

Amend HB 1774 on third reading, in added Section 542A.006(g), Insurance Code, by striking "if sufficient evidence supports the submission, a jury may be asked to determine the agent's responsibility for claim-related damage caused to the claimant" and substituting "if supported by sufficient evidence, the trier of fact may be asked to resolve fact issues as if the agent were a defendant, and a judgment against the insurer must include any liability that would have been assessed against the agent".
