commission shall conduct an appropriate number of audits to assure the accurate reporting of the cost of uncompensated hospital care.

The commission shall submit a biennial report on uncompensated care costs, which considers the impact of patient specific and lump sum funding as offsets to uncompensated costs, to the Governor and Legislative Budget Board no later than December 1, 2016. The commission may report by hospital type.

The commission shall also review the impact of health care reform efforts on the funding streams that reimburse uncompensated care, assess the need for those funding streams in future biennia, and consider which funds might be redirected to provide direct health coverage.

- 36. Hospital Reimbursement.** Contingent upon federal approval, and to the extent allowed by law, no funds appropriated under this Article for the payment of inpatient hospital fees and charges under the medical assistance program may be expended, except under a prospective payment methodology for all Medicaid inpatient claims, excluding state-owned teaching hospital Medicaid inpatient claims, that employs sound cost reimbursement principles and:
- a. enhances the Health and Human Services Commission's ability to be a prudent purchaser of health care;
 - b. reflects costs that are allowable, reasonable and medically necessary to deliver health care services to the state's Medicaid population;
 - c. reduces the variability in the Medicaid reimbursement rates paid to hospitals for treating patients with the same diagnoses;
 - d. promotes and rewards increased efficiency in the operation of hospitals;
 - e. emphasizes and rewards quality of outcomes and improves the treatment of Medicaid patients through pay-for-performance principles;
 - f. recognizes, through add-on payments or other methods, the unique needs of individual hospitals, including rural hospitals.

37. Payments to Rural Hospital Providers. In order to ensure that access to emergency and outpatient services remain in rural parts of Texas, it is the intent of the Legislature that when HHSC changes its outpatient reimbursement methodology to an Enhanced Ambulatory Patient Groups or similar methodology, HHSC shall promulgate a separate or modified payment level for rural hospitals, which are defined as hospitals located in a county with 60,000 or fewer persons according to the 2010 U.S. Census, and Medicare-designated Rural Referral Centers (RRC), Sole Community Hospitals (SCH), and Critical Access Hospitals (CAH).

38. Staffing and Capital Authorization in Lieu of Contracted Responsibilities. Notwithstanding the provisions in Article IX, Section 6.10, Limitation on State Employment Levels, if the executive commissioner of the Health and Human Services Commission (HHSC) determines that a service performed under a contract as of the effective date of this Act would be more effectively performed by state personnel, the executive commissioner may adjust the agency's full-time equivalent (FTE) and/or capital authority limitation to the extent necessary to ensure the successful assumption of such contracted duties and to comply with federal performance standards.

Authority granted by this provision is contingent upon a written notification from HHSC to the Legislative Budget Board and the Governor at least 30 days prior to adjusting budgeted FTE levels and/or acquiring capital equipment that includes the following information:

- a. a detailed explanation of the adjustments to the affected contract and the reason(s) for the adjustment;
- b. the estimated reduction in spending in All Funds on the contract by fiscal year;
- c. the increase in both the annual average and end-of-year FTEs by fiscal year;
- d. the estimated increase in expenditures by object of expense and method of financing for each fiscal year; and
- e. the estimated increase in capital expenditures by method of financing by fiscal year for each increased or new project.

The Comptroller of Public Accounts shall not allow the adjustment of FTE or capital authority limitations authorized by this provision if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

39. Graduate Medical Education. The Health and Human Services Commission may expend Appropriated Receipts - Match for Medicaid and matching Medicaid Federal Funds out of Strategy B.2.1, Non-Full Benefit Payments, for Graduate Medical Education payments to state-owned teaching hospitals, contingent upon receipt of allowable funds from state-owned teaching hospitals to be used as the non-federal share for Medicaid Graduate Medical Education. Appropriated Receipts - Match for Medicaid shall be the only source of funds used for the non-federal share for Medicaid Graduate Medical Education, and the Health and Human Services Commission shall develop a payment methodology for Medicaid Graduate Medical Education payments to state-owned teaching hospitals.

40. FTE Authority during Federally-Declared Disasters. In the event the Health and Human Services Commission determines a need for additional staff related to providing services for federally-declared disasters, the commission may increase the number of FTEs, and adjust the agency limitation on FTEs, for this purpose, contingent upon notification to the Legislative Budget Board and the Governor within 30 days of the intent to hire additional staff and quantify the staffing level. Only Federal Funds may be used to pay salaries and benefits for the FTEs hired for this purpose.

41. Local Reporting on DSH, Uncompensated Care, Delivery System Reform Incentive Payment, and Indigent Care Expenditures. Out of funds appropriated above, and as the state Medicaid operating agency, the Health and Human Services Commission shall develop a report that non-state public hospitals, private hospitals, hospital districts, physicians and private administrators shall use to describe any expenditures they make through the Disproportionate Share Hospital (DSH) program, the Uncompensated Care (UC) Pool, the Delivery System Reform Incentive Payment (DSRIP) Pool, and the Indigent Care program. The commission shall determine the format of the report, which must include expenditures by method of finance per

year. In addition, the commission annually shall require contracted hospital providers to report payments to entities who provide consultative services regarding revenue maximization under the medical assistance program and any other governmentally funded program, including UC, DSRIP, and DSH. Information included in the reports of payments to entities providing consultative services from contracted hospitals shall include:

- a. the total amount of aggregated payments to all such entities by county;
- b. the purpose of the payment(s);
- c. the source of the payment(s);
- d. the program for which consultative services were provided; and
- e. any other information the commission believes pertinent.

42. Texas Women's Health Program: Savings and Performance Reporting. It is the intent of the Legislature that the Health and Human Services Commission submit a bi-annual report to the Legislative Budget Board and the Governor that includes the following information:

- a. enrollment levels of targeted low-income women and service utilization by geographic region, delivery system, and age;
- b. savings or expenditures in the Medicaid program that are attributable to enrollment levels as reported in section (a);
- c. descriptions of all outreach activities undertaken for the reporting period; and
- d. the total number of providers enrolled in the Texas Women's Health Program network.

It is the intent of the Legislature that if the findings of the report show a reduction in women enrolled or of service utilization of greater than 10 percent relative to calendar year 2011, the agency shall, within existing resources, undertake corrective measures to expand provider capacity and/or client outreach and enrollment efforts.

43. Use of PARIS Data and Appropriation of Savings to the Texas Veterans Commission Realized from the Use of PARIS Data. Out of funds appropriated above in Goal B, Medicaid, the Health and Human Service Commission shall:

- b. Transfer \$50,000 of General Revenue Funds in fiscal year 2016 and \$50,000 in fiscal year 2017 to the Texas Veterans Commission to partially fund 2.0 full-time equivalents who will work as veteran benefit counselors to investigate and analyze the information/data received from the federal Public Assistance Reporting Information System (PARIS). The PARIS information will be used by the Texas Veterans Commission to assist and facilitate claims for veterans receiving Medicaid or other state public benefits for which veterans are entitled from the Department of Veterans Affairs.
- c. Ten percent of the General Revenue savings during fiscal year 2016 that was the result of pursuing information from the Public Assistance Reporting Information System (PARIS) as calculated by the Health and Human Services Commission (HHSC) according to procedures or rules for making the calculations adopted by HHSC shall be credited by the Comptroller to the Texas Veterans Commission Veterans' Assistance Fund Account No. 368 from which expenditures were originally made and such funds are hereby appropriated to the Texas Veterans Commission in fiscal year 2017.

- b. **Enhanced Match Assumptions and Reporting.** Health and human services agencies listed in Article II of this Act shall submit to the Legislative Budget Board and the Governor the monthly number of clients receiving services eligible for any enhanced federal match as well as the amount of eligible expenditures subject to an enhanced match, by strategy. The data shall be submitted on a monthly basis in a format specified by the Legislative Budget Board. Enhanced federal matches include, but are not limited to, those made available through the Money Follows the Person demonstration, Balancing Incentive Program, and Community First Choice Program. Whether or not a match meets the definition of enhanced federal match for purposes of this section will be at the discretion of the Legislative Budget Board.

Appropriations in Article II of this Act have been adjusted to reflect the following increased Federal Funds and reduced General Revenue Funds due to enhanced matches under the Money Follows the Person demonstration, Balancing Incentive Program, and Community First Choice program:

- (1) \$32,760,469 million at the Department of Aging and Disability Services; and
- (2) \$64,618,947 million at the Health and Human Services Commission.

Any Article II agency not listed herein is still subject to the requirements of subsections (b) and (c) of this provision if any agency expenditures receive an enhanced federal match.

- c. **Limitations on Use of Available General Revenue Funds.** In the event the actual FMAP and EFMAP should be greater than shown in subsection (a) and/or the amount of increased Federal Funds and reduced General Revenue Funds due to the enhanced matches should be greater than shown in subsection (b), the health and human services agencies in Article II of this Act are authorized to expend the General Revenue Funds thereby made available only upon authorization from the Legislative Budget Board and Governor.

To request authorization to expend available General Revenue Funds, an agency shall submit a written request to the Legislative Budget Board and the Governor. At the same time, the agency shall provide a copy of the request to the Comptroller of Public Accounts. The request shall include the following information, by fiscal year:

Additional information requested by the Legislative Budget Board or the Governor should be provided in a timely manner. The request and information provided subsequently shall be prepared in a format specified by the Legislative Budget Board.

**SPECIAL PROVISIONS RELATING TO
ALL HEALTH AND HUMAN SERVICES AGENCIES**
(Continued)

The request shall be considered to be approved unless the Legislative Budget Board or the Governor issue a written disapproval within 30 business days of the date on which the staff of the Legislative Budget Board concludes its review of the proposal to expend the funds and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor. Any requests for additional information made by the Legislative Budget Board shall interrupt the counting of the 30 business days.

The Comptroller of Public Accounts shall not allow the expenditure of General Revenue Funds made available if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

Sec. 8. Financial Monitoring of Community Centers. The Department of Aging and Disability Services, the Department of State Health Services, and the Health and Human Services Commission shall enter into a written agreement that defines each agency's responsibilities for monitoring the expenditure by community centers, as defined in the Texas Health and Safety Code Sec. 534.0016(b) of funds appropriated by this Act. The written agreement shall include provisions for monitoring that require community centers to account for state funds separately from other sources of funds.

Sec. 9. Attorney General Representation. The Attorney General and the respective head of the Health and Human Services Commission or a health and human services agency listed in Chapter 531, Government Code, are hereby authorized to use the funds appropriated above to jointly select one or more Assistant Attorneys General to be assigned to the respective agency.

Sec. 10. Limitations on Transfer Authority. Notwithstanding the general transfer provisions of this Act, the Executive Commissioner of the Health and Human Services Commission is authorized to make transfers of funding, full-time equivalents (FTEs), and capital budget authority within and between health and human services agencies listed in Article II of this Act, subject to the following requirements. Transfers that exceed \$1,000,000 in General Revenue, capital authority in excess of \$100,000 or FTE adjustments of more than 10 FTEs are subject to the prior written approval of the Legislative Budget Board and the Governor. Transfers below these thresholds require written notification to the Legislative Budget Board and Governor within 30 days and a report on transfers of all amounts should be submitted to the Legislative Budget Board quarterly. No single transfer, or the total of all transfers from a strategy, may exceed 20.0 percent of the originating strategy's appropriation for funding or FTEs for the fiscal year without the prior written approval of the Legislative Budget Board and the Governor.

To request a transfer, the Executive Commissioner of the Health and Human Services Commission shall submit a written request to the Legislative Budget Board and the Governor. At the same time, the agency shall provide a copy of the request to the Comptroller of Public Accounts. The request shall include the following information:

- b. the names of the originating and receiving agencies and/or strategies and the method of financing and FTEs for each strategy by fiscal year;
- c. an estimate of performance levels and, where relevant, a comparison to targets included in this Act for both the originating and the receiving agencies and/or strategies; and
- d. the capital budget impact.

Additional information requested by the Legislative Budget Board or the Governor should be provided in a timely manner. The request and information provided subsequently shall be prepared in a format specified by the Legislative Budget Board.

**SPECIAL PROVISIONS RELATING TO
ALL HEALTH AND HUMAN SERVICES AGENCIES**
(Continued)

The Comptroller of Public Accounts shall not allow the transfer of funds if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

In the case of disaster or other emergency, this provision is superseded by the emergency-related transfer authority in Article IX of this Act.

Sec. 11. Payment for Compensatory Time. It is expressly provided that the Department of State Health Services and the Department of Aging and Disability Services, to the extent permitted by law, may pay FLSA non-exempt employees of state hospitals and state supported living centers on a straight-time basis for work on a holiday or for regular compensatory time hours when the taking of regular compensatory time off would be disruptive to normal business functions. In addition, any health and human service agency, with the explicit approval of the Health and Human Services Executive Commissioner, to the extent permitted by law, may pay FLSA non-exempt employees required to provide support during a federally declared disaster on a straight-time basis for work on a holiday or for regular compensatory time hours when the taking of regular compensatory time off would be disruptive to normal business functions.

Any recouped funds shall be used to achieve equity. In conjunction with the reallocation of funds, the departments shall provide a report to the Legislative Budget Board and the Governor on the amount of funds, the reasons for the recoupment, the local authorities involved, any performance contract requirements that were not met, and the purposes of the reallocation.

Sec. 21. Medicaid and Medicare Collections. The departments may also use patient benefit funds to offset the cost of these services for indigent clients.

Sec. 28. Language Interpreter Services. In order to compensate employees of health and human service agencies for assuming the duty of providing interpreter services to consumers whose primary language is not English, health and human service agencies, upon written authorization of the appropriate agency commissioner or his/her designee, may, from funds appropriated above, increase the salary of classified employees by an amount equal to a one step increase, or 3.25 percent, so long as the resulting salary rate does not exceed the rate designated as the maximum rate for the applicable salary group. This increase shall be granted only for the regular provision of interpreter services above and beyond the regular duties of the position, and shall be removed when these services are, for whatever reason, no longer provided by the employee or when they are no longer needed by the facility. Salary increases provided for this purpose are not merit increases and shall not affect an employee's eligibility to receive a merit increase. This authorization also includes employees who provide interpreter services in American Sign Language.

Sec. 29. State-Owned Housing. The Superintendent, Medical Director, Assistant Superintendent for Programs, and Director of Plant Maintenance at each state hospital and the Director, Medical Director, Assistant Director for Programs, and Director of Plant Maintenance at each state supported living center are authorized to live in state-owned housing at a rate determined by the Department of State Health Services or the Department of Aging and Disability Services. Pursuant to §12.020 of the Health and Safety Code, the Health and Human Services Commission may collect the following fees relating to mental health and intellectual disability program activities:

- a. Fees from the sale of written training materials, video tapes, audio tapes and in the form of electronic media, such materials having been developed in part or whole by the commission; and
- b. Licensing fees collected by the department in exchange for allowing individuals and companies to use any patented technology developed, in part or in whole, by the commission.

The commission may license the use of any copyright-protected material, trademark, trade secrets, and any patented technology relating to mental health or intellectual disability program activities. The authorization provided under this provision does not include any mineral royalties. Fees collected in the sale of training materials described under (a) above may be in excess of the actual reproduction cost incurred by the commission and shall be used to recoup the costs associated with developing the training materials. Fifty percent of the fees collected in licensing of any patented technology shall be devoted to further research and development of technologies reasonably believed to be of assistance to priority populations. The remaining 50 percent shall be deposited to the General Revenue Fund.

Sec. 32. Use of Trauma Fund Receipts. In an effort to maximize the availability of Federal Funds under the Title XIX Medical Assistance Program for the purpose of providing reimbursement for uncompensated trauma care at designated facilities, the Department of State Health Services (DSHS) and the Health and Human Services Commission (HHSC) may enter into an interagency contract to allow for the transfer of funds from Account No. 5111, Trauma Facility and EMS, from DSHS to HHSC for this purpose. This interagency contract would allow for the transfer of the Account No. 5111 funds to the extent that the use of these funds in this manner would not reduce reimbursements that otherwise would have been provided for uncompensated trauma care to designated facilities.

Sec. 33. Donations from Individuals, Community Groups and Volunteer Services Councils. It is expressly provided that the Department of State Health Services and the Department of Aging and Disability Services, in accordance with §533.001 of the Health and Safety Code and to the extent permitted by law, may accept donations for permanent improvements at the state hospitals and the state supported living centers from individuals, community groups and local Volunteer Services Councils. Permanent improvements are defined as an improvement to a state facility that involves construction, building system(s), and/or landscaping.

Sec. 34. Efficiencies at Local Mental Health Authorities and DADS Local Authorities. It is the intent of the Legislature that the local mental health authorities and DADS local authorities that receive allocations from the funds appropriated above to the Department of Aging and Disability Services and the Department of State Health Services shall maximize the dollars available to provide services by minimizing overhead and administrative costs and achieving purchasing efficiencies. Among the strategies that should be considered in achieving this objective are consolidations among local authorities and partnering among local authorities on administrative, purchasing, or service delivery functions where such partnering may eliminate redundancies or promote economies of scale. The Legislature also intends that each state agency which enters into a contract with or makes a grant to local authorities does so in a manner that promotes the maximization of third party billing opportunities, including to Medicare and Medicaid.

It is the Legislature's intent that DADS local authorities not expend funds appropriated to the Department of Aging and Disability Services in Strategies A.1.1, Intake, Access & Eligibility, and A.4.2, Intellectual Disability Community Services, to supplement the rate-based payments they receive to fund their costs as providers of waiver or ICF/IID services.

Sec. 35. Texas Women's Health Program Contingency. Contingent upon a decision by the Health and Human Services Commission (HHSC) or other authorized health and human services agency listed under Chapter 531, Government Code, to cease operations of the program funded in Strategy D.2.3, Texas Women's Health Program, whatever unexpended or unobligated General Revenue Funds remaining in the strategy at the termination of the program shall be transferred by HHSC to the Department of State Health Services, Strategy B.1.4, Community Primary Care Services, for the purpose of providing women's health services.

Sec. 36. Limitation on Unexpended Balances: General Revenue for Medicaid. - b. The following information shall be provided for fiscal year 2017:
 - (1) a detailed explanation of the purpose(s) for which the unexpended balance(s) will be used and whether the expenditure will be one-time or ongoing;
 - (2) the amount of the expenditure by strategy;
 - (3) an estimate of performance levels and, where relevant, a comparison to targets in this Act; and
 - (4) the capital budget impact.

An agency shall submit a revised written request by October 1, 2016 if the amount of the estimated unexpended balance(s) varies by more than five percent from the amount estimated in the original request.

Additional information requested by the Legislative Budget Board or the Governor should be provided in a timely manner. The request and information provided subsequently shall be prepared in a format specified by the Legislative Budget Board.

The request shall be considered to be approved unless the Legislative Budget Board or the Governor issues a written disapproval within 30 business days of the date on which the staff of the Legislative Budget Board concludes its review of the proposal to expend the funds and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor. Any requests for additional information made by the Legislative Budget Board shall interrupt the counting of the 30 business days.

The Comptroller of Public Accounts shall not allow the use of unexpended balances if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

Sec. 37. Appropriation of Receipts: Civil Monetary Damages and Penalties. Included in the amounts appropriated above for the 2016-17 biennium are the following:

- b. \$780,000 in General Revenue for the Department of State Health Services;

These amounts are contingent upon the collection of civil monetary damages and penalties under Human Resources Code §§32.021 and 32.039, and Health and Safety Code §431.0585. Any amounts collected above these amounts by the respective agency are hereby appropriated to the respective agency in amounts equal to the costs of the investigation and collection proceedings conducted under those sections, and any amounts collected as reimbursement for claims paid by the agency. For DADS,

Additionally, transfer from DADS Strategy A.6.4, Promoting Independence Services may not exceed \$22,686,567 in General Revenue Funds and \$30,993,453 in Federal Funds (\$53,680,020 in All Funds). - b. Notwithstanding the limitations on transfer authority in Special Provisions Relating to All Health and Human Services Agencies, Section 10 and Article IX, Section 14.01 and contingent on implementation of the STAR Kids program, or other mandatory capitated managed care program for children with disabilities, the Executive Commissioner of the Health and Human Services Commission (HHSC) may transfer General Revenue Funds and Federal Funds appropriated to the Department of State Health Services (DSHS) in fiscal year 2017 in Strategy B.2.4, NorthSTAR to HHSC, Strategy B.1.1, Aged and Medicare-Related and Strategy B.1.2, Disability-Related. Transfer from DSHS is limited to amounts necessary to provide services previously available from NorthSTAR through a capitated managed care program at HHSC. The transfer from DSHS Strategy B.2.4, NorthSTAR, may not exceed \$2,731,147 in General Revenue Funds and \$3,620,658 in Federal Funds (\$6,351,505 in All Funds) without the prior written approval of the Legislative Budget Board and the Governor. HHSC shall notify the Legislative Budget Board and Governor's Office of the actual transfer amounts and estimated impact on performance measures at least thirty days prior to transferring funds. To transfer an amount in excess of that listed above, HHSC shall submit a written request to the Office of the Governor and the Legislative Budget Board.

Sec. 39. Appropriation of Unexpended Balances: Funds Recouped from Local Authorities.

Notwithstanding other provisions of this Act, any state funds appropriated for fiscal year 2016 recouped by the Department of Aging and Disability Services (DADS) or the Department of State Health Services from a local mental health authority or DADS local authority for failing to fulfill its performance contract with the State, are hereby appropriated to the respective agency for the same strategy, to reallocate to other local mental health authorities or DADS local authorities in fiscal year 2017.

Each agency shall provide a report to the Legislative Budget Board and the Governor by June 1, 2016 that includes the amount of the recoupment by strategy, the reasons for the recoupment, the local authorities involved, any performance contract requirements that were not met, and the purposes of the reallocation.

Sec. 40. Transfer Authority Related to the Texas Home Living Waiver. Notwithstanding the limitations on transfer authority in Special Provisions Relating to All Health and Human Services Agencies, Section 10 and Article IX, Section 14.01 and contingent on the transition of Medicaid program benefits for persons enrolled in the Texas Home Living Waiver to the STAR+PLUS program, or other capitated managed care program, the Executive Commissioner of the Health and Human Services Commission (HHSC) may transfer General Revenue Funds and Federal Funds appropriated to the Department of Aging and Disability Services (DADS) in fiscal year 2017 in Strategy A.3.5, Texas Home Living Waiver to HHSC, Strategy B.1.1, Aged and Medicare-Related and Strategy B.1.2, Disability-Related. available under managed care, amounts sufficient to provide those services should be retained in DADS Strategy A.3.5, Texas Home Living Waiver. HHSC shall notify the Legislative Budget Board and Governor's Office of the actual transfer amounts and estimated impact on performance measures at least thirty days prior to transferring funds.

Sec. 41. Appropriation Authority for Intergovernmental Transfers.

- a. In addition to funds appropriated above and in an effort to maximize the receipt of federal Medicaid funding, the Health and Human Services Commission and the Department of Aging and Disability Services may expend intergovernmental transfers (IGTs) received as Appropriated Receipts-Match for Medicaid for the purpose of matching Medicaid Federal Funds for payments to Medicaid providers.
- b. For authorization to expend the funds, HHSC shall submit a written request to the Legislative Budget Board and the Governor. At the same time, the agency shall provide a copy of the request to the Comptroller of Public Accounts. The request shall include information regarding the strategy allocation of the IGT, the amount requested in each fiscal year, the All Funds impact to the budget, the impact to the rate or premium for which the IGT will be used (subject to Special Provisions, Section 44 approval), and the specific purpose and program for which the funds will be used. The request must also include a copy of a written agreement from the governmental entity that is transferring the funds that the funding be spent in the manner for which it is being requested.

The request shall be considered to be approved unless the Legislative Budget Board or the Governor issues a written disapproval within 30 business days of the date on which the staff of the Legislative Budget Board concludes its review of the proposal to expend the funds and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor. Any requests for additional information made by the Legislative Budget Board shall interrupt the counting of the 30 business days.

The Comptroller of Public Accounts shall not allow the use of the funds if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

Sec. 42. HHS Office Consolidation and Co-location. No funds appropriated under this Act may be expended for Health and Human Services Commission or health and human services agencies listed in Chapter 531, Government Code, for office or building space leased by the Texas Facilities Commission (TFC) on behalf of these agencies where the determination has been made that the leased space is no longer needed due to: 1) a change in client demographics resulting in the ability to relocate staff to other locations, 2) a change in service delivery model or improvement in business processes, or 3) consolidations of office or building space to achieve cost or operational efficiencies. Prior to vacating any space and asking TFC to cancel a lease, HHSC will perform subsections (a) and (b) below:

- a. Conduct an evaluation of the space to be vacated and document the factors that substantiate the decision to vacate the space. This evaluation may include client demographics, employee usage and travel status, facility costs, facility location, facility condition, Texas Accessibility Standards, and safety.
- b. Provide written notification to the Texas Facility Commission at least 270 days prior to the date of the lease cancellation. At the same time, HHSC shall provide notification to the Legislative Budget Board and the Governor's office of the intent to terminate a lease and the anticipated savings to be realized from consolidation and efficiencies.
- c. The Executive Commissioner is authorized, contingent upon approval from the Legislative Budget Board and the Governor, to utilize any of the freed-up General Revenue Funds or Other Funds reported under section (b) or funds freed up because of business process improvements or cost saving initiatives within eligibility operations for the purposes of reinvesting in improved business practices and technology modernization projects that promote more efficient use of space, state staff and resources across the HHS system.

**SPECIAL PROVISIONS RELATING TO
ALL HEALTH AND HUMAN SERVICES AGENCIES**

(Continued)

- d. To request approval to utilize the freed-up funding for purposes under section (c), HHSC shall submit a written request to the Legislative Budget Board and the Governor. At the same time, the agency shall provide a copy of the request to the Comptroller of Public Accounts. The request shall include the following information:
 - (1) a detailed explanation of the project to be undertaken and the efficiencies to be realized;
 - (2) the names of the originating and receiving strategies and agencies and the method of financing for each strategy by fiscal year;
 - (3) an estimate of performance levels and, where relevant, a comparison to targets included in this Act for both the originating and the receiving strategies; and
 - (4) the capital budget impact.
- e. The request shall be considered to be approved unless the Legislative Budget Board or the Governor issues a written disapproval within 30 business days of the date on which the staff of the Legislative Budget Board concludes its review of the proposal to expend the funds and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor. Any requests for additional information made by the Legislative Budget Board shall interrupt the counting of the 30 business days.
- f. The Comptroller of Public Accounts shall not allow the transfer of funds authorized by the above subsection if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

Sec. 43. Waiver Program Cost Limits.

- a. Individual Cost Limits for Waiver Programs. It is the intent of the Legislature that the Department of Aging and Disability Services and Health and Human Services Commission comply with the cost-effectiveness requirements of the Centers for Medicare and Medicaid Services and set the individual cost limit for each waiver program as follows:
 - (1) Medically Dependent Children Program: 50 percent of the reimbursement rate that would have been paid for that same individual to receive services in a nursing facility on August 31, 2010;
 - (2) Community Living Assistance and Support Services Program: The fixed amount of \$114,736.07 based on historical annualized per capita cost of providing services in an ICF/IID to an individual qualifying for an ICF/IID Level of Care VIII;
 - (3) Deaf-Blind with Multiple Disabilities Program: The fixed amount of \$114,736.07 based on historical annualized per capita cost of providing services in an ICF/IID to an individual qualifying for an ICF/IID Level of Care VIII;
 - (4) Home and Community-based Services Program: 200 percent of the reimbursement rate that would have been paid for that same individual to receive services in an ICF/IID on August 31, 2010; and
 - (5) STAR+PLUS Community-Based Alternatives: 202 percent of the reimbursement rate that would have been paid for that same individual to receive services in a nursing facility.
- b. **Use of General Revenue Funds for Services.**
 - (1) Out of funds appropriated for the waiver programs identified above, and subject to the terms of subsection (c) below, the department and commission are authorized to use General Revenue Funds to pay for services if:
 - (i) the cost of such services exceeds the individual cost limit specified in a medical assistance waiver program listed above;
 - (ii) federal financial participation is not available to pay for such services; and

**SPECIAL PROVISIONS RELATING TO
ALL HEALTH AND HUMAN SERVICES AGENCIES**
(Continued)

- (iii) department or commission determines that:
 - (a) the person's health and safety cannot be protected by the services provided within the individual cost limit established for the program; and
 - (b) there is no other available living arrangement in which the person's health and safety can be protected at that time, as evidenced by:
 - (i) an assessment conducted by clinical staff of the department or commission; and
 - (ii) supporting documentation, including the person's medical and service records.
- (2) Out of funds appropriated under this Article for the waiver programs identified above, and subject to the terms of subsection (c) below, the department and commission are authorized to use General Revenue Funds to continue to provide services to a person who was receiving medical assistance waiver program services on September 1, 2005, at a cost that exceeded the individual cost limit specified in the medical assistance waiver program, if:
 - (i) federal financial participation is not available to pay for such services; and
 - (ii) continuation of those services is necessary for the person to live in the most integrated setting appropriate to the needs of the person.
- (3) Authority provided in (b) above is contingent upon the agency submitting a report in writing to the Legislative Budget Board and Governor on October 1 of each year of the biennium. The report shall include the number of clients by program which exceeds cost limits and the unmatched General Revenue associated with each by fiscal year.

Sec. 44. Rate Limitations and Reporting Requirements. Notwithstanding other provisions of this Act, the use of appropriated funds for a rate paid by a health and human services agency as listed in Chapter 531, Government Code, shall be governed by the specific limitations included in this provision.

For purposes of this provision, "rate" is defined to include all provider reimbursements (regardless of methodology) that account for significant expenditures, made by a health and human services agency in Article II of this Act. "Fiscal impact" is defined as an increase in expenditures due to either a rate change or establishment of a new rate, including the impact on all affected programs. Additionally, estimates of fiscal impacts should be based on the most current caseload forecast submitted by the Health and Human Services Commission (HHSC) pursuant to other provisions in this Act and should specify General Revenue-related Funds, TANF Federal Funds, and All Funds. Fiscal estimates that impact multiple risk groups may be reported at an aggregate level and acute care services may be reported by rate category.

a. Notification of Change to Managed Care Rates.

- (1) No later than 45 calendar days prior to implementation of a change to premium rates for managed care organizations (MCO) contracting with HHSC, the Executive Commissioner of the HHSC shall submit the following information in writing to the Legislative Budget Board, the Governor, and the State Auditor:
 - (i) a schedule showing the original and revised rate, which should include information on the rate basis for the MCO reimbursements to providers;
 - (ii) a schedule and description of the rate-setting process for all rates listed for subsection (1); and
 - (iii) an estimate of the fiscal impact, by agency and by fiscal year, including the amount of General Revenue Funds, TANF Federal Funds, and All Funds for each rate change listed for subsection (1).

**SPECIAL PROVISIONS RELATING TO
ALL HEALTH AND HUMAN SERVICES AGENCIES**
(Continued)

- (2) Within seven days of the submission requirements listed above in subsections (i) through (iii), the Executive Commissioner of the HHSC shall submit a schedule identifying an estimate of the amount of General Revenue Funds, TANF Federal Funds, and All Funds by which expenditures at such rate levels would exceed appropriated funding.
- b. **Quarterly Notification.** On a quarterly basis, HHSC shall provide notice of changed rates for:
- (1) new procedure codes required to conform to Federal Healthcare Common Procedure Coding System (HCPCS) updates;
 - (2) revised rates occurring as a result of a biennial calendar fee review;
 - (3) any rate change estimated to have an annual fiscal impact of less than \$500,000 in General Revenue-related Funds or TANF Federal Funds; and
 - (4) Any rate change for which approval is obtained under section (c).
- c. **Limitation on Rates that Exceed Appropriated Funding.** With the exception of those rates specified in subsections (1) - (3) of section (b), Quarterly Notification, no agency listed in Chapter 531, Government Code, may pay a rate that would result in expenditures that exceed, in any fiscal year, the amounts appropriated by this Act to a strategy for the services to which the rate applies without the prior written approval of the Legislative Budget Board and the Governor.

To request authorization for such a rate, the Executive Commissioner of the HHSC shall submit a written request to the Legislative Budget Board and the Governor. At the same time, the agency shall provide a copy of the request to the Comptroller of Public Accounts. The request shall include the following information:

- (1) a list of each new rate and/or the existing rate and the proposed changed rate;
- (2) an estimate of the fiscal impacts of the new rate and/or rate change, by agency and by fiscal year; and
- (3) the amount of General Revenue Funds, TANF Federal Funds, and All Funds, by fiscal year, by which each rate would exceed appropriated funding for each fiscal year.

The request shall be considered to be approved unless the Legislative Budget Board or the Governor issues a written disapproval within 30 business days of the date on which the staff of the Legislative Budget Board concludes its review of the request for authorization for the rate and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor. Any requests for additional information made by the Legislative Budget Board shall interrupt the counting of the 30 business days.

- d. Additional information requested by the Legislative Budget Board or the Governor should be provided in a timely manner. Notifications, requests and information provided subsequently shall be prepared in a format specified by the Legislative Budget Board.
- e. The Office of the State Auditor may review the fiscal impact information provided under sections (a) through (c) along with supporting documentation, supporting records, and justification for the rate increase provided by the Health and Human Services Commission and report back to the Legislative Budget Board and the Governor before the rate is implemented by the Health and Human Services Commission or operating agency.
- f. The Comptroller of Public Accounts shall not allow the expenditure of funds for a new or increased rate if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

- b. **Funding for Additional Sites and Participants.** Notwithstanding Department of Aging and Disability Services, Rider 7; Special Provisions Relating to All Health and Human Services Agencies, Section 10; and Article IX, Section 14.01, if funds appropriated elsewhere in this Act to DADS in Strategy A.5.1, Program of All-inclusive Care for the Elderly (PACE) are not sufficient to pay for services described in subsections (a) and/or (b), the Health and Human Services Commission (HHSC) shall transfer funds from Goal B, Medicaid, Strategy B.1.1, Aged and Medicare-related, or Goal B, Medicaid, Strategy B.1.2, Disability-Related, in an amount not to exceed \$1,805,922 in General Revenue Funds in fiscal year 2016 and \$5,114,660 in General Revenue Funds in fiscal year 2017. The Executive Commissioner of HHSC must certify that funds appropriated to DADS in Strategy A.5.1, Program of All-inclusive Care for the Elderly (PACE) were insufficient due to an increase in the number of participants served, not due to an increase in rates for existing PACE sites. The Executive Commissioner of HHSC shall provide written notification to the Legislative Budget Board and the Governor of the certification and the transfer amounts within 30 business days of the date on which any transfer occurs.
- d. **Additional Funding for PACE program.** Should transfer authority provided in subsection (b) be insufficient to serve the increase in participants described by subsection (a), the Executive Commissioner of HHSC shall submit a written request to the Legislative Budget Board and the Governor for approval to transfer additional funds from HHSC Goal B, Medicaid, Strategy B.1.1, Aged and Medicare-related, or Goal B, Medicaid, Strategy B.1.2, Disability-Related to DADS Strategy A.5.1, Program of All-inclusive Care for the Elderly (PACE). The request shall be considered to be approved unless the Legislative Budget Board or the Governor issues a written disapproval within 30 business days of the date on which the staff of the Legislative Budget Board concludes its review of the request and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor. Any requests for additional information made by the Legislative Budget Board shall interrupt the counting of the 30 business days.

- b. The Department of State Health Services shall annually report on their website state estimated summary data on the rate of elective early deliveries by payer type and health service region, and by facility to the extent allowed by state and federal law.
- c. The Texas Health and Human Services Commission shall regularly audit claims submitted in the Texas Medicaid fee-for-service and managed care programs for obstetric delivery procedures that include a modifier indicating that the delivery was medically necessary and prior to 39 weeks of gestation.
- d. The Texas Health and Human Services Commission and the Department of State Health Services shall evaluate the effectiveness of strategies to reduce early elective deliveries using improved data and audit results and submit a report to the Legislative Budget Board and the Governor by December 1, 2016.

- a. The Office of the Long Term Care Ombudsman shall be the state entity designated to collect, monitor, and analyze data related to all nursing facility resident complaints regardless of the payer of services, and shall include in their annual report information and data that identifies Medicaid managed care organizations' performance at the facility level that is related to nursing facility resident complaints, including, but not limited to: (1) the source and location of the complaint, (2) the nature of complaint, (3) the disposition of complaint, (4) the complaint resolution length, and (5) any other information and data that the Long Term Care Ombudsman identifies as relevant.

 2. HHSC shall quarterly provide the above information to the Department of Aging and Disability Services Office of the Long Term Care Ombudsman in a format the Long Term Care Ombudsman specifies.

The information shall be prepared in a consumer-friendly, printed format that allows beneficiaries to compare managed care organizations' consumer complaint performance by MCO, services provided, geographic location, and across time. The printed information shall be distributed to all respective beneficiaries of health and human service programs provided by a MCO. The information shall be distributed to beneficiaries via postal mail annually during enrollment or other predetermined mailing period.
